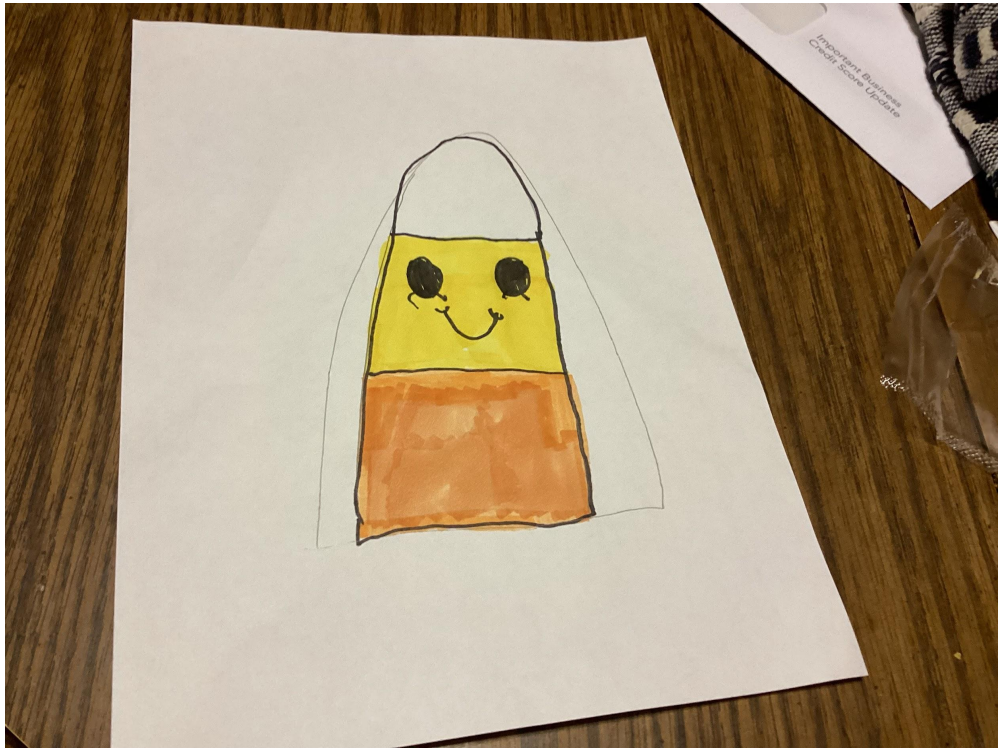
How To **Make** a Paper **Squishy**

by: Kenley Knight

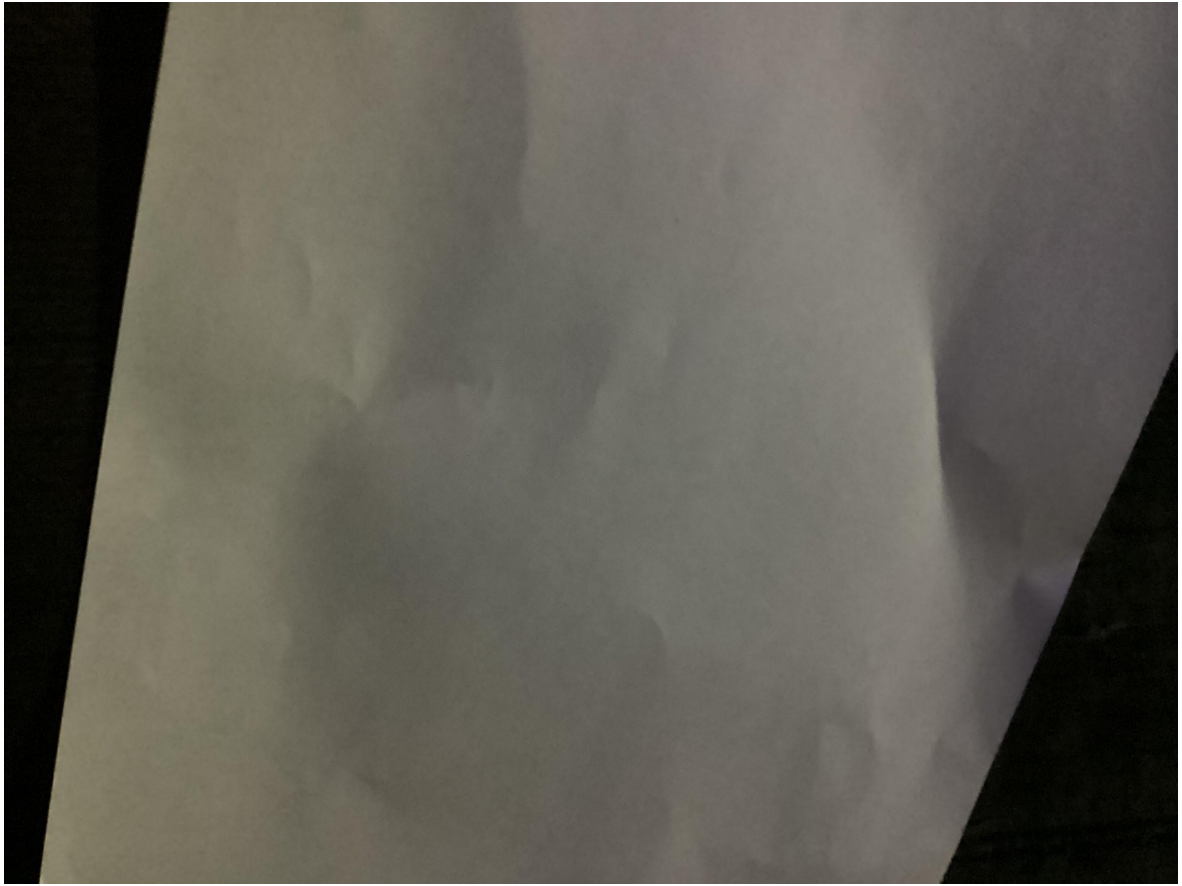
Step 1: Create a picture and color your picture.



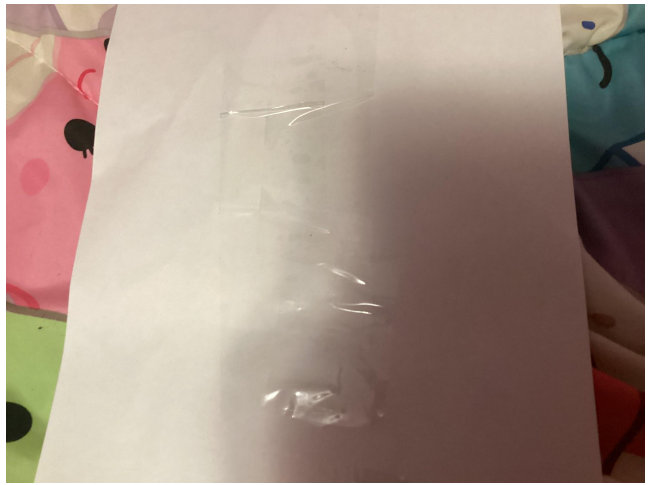
Step 2: Use your tape to tape it on a blank piece of paper.

Step 3: Cut it out.

Step 4: Get another blank piece of paper.

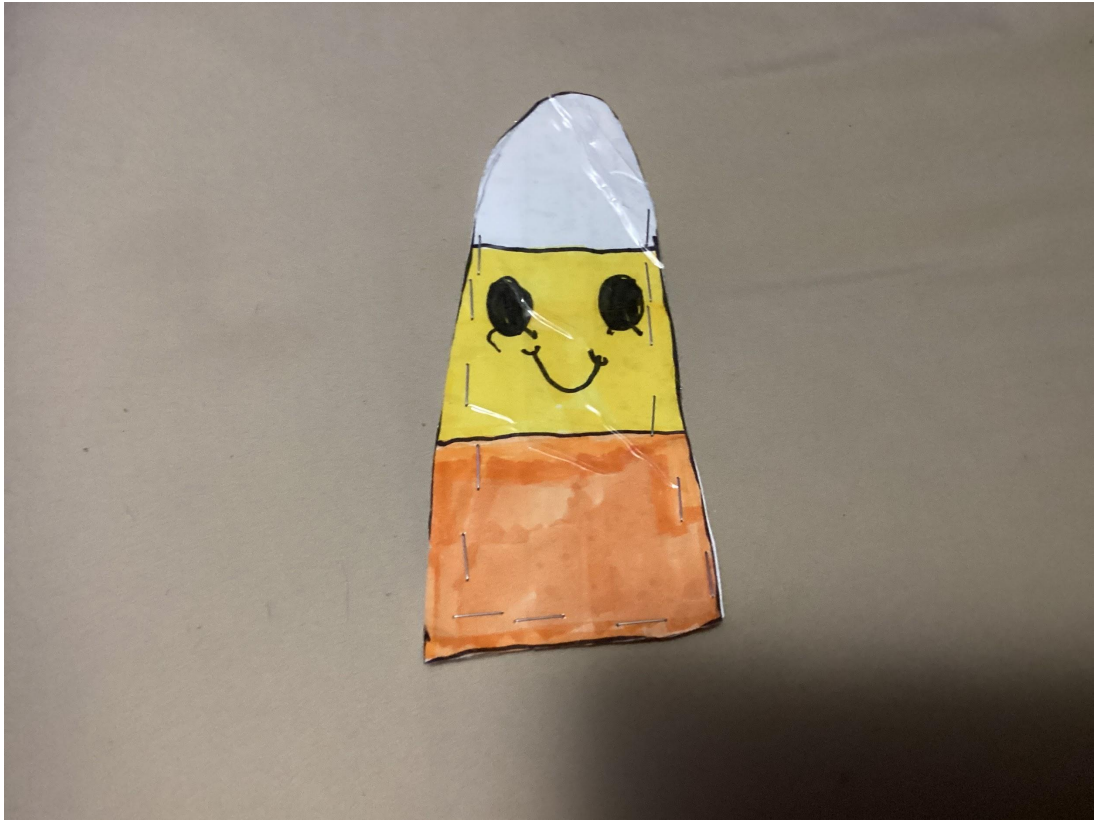


Step 5: Take your blank piece of paper and tape it with your tape on both sides.



Step 6: Cut it out again, when you cut it out you should have two pieces of paper the same size.

Step 7: Staple around the squishy, but make sure you leave a pocket in the middle.



Step 8: Put pom-poms in the pocket make sure there’s space to staple it up.

Step 9:
Staple up the hole.

Enjoy!
