Members, Board of Education and Citizens  
Rockwood School District  
St. Louis County, Missouri

The Annual Comprehensive Financial Report (ACFR) of the Rockwood R-VI School District (the District), St. Louis County, Missouri, for the fiscal year ended June 30, 2025, is presented on the following pages. The District is governed by an elected seven member Board of Education (the Board). The Board is the basic level of government, which has financial accountability and control over all activities related to K-12 public school education within the District. The Board is not included in any other governmental reporting entity, as defined by Governmental Accounting Standards Board (GASB) pronouncements, since Board members are elected by the public and have decision making authority and primary accountability for fiscal matters. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe that data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds; and that all disclosures necessary to enable the reader of the statements to gain a full understanding of the District's financial status have been incorporated in the Report.

The report has been prepared by the District's Finance Department following the requirements and guidelines contained in the GASB Codification of Governmental Accounting and Financial Reporting Standards. The District's activities and funds are all presented in this report and have been audited by the District's Certified Public Accountants, Kerber, Eck & Braeckel LLP, who rendered an unmodified opinion for the District again this year.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Managements' Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A follows the independent auditors' report.

## The District

### History

The District began with the opening of Eureka High School in 1908. It was the first four-year high school in St. Louis County west of Kirkwood. The District, in its present form, was created on October 29, 1949 by a merger of 26 districts. The name was changed from Reorganized School District No. R-VI of St. Louis County, Missouri to Rockwood R-VI School District, St. Louis County, Missouri in April 1964. The District comprises 150-square miles located in southwest St. Louis County and a small section of northern Jefferson County. Geographically, the District represents approximately 30% of St. Louis County. It encompasses all or parts of twenty communities including Ballwin, Chesterfield, Ellisville, Eureka, Fenton, Manchester and Wildwood. According to the 2020 Census, this represents approximately 156,223 residents in 59,967 households. The District has a total of 33 school buildings comprised of 4 high schools, 6 middle schools, 19 elementary schools, a Center for Creative Learning building and three Early Childhood Centers. Overall, the District's 3,300 plus employees work in 38 District buildings across our 150-square mile area to service our students. The chart below summarizes the District's enrollment history for Resident and Voluntary Interdistrict Choice Corporation (VICC) students over a 10-year period.

	Resident	VICC	Total
2015-16	19,485	1,541	21,026
2016-17	19,309	1,544	20,853
2017-18	19,396	1,465	20,861
2018-19	19,398	1,396	20,794
2019-20	19,647	1,265	20,912
2020-21	18,962	1,163	20,125
2021-22	19,190	1,096	20,286
2022-23	18,922	964	19,886
2023-24	18,571	831	19,402
2024-25	18,273	662	18,935

Rockwood School District has the largest enrollment in the St. Louis County area but we have been experiencing a gradual enrollment decline in total over the last 10 years. While certain areas within the District's boundaries have seen growth due to residential development during this timeframe, over all our enrollment has decreased 2,091 students, or 9.9% since 2015/16. Enrollment has decreased an average of 5.3% in other St. Louis County school districts and an average of 2.9% at the State level over the same time period. The decline in enrollment involves both our students who reside in the District as well as students through the VICC program, which is being phased out.

Annually, the District updates our enrollment forecast using a cohort survival method based on the September membership counts that are reported to the State. During the 2024/25 school year, the District engaged with a consulting firm to perform a demographic study that was presented to the Board of

Education in June 2025 that provided enrollment forecasts for the next 10 years. The District is continuing to analyze this report and incorporate the results in our budget and facility planning process.

## **General**

The Rockwood School District continues to be a leader in the field of public education. As a District that is Accredited, the highest level of accreditation by the State, Rockwood students are renowned for their achievements. The 2024/25 school year has reinforced the bedrock principles that make the Rockwood School District a special place to learn and grow. The District's 33 schools and supporting programs collectively make up one of the highest performing school districts in the country. The following are some of the highlights of academic achievement in Rockwood.

- Rockwood's class of 2023 averaged a composite score of 23.1 on the ACT, outperforming the state average of 19.9
- Rockwood students are performing at high levels in the content areas of Language Arts, Mathematics, Science and Social Studies on state assessment tests.
- Advanced Placement (AP) results shows 87% of students in Rockwood have scores of 3 or higher.
- The graduation rate for Rockwood students is 96.1% compared to the state average of 90.8%
- All four Rockwood high schools earned the Distinguished School designation by Project Lead the Way and are among 291 schools around the nation and 26 from Missouri.
- All four Rockwood high schools were listed in the "Best High School" rankings by U.S. News and World Report.
- Thirty Rockwood high school seniors earned their associate degree at the same time as their high school diploma through the Early College Partnership, a joint venture with St. Louis Community College-Wildwood.
- Blevins Elementary was named a 2024 National Schools of Character and three schools, Blevins Elementary, Eureka Elementary and Lafayette High School were named State Schools of Character.
- Wildwood Middle School earned a Promising Practices Award from Character.org for their innovative practices in the area of character education.

Rockwood has been one of Missouri's and St. Louis County's largest school districts. There were 18,935 students enrolled including our Special School District students. The District serves this student body in twenty elementary facilities (including a Center for Creative Learning), six middle schools (grades 6-

8) and four high schools. The average age of our building is 49 years old with the oldest building being built in 1938 and our most recent building addition in 2019.

The District's nearly 3,300 teachers and staff members are dedicated to the same mission: We do whatever it takes to ensure all students realize their potential. The District prioritizes the physical safety and mental and social-emotional health of our students through a multi-tiered system of support. We keep our focus on our students' education through cultivating positive, respectful relationships that build a solid foundation for learning.

Approximately 82% of the District's teachers hold advanced degrees and currently 170 teachers have earned their National Board Certification. The District encourages its staff to further their education by offering college class tuition reimbursement. The current budget includes \$350,000 for teacher assistance and \$50,000 to assist nurses, administrators and support staff professional development endeavors.

The District is governed by the Board of Education, whose membership is elected for staggered three-year terms of office. The Board is a policy-making body whose primary function is to establish policies for the District, provide for the general operation and personnel of the District and to safeguard the assets of the District.

The District's programs cover the spectrum from birth to senior citizens. The Rockwood Early Childhood Education program has a longstanding reputation for excellence in educating children from birth to kindergarten with resources such as Parents as Teachers, screenings, preschool, diagnostics and special education. Special programs exist at all levels for students with special needs ranging from talented and gifted to modified programs and special instruction. Rockwood, like the other districts of St. Louis County, has intervention for its students with special needs from the Special School District of St. Louis County (SSD). The majority of the special needs children are served on the District's campuses while certain limited cases are served on the SSD campus.

The District responds to the needs of students who are culturally different, at risk of educational failure, bilingual or have special needs by providing a broad spectrum of programs, services and resources. The District has received national recognition for both the successful Talented and Gifted program and the exemplary Community Education program. Also recognized are the Partners in Education program with local corporate sponsors. The District's high schools offer numerous Advanced Placement and College Credit courses to prepare the graduating student to enter either college or the working world.

These initiatives and investments in enrichment of the full curriculum with emphasis on acceleration and differentiation result in the District's students experiencing a high level of achievement. Students continue to score above state and national norms on achievement tests.

The percentage of District students going on to post-secondary education is 87% (2024-2025). To ensure that District students receive the individualized educational experiences necessary, the average building level pupil-teacher ratios is 17:1. Curriculum study and writing is a continuous improvement process. Each curriculum document is reviewed on an annual basis and is revised and updated (in-depth year) on a six-year cycle via approval of the Board of Education.

Rockwood has operated our own transportation system since the 2016-17 school year and provides daily transportation for resident students to and from school and on school district sponsored activity trips. Like most school districts, Rockwood has faced a shortage of bus drivers which has resulted in the

reduction of routes offered to our students the last couple years. For those routes we manage on a daily basis, we provide transportation services for a daily average of 9,930 resident students.

The District participates in a Voluntary Transfer Student (VTS) program with the Voluntary Interdistrict Choice Corporation (VICC) in which St. Louis City resident students volunteer to transfer to the District's schools. The program is phasing out per State law; however, in our September 2024 official student count, this K-12 program represents 662 of our 18,935 students or about 3.5% of the population.

### **Accounting System and Budgetary Control**

The District's accounting system for governmental funds reflects the modified accrual basis of accounting. At the end of the year, the governmental funds are converted from the modified accrual basis to the accrual basis for presentation in district-wide financial statements. In developing the accounting system, consideration has been given to the adequacy of internal accounting controls. Internal controls are designed to provide reasonable but not absolute assurance regarding the safekeeping of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of those controls should not exceed the benefits and the evaluation of costs and benefits requires estimates and judgements by management. The District believes the internal controls over our accounting system adequately safeguards our assets and provides reasonable assurance of proper recording of financial transactions.

The District's accounting system is organized on the basis of funds, each of which is considered its own entity. The District follows Missouri State Statutes in establishing budgetary data (Chapter 67, RSMo) for each major fund of the political subdivision. The District considers four funds (General, Special Revenue-Teachers', Debt Service and Capital Projects) as major. Management has the ability to spend within their approved department or program's budget. The District may allocate unencumbered funds within a fund to a particular department or program but the overall changes to a fund's expenditures budget requires full disclosure and Board resolution for approval. Budgeted expenditures cannot exceed available monies plus estimated reserves for the year. The Board receives a monthly financial report which summarizes the financial activities of the District's operating, debt service and self-sustaining funds. The District is not a component unit of another report entity.

### **Economic Condition**

St. Louis County is the largest county in the State of Missouri and a major contributor to the economy of the state and the twelve-county metropolitan area, with approximately one million residents. The service sector continues to show the largest job growth in the County. The areas of medical, bio-technical, business and technology services are expected to provide long term employment growth in the County as manufacturing jobs continue to decline. The District is located in Southwest St. Louis County and residents have full access to the large and diverse employment base in the AAA rated St. Louis County.

The four major revenue sources for the District are local property taxes, state foundation formula, M&M Surtax and Prop C sales taxes and make up 90% of the District's total revenue. Local property taxes represent approximately 70% of the District's operating revenue budget.

Fiscal responsibility is a priority for the District as we incorporate the following factors in protecting the District's financial position:

- Careful forecasting of revenue and expense drivers
- Operational and program necessity
- Sustainability of expenditure trends
- Review of our self-insured health insurance fund
- Maintenance of our fund balance

Over the next few school years these factors will be challenged by circumstances within the District as well as the changing landscape in public education. A few examples of the challenges include:

- The financial outcome of Senate Bill 190 passed by the State of Missouri in May 2023 that provides tax relief to qualifying senior citizens which will impact our collection rate on local property taxes
- The District currently has the 19<sup>th</sup> lowest total tax levy across the 22 St. Louis County school districts.
- The decline in student enrollment will impact the District's Weighted Average Daily Attendance (WADA) included in the State's Basic Formula and will require careful monitoring for appropriate staffing.
- Formation of a state task force to review the State's methods of funding Missouri K-12 public schools will result in changes to funding that are currently unknown.
- The impact of legislative bills that reduce the State of Missouri's general revenue sources used to fund public education affect State funding beyond the Basic Formula, including the State's requirement to reimburse 75% of a District's transportation costs.

In November 2023, over 66.3% of voters approved Proposition 3 which allows for a total of \$0.54 cents to be transferred from the debt service levy to the capital projects levy, resulting in no increase to the total tax rate. This will support our long-term capital plan for meeting District needs in safety and security, technology and facility cycle maintenance. The transition will be finalized in the 2025/26 school year.

From a debt management standpoint, the District had outstanding long-term general obligation of \$72.3 million. The District continues to be a responsible steward of our community and we enjoy a bond rating among the highest in the nation, AAA. Rockwood is one of three school districts in the State of Missouri with this distinction.

### **Current Initiatives**

In Rockwood, we are striving to reach higher levels of excellence in order to meet the needs of our students and their learning. Our strategic plan (2020-2025), *The Way Forward*, carried us through the 2024/25 school year and represented our commitment to every child, every family and every employee of the Rockwood School District. We have transitioned to a new strategic plan in June 2025 in which the classroom remains at the core of our purpose – it is the reason our district exists. Our north star is our students; they inspire and shape every decision we make. They are at the heart of our new strategic plan for 2025-2030, *Forward Together*.

We recognize that our success depends on the collective efforts of the entire community. This is why we developed *The Rockwood Promise* as the foundation of our five-year plan. *The Rockwood Promise* is the embodiment of who we are and how we operate. This Promise acts as a shared foundation or starting point that addresses every child, empowering us to collectively achieve our district and community aspirations.

- **We Cultivate Belonging:** We promise to embrace diversity, foster strong relationships and ensure inclusivity.
- **We Empower All:** We promise to empower each other to take ownership of our learning and our future.
- **We Honor Dignity:** We promise to foster an environment where everyone is respected, safe, seen and heard.
- **We Embrace Innovation:** We promise to nurture curiosity, creativity and problem-solving to achieve at high levels.

The District's mission, vision and core values were an integral part of developing the *Forward Together* plan and *The Rockwood Promise*.

**Mission Statement:** We do whatever it takes to ensure all students realize their potential.

**Vision:** Every student love life and finds success.

**Core Values:** Affirm what we stand for and how we treat each other. These values define who we are as a school district – individually and collectively.

At the core of our strategic plan is the fundamental belief that we are all unique and gifted with a wide variety of skills, interests and talents. We learn in different ways and need support and opportunities to grow, learn and reach our highest potential. The budget is structured to support the District's goals and strategies outlined *Forward Together* and represent the priorities and major initiatives that will be underway through 2030. These goals and strategies include the following areas:

1. Nurturing Learning
2. Fiscal Responsibility
3. Highly Qualified Staff
4. Safe and Caring Schools

### **Significant Board Agreements**

The District has entered into agreements with the Rockwood National Education Association (RNEA), the Rockwood Custodial Education Association (RCEA), the Rockwood Association of Nurses (RAN), the Rockwood Association of Early Childhood Professionals (RAECP), the Rockwood Association of Social Workers (RASW), and the Transportation Local 610. Each of these agreements dictates the work environment and compensation for the members of each organization.

<b>Bargaining Unit</b>	<b>Contract Begin</b>	<b>Contract End</b>
RNEA *	7/1/2025	6/30/2028
RCEA	7/1/2024	6/30/2026

RASW	7/1/2024	6/30/2026
Local 610	7/1/2025	6/30/2028

\* includes salary schedule through 2026-27

### **Independent Audit**

The Revised Statutes of the State of Missouri and the Board policies of the District require an audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants that are selected by the District’s Board of Education. This requirement has been complied with and the auditors’ unmodified opinion is included in this report.

### **Financial Reporting Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Rockwood School District for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This was the twentieth year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has been awarded the Association of School Business Officials International (ASBOi) Certificate of Excellence in Financial Reporting (CAFR) for the years ended June 30, 2004 - 2024. The District will also submit this 2025 financial report for that coveted award. The District also participates in ASBO International’s Meritorious Budget Award (MBA) Program. For the past twenty-six years, the District has applied for and received the prestigious award for excellence in budgeting.

The Rockwood School District is the only school district in the State of Missouri to hold the distinction of earning a AAA rating, receiving the excellence in financial reporting awards from the GFOA and ASBOi as well as the MBA award from ASBOi.

**Closing Statement**

It is the District’s intention that this Annual Comprehensive Financial Report will provide the District’s management, parents and other interested patrons, outside investors and the local business community with the most meaningful financial presentation possible. In this report we intend to provide all readers a clear and concise picture of the District’s financial condition as of June 30, 2025.

Rockwood School District is an award-winning district with exemplary students, staff and resources. We are thankful for the loyalty and support of our taxpayers, the vision of the Board of Education, the dedication and hard work of fellow employees and the success of our students. In return, we promise to thoughtfully and prudently spend the funds entrusted to us especially during these unprecedented times to ensure all students in our District realize their potential.

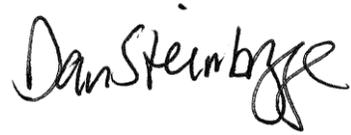

Respectfully submitted,

Dr. Curtis Cain  
Superintendent of Schools

**ROCKWOOD R-VI SCHOOL DISTRICT**  
**BOARD OF EDUCATION**  
**2025/26**

**Lynne Midyett, President**

**Term Expires 2026**

Lynne Midyett was appointed to the Rockwood Board of Education in June 2016. She has a history of service in public education, including her work as the former assistant superintendent of partner districts with Special School District. She began her career as a special education teacher serving Rockwood students. Ms. Midyett earned her Master of Arts in Special Education and her certification in Educational Administration. Her family has lived in Rockwood for over 25 years, and her children graduated from Marquette High School. She currently has three grandchildren attending Rockwood schools.

**Tamara Jo Rhomberg, Vice President**

**Term Expires 2027**

Ms. Rhomberg is a 40-plus year resident of the Rockwood School District with two children and two grandchildren who have graduated from Rockwood Schools. As a mother, a grandmother, and a great grandmother, education remains front and center as her focus.

With 50 years in education—a bachelor's degree in Elementary Education from Southeast Missouri State University, and a masters in Educational Process from Maryville University—Ms. Rhomberg's educational experience covers a wide range of roles and positions - 6 years in second grade in the Lindbergh School District, 10 years as a reading specialist at Kellison Elementary, 13 years as language arts/ intervention coordinator , OASIS coordinator and Title I coordinator in the Rockwood School District. After retiring from education, Ms. Rhomberg joined Zaner-Bloser Publishing as a National Literacy Consultant and for 6 years traveled the United States delivering professional development to educators of all levels. Ms. Rhomberg continues to support educators as an adjunct professor at Webster University where she teaches undergraduate/ graduate reading courses.

Ms. Rhomberg is an active member of various professional organizations including the International Literacy Association and currently serves on the St. Louis Suburban Reading Council as a director and is the Missouri Literacy Association president. During the 2017-2018 school year she served as an appointed director on the Rockwood School District Board of Education. Her long term educational opportunities and her district historical perspectives provide her with the knowledge, training, and experience to make complex decisions affecting Rockwood students, staff, parents, and patrons.

**Karen (Kary) Bachert, Director**

**Term Expires 2026**

Kary was elected to the Rockwood Board of Education in 2023. She is a lifelong resident of the Rockwood School District, attending Westridge, Selvidge, and Lafayette. A Mizzou graduate with an elementary education degree and masters degree in educational administration from UMSL, Kary taught in Rockwood from 1995-2006 at Crestview, Wild Horse and Kehrs Mill. She received teacher of the year honors twice. Kary currently works for the American Heart Association. Kary and her husband of 21 years, Jason (Lafayette '91) have two boys: Brady (Eureka '21) and Bennett (EHS Sophomore). Bachert has volunteered in the district for more than 15 years, and she currently works for the American Heart Association.

**Sarah Boyer, Director**

**Term Expires 2028**

Sarah was elected to the Rockwood Board of Education in 2025. She has been a teacher for 15 years, including eight years serving Rockwood students through the Special School District. ## Independent Auditors' Report

Board of Education  
Rockwood R-VI School District

### Report on the Audit of the Financial Statements

#### Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Rockwood R-VI School District, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Rockwood R-VI School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Rockwood R-VI School District, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Rockwood R-VI School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Compensated Absences

We draw attention to Note A to the financial statements, which describes the District's implementation of Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences, for the year ended June 30, 2025. In accordance with that Statement, and as further disclosed in the Note M to the financial statements, the District restated beginning governmental activities net position to recognize a liability for earned and unused employee sick leave that is more likely than not to be used as time off. Our opinion is not modified with respect to this matter.

#### Amortization of Premium and Discount on bonds

We draw attention to Note M to the financial statements, the District restated beginning governmental activities net position to recognize amortization of premium and discount on bonds that had previously been defeased. Our opinion is not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rockwood R-VI School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* (GAS) will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards* (GAS), we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Rockwood R-VI School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rockwood R-VI School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or

historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rockwood R-VI School District's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information Included in the Annual Comprehensive Financial Report**

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditors' report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2025, on our consideration of the Rockwood R-VI School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* (GAS) in considering the Rockwood R-VI School District's internal control over financial reporting and compliance.

**MANAGEMENT’S DISCUSSION AND ANALYSIS**  
**THE YEAR ENDED JUNE 30, 2025**  
**(UNAUDITED)**

The Management’s Discussion and Analysis (MD&A) of Rockwood School District’s (District) financial performance provides a comprehensive overview of the District’s financial activities and the results of operations for the fiscal year ended June 30, 2025. Readers of the District statements, including this MD&A, are encouraged to review the notes to the basic financial statements to enhance their understanding of the District’s financial performance.

The MD&A is provided at the beginning of the Annual Comprehensive Financial Report (ACFR) to communicate the past and current position of the District’s financial condition.

**Financial Highlights**

The key government-wide financial highlights for fiscal year 2024-25 are as follows:

At the government-wide level, the total net position was \$213.6 million at June 30, 2025 compared to a restated total net position of \$184.9 million at June 30, 2024 for an increase of \$28.7 million:

	<b>Increase (decrease) in millions</b>
Net investment in capital assets	\$ 12.1
Restricted for debt service	1.9
Restricted for certificated employees' compensation and benefits	2.2
Unrestricted	12.5
 Total increase at June 30, 2025	 \$ 28.7

**ROCKWOOD SCHOOL DISTRICT**  
**St. Louis County, Missouri**  
**MANAGEMENT DISCUSSION AND ANALYSIS**  
**FOR THE YEAR ENDED JUNE 30, 2025**  
**(UNAUDITED)**  
(continued)

- Net investments in capital assets increased \$12.1 million as a result of our capital assets net of depreciation decreasing \$10.4 million offset by reducing our outstanding bonds payable issued for capital assets by \$13.3 million and related net unamortized premium and discount by \$7.0 million along with a reduction in principal on our lease by \$2.6 million this year.
- The net position restricted for debt service increased \$1.9 million. Since the tax collections raised in debt service is solely used to pay for principal and interest on our outstanding general obligation debt, the amount restricted for debt service will fluctuate from year to year based on the collection of taxes offset by the maturity schedule of our outstanding bonds.
- Net position restricted for certificated employees' compensation and benefits increased \$2.2 million due to an increase in the amount of the operating tax allocated to the special revenue fund.
- Unrestricted net position increased a net \$12.5 million which includes a prior year adjustment to a restated unrestricted net position of \$13.0 million for the adoption of GASB 101. Additional information on our restated net position can be found in Note M.

Total assets and deferred outflows decreased \$16.1 million in fiscal year 2024-25 compared to fiscal year 2023-24 as summarized by the table below:

	<b>Increase (decrease) in millions</b>
Cash and investments (restricted and unrestricted)	\$ 19.9
Taxes, other receivables and prepaids	(1.7)
Capital assets - net of depreciation	(10.4)
Deferred pension outflow	(23.7)
OPEB Related outflows	(0.2)
 Total decrease at June 30, 2025	 \$ (16.1)

- Unrestricted cash and investments increased \$19.9 million in fiscal year 2024-25 compared to fiscal year 2023-24 primarily due to the Capital Projects fund cash balance increasing \$13.4 million as 2024-25 was the first year of the Proposition 3 transition in which \$0.36 of our tax rate was transferred from the Debt Service fund to the Capital Projects fund. A majority of the projects supported by Proposition 3 take place over the summer and the \$13.4 million increase in cash will satisfy expenditures on projects that occur and are paid after July 1. The District also recognized a \$3.3 million increase in cash in the District's self-insurance plan to address rising medical and pharmacy claims.
- Taxes receivable from local property and sales taxes decreased \$1.7 million as collections from delinquent property taxes improved in 2024-25.
- Capital assets net of depreciation had an overall \$10.4 million decrease in fiscal year 2024-25 compared to the prior year. The District spent \$3.9 million on construction in progress, building and land improvements and machinery, equipment and vehicles. This is offset by \$14.2 million in

current year depreciation on District capital assets and net loss of \$0.1 million in assets disposed of in 2023-24.

- Deferred outflows of resources related to pensions decreased \$23.7 million which is calculated by the Public School Retirement System of Missouri. These changes are referenced in footnote G.
- Deferred outflows of resources related to OPEB related outflows decreased \$0.2 million and was based on an actuarial report for OPEB related expenditures. These changes are referenced in footnote H.

Total liabilities and deferred inflows of resources decreased \$44.9 million in fiscal year 2024-25 compared to fiscal year 2023-24 restated total liabilities and deferred inflows of resources as summarized by the table below:

	<b>Increase (decrease) in millions</b>
Accounts payable and other current liabilities	\$ 3.4
Medical and dental benefits payable	3.4
Unearned revenue	(0.2)
Long-term liabilities due within one year	4.1
Net pension liability	(42.5)
OPEB liability	(2.8)
Other long-term liabilities due more than one year	(20.7)
Pension deferred inflows of resources	12.5
OPEB related deferred inflows of resources	<u>(2.1)</u>
 Total decrease at June 30, 2025	 \$ (44.9)

- Accounts payable and other current liabilities increased \$3.4 million and is mainly attributed to the timing of June 30, 2025 projects in our Capital Projects fund in which the expenditures were incurred but payment was made in July 2025. In addition, the medical and dental benefits payable increased \$3.4 million at June 30, 2025 compared to June 30, 2024 as the District's self-insured medical plan experienced a 17.0% increase in pharmacy costs.
- The net \$16.6 million decrease of long-term liabilities is mainly attributed to the District paying off \$13.3 million in general obligation bonds which also reduced our accrued interest on outstanding general obligation bonds by \$0.3 million along with the District paying off the remaining principal on our capital lease of \$2.6 million in 2024-25.
- The net pension liability decrease of \$42.5 million and deferred inflows of resources increase of \$12.5 million is related to our portion of the liability in the State pension program and is calculated by the Public School Retirement System of Missouri. These changes are referenced in Note G, Pension Plans.
- The net OPEB obligation liability decreased \$2.8 and OPEB related deferred inflows decreased \$2.1 million. Additional information can be found in Note I, Other Post-Employment Benefit Obligation.

**St. Louis County, Missouri**  
**MANAGEMENT DISCUSSION AND ANALYSIS**  
**FOR THE YEAR ENDED JUNE 30, 2025**  
**(UNAUDITED)**  
(continued)

At the government-wide level, general revenues accounted for \$299.4 million or 86% of the District's \$346.9 million total revenue. Of this general revenue, \$252.7 million or 84% was from local effort including all taxes and the revenue from the Voluntary Student Transfer program. Program specific revenue in the form of charges for services and operating grants and contributions accounted for approximately \$47.5 million or 14% of the total revenue. At the government-wide level, the District had \$318.2 million in expenses. Of these expenses approximately \$47.5 million were offset by program specific charges for services, grants or contributions.

Other financial highlights included in the government-wide level financial statements include:

- Revenue from locally assessed property taxes is the largest source of the District's revenue. The assessed valuation for the fiscal year ended June 30, 2025, which was a non-reassessment tax year, increased \$18,589,078 to \$5,404,725,973 from the prior year. The District's tax rate decreased \$0.008. Revenue recognized from local property taxes totaled \$204.9 million for fiscal year 2024-25, or a \$3.8 million increase over 2023-24.
- Other tax collections, including sales tax and merchants and manufacturing tax, increased \$0.5 million for the fiscal year ended June 30, 2025.
- The District is funded through the State Basic Formula and received \$33.9 million in fiscal year 2024-25 by being fully funded with a State Adequacy Target (SAT) of \$6,760, which was an increase over the 2023-24 SAT of \$6,375. Funding through the State Basic Formula will be impacted by the District's declining enrollment.
- The District continues to pay our remaining general obligation debt payments without issuing any new debt. The District paid an additional \$13.3 million in general obligation bonds in June 30, 2025. In addition, the District paid off the remaining \$2.6 million of principal of our capital lease.
- As a result of the changes to the reporting requirements for the Pension and OPEB obligation net deferred outflow and inflow of resources, the District recognized a total \$10.9 million credit to expense at June 30, 2025.

**Enrollment**

The District served a student body of 18,935 students which included 18,273 resident students and 662 Voluntary Transfer Students (VTS) as of the September 2024 official enrollment. The District has experienced annual enrollment reductions in total over the last 10 years and based on a third-party demographic study completed in June 2025, the District will continue to see gradual enrollment declines through the 2034-35 school year.

**Using this Annual Report**

The District's annual report consists of a series of financial statements that show information for the District as a whole and its individual funds. The Statement of Net Position on page 17 and the Statement of Activities on page 18 provide information about the activities of the Government as a whole based on the accrual basis of accounting and present a longer-term view of the District's finances. The Fund Financial Statements, the Balance Sheet-Governmental Funds and Statement of Revenue, Expenditures and Changes in Fund Balance, provide the next level of detail about the District's four required funds; the General Fund, the Special Revenue (Teachers) Fund, the Debt Service Fund and the Capital Projects Fund.

These statements tell how the District financed program services in the short-term, as well as what remains for future spending. The fund level statements are prepared on the modified accrual basis of accounting and include bridge schedules to reconcile them to the government-wide level statements.

The annual report also includes the notes to the basic financial statements. The user of the annual report should read the independent auditors' report, as well as the notes to the basic financial statements, to gain a clear picture of the financial position of the District.

**Reporting the District as a Whole**

The District adheres to Missouri State requirements for school districts and uses four major funds to account for the revenues, programs and activities each fiscal year. These statements provide information on these funds individually, and the view of the District as a whole. The Statement of Activities answers the question of how well did the District do financially during the year.

The Statement of Activities explains the types of resources: revenues, charges for services, grants and contributions and the uses of resources: instructional and support services expenses. In addition, the Statement of Activities reports the District's net position and changes in the assets, deferred outflows, liabilities and deferred inflows. This statement tells the reader that, for the District as a whole, the financial position during the current year has either improved or diminished.

These statements report revenues and expenses, assets, deferred outflows, liabilities, deferred inflows and net position using the accrual basis of accounting similar to the accounting used by most private-sector entities. This basis of accounting recognizes all of the current year's revenues and expenses regardless of when cash is received or paid.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular and miscellaneous activities. The District does not have any business-type activities. The District also maintains an Internal Service Fund – Self Insurance Fund. These statements are shown separately.

<b>Totals</b>	<b>\$ 693,697,626</b>	<b>\$ 691,217,634</b>	<b>\$ 2,479,992</b>

Overall, gross capital assets increased \$2.5 million from June 30, 2024, below is a summary of the significant changes:

- Land and land improvements increased \$1.0 million that includes \$0.8 million with the replacement of the exterior walking bridge at Marquette High School.
- Building and building improvements increased \$1.0 million with the renovation and improvements to the Fenton Transportation facility of which \$0.2 million was held in construction in progress at June 30, 2024.
- The District added \$1.9 million of machinery of equipment of which \$1.5 million was purchased from Child Nutrition for the replacement of equipment in kitchens throughout the District
- The District sold 19 District-owned school buses from our fleet as part of our annual refresh cycle resulting in a \$1.4 decrease. The District received 15 new buses in July 2025.

Further information may be found in Note D, Changes in Capital Assets.

**Debt Administration**

At June 30, 2025, the District had general obligation bonds outstanding of \$72,285,000 that were used from ballot authorizations to fund additions and renovations on our campuses, including a new elementary building, athletic fields, classrooms and STEM labs at our high schools as well as regular facility cycle maintenance and technology refresh. With the approval by our Community of Proposition 3 in April 2023 which establishes a dedicated capital tax levy, the District now has the ability to plan with a pay-as-you-go method for annual facility cycle maintenance projects as well as technology and safety related items

without issuing general obligation bonds and paying interest on those items. The District will continue to pay our remaining general obligation bonds according to our established amortization schedule.

In April 2016, the Board authorized a \$12.5 million lease purchase with respect to the acquisition, purchase, financing and leasing of school buses and certain equipment related thereto as the District transitioned to a District-owned transportation system. In August 2019, the District received \$873,950 of additional proceeds from this lease purchase that funded the rotation of 20 new buses to our fleet. The District fully paid off our leases in December 2024 and received ownership to all remaining school buses.

Missouri statute allows school districts to incur debt up to an amount equal to 15% of the most current assessed valuation. The District's allowable debt level ceiling was \$758.4 million at June 30, 2025, far above the District's current level of debt. Missouri law also requires school districts to set a tax levy adequate to service the outstanding debt. The District's Debt Service levy for fiscal year 2024-25 was \$0.32 on each \$100 of assessed valuation. The Debt Service Fund balance at June 30, 2025, was \$19.9 million. The District maintains a AAA bond rating.

**Reporting the District's Most Significant Funds**

**The District's Funds**

The District's budget and reporting structure follow the statutes of the State of Missouri and as such consists of four major funds: the General Fund, the Teachers (Special Revenue) Fund, the Debt Service Fund and the Capital Projects Fund. At the fund level, the District accounts for the annual activities and prepares the budget using the modified accrual basis of accounting. The District's 2024-25 budget was formally adopted by the Board of Education on June 18, 2024 and budget adjustments were routinely taken to the Board of Education throughout the 2024-25 school year. Revenues are recognized in the accounting period in which they become measurable and available or collectible within sixty days after the end of the current period (June 30). Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due.

The District had actual revenues and other financing sources of \$346.9 million and actual expenditures of \$335.4 million which resulted in an overall fund balance increase of \$11.5 million from \$134.2 million in fiscal year 2023-24 to \$145.7 million in fiscal year 2023-24. Schedules showing the District's original and final budget compared with actual operating results are provided in the ACFR on pages 55 and 56 for the General Fund and Teachers (Special Revenue) Fund and on pages 60 and 61 for the Debt Service Fund and Capital Projects. Explanations on the changes in our fund balances by fund are described below.

The General Fund actual revenues of \$122.5 million were \$0.5 million greater than final budgeted revenues of \$122.0 million. The General Fund actual expenditures of \$120.1 million were \$5.7 million less than the final budgeted expenditures of \$125.8 million. Total fund balance in the General Fund decreased \$1.1 million for a balance of \$63.2 million at June 30, 2025 and significant highlights of the General Fund's activities are described below:

- Collections from local property taxes (current and delinquent) improved from the prior year and was 97.4% in 2024-25
- The State of Missouri fully funded the transportation reimbursement for school district in 2024-25 and revenues were \$5.7 million 2024-25. The District transferred approximately \$0.9 million to the Capital Projects fund to cover expenditures related to the renovation of the Fenton transportation location
- The General Fund includes the Child Nutrition and Community Education (self-supporting) programs and combined the fund balance for these two programs increased \$1.6 million (before transfers).
- The general fund transferred \$3.5 million of fund balance to the capital projects fund in accordance with the reporting of capital expenditures per State of Missouri accounting guidelines including \$2.3 million from the Child Nutrition program to cover improvements in our kitchens throughout the District

**For the Future**

Rockwood School District continues to be in excellent financial health and is committed to wise financial management by focusing on our budget priorities that include careful projections of revenue and expense drivers, sustainability of expense trends and maintenance of our fund balance. The District is proud to hold the distinction of being one of three school districts in Missouri to have a “AAA” bond rating by S&P as well as achieving awards through the Meritorious Budget Award and Certificate of Achievement for financial reporting programs. In June 2025, the Board of Education adopted a balance operating budget for the 2025-26 school year with the following factors included:

- Local property taxes provide 79% of operating revenue and are driven by a stable tax base.
- District enrollment is declining and has a direct impact on revenue from the State. However, the State has increased the State Adequacy Target (SAT) which is the funding factor for public education funding. In 2025-26 we anticipate the SAT to be \$7,145 which will temporarily offset the declining enrollment we are experiencing. Declining enrollment also requires strategic planning of facility usage and staffing. The District monitors and forecasts future enrollments using demographic data and tools in partnership with a demographic consulting firm.
- Salaries and benefits make up 85% of total operating expenditures and overall, 65% of our operating expenditures support instruction to our students. Salaries and benefits remain a high priority in budget formulation.
- Adjustments to other expenditures budgets for certain costs increases being experienced due to inflation or other economic situations, including utilities and fuel.
- Proposition 3 (Prop 3) will be fully transitioned which will provide a dedicated revenue stream for addressing routine safety, technology and facility cycle maintenance needs.
- The District’s operating fund balance is expected to be 35.7% at the end of the 2025-26 budget year.

The District is closely monitoring the activities of a State task force commissioned by the Governor to review the method of funding Missouri public schools, as well as state budget developments and proposed legislation. These factors could result in significant changes to funding that are currently unknown.

The Rockwood School District has a long tradition of success and has demonstrated an ability to make appropriate changes to meet the needs of District students in a fiscally responsible manner. The District’s systems for financial planning, budgeting and internal control are well regarded. The District will continue to be prudent in financial management to ensure the resources are available for all our students to realize their full potential.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS WITH  
THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2025**

<b>Total net change in fund balances - total governmental funds</b>	<b>\$</b>	<b>11,493,596</b>
<p>Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for government-wide activities those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which depreciation exceeded capital outlays in the period.</p>		
Capital asset purchases	\$ 3,952,396	
Depreciation expense	<u>(14,181,498)</u>	(10,229,102)
<p>Because some property taxes and other revenues will not be collected for several months after the District's fiscal year ends, they are not considered as available revenues in the governmental funds, and are instead counted as deferred property taxes. They are, however, recorded as revenues in the Statement of Activities. This includes the reversal of the prior year and the accrual of the current year.</p>		
		86,023
<p>Repayment of long-term obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities in the government-wide statements. The net effect of these differences in the treatment of long-term obligations is as follows:</p>		
Repayment of bond principal	\$ 13,300,000	
Repayment of lease obligation	<u>2,164,266</u>	15,464,266
<p>The changes in liabilities for compensated absences are recorded in the Statement of Activities and are based on actual days outstanding and estimated employees who are affected. These liabilities are not recognized in the fund statements.</p>		
		402,022
<p>Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and expense is recognized as the interest accrues, regardless of when it is due.</p>		
		250,187
<p>Other post employment benefit (OPEB) expense in the Statement of Activities differs from the amount reported in the governmental funds because OPEB expense is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, OPEB expense is recognized based on the present value of the projected benefit payments for current and past employees.</p>		
		4,710,726
<p>The fund statements do not recognize the establishment or amortization of premium or discount on the general obligation bonds or other debt outstanding.</p>		
		504,227
<p>Pension benefit (expense) in the Statement of Activities differs from the amount reported in the governmental funds because pension expense is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, pension benefit (expense) is recognized based on the present value of the projected benefit payments for current and past employees.</p>		
		6,204,780
<p>In the Statement of Activities, the loss or gain on the sale or disposal of capital assets is recognized. The fund financial statements recognize only the proceeds from the assets.</p>

**NOTE A | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of Rockwood R-VI School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant accounting policies of the District.

Rockwood R-VI School District (the District) was established under the Statutes of the State of Missouri. The District operates as a "six director" district (with seven members of the Board of Education) as described in RSMo Chapter 162. The District provides educational services to primarily pre-kindergarten through high school students. The Rockwood School District Board of Education (The Board) is the basic level of government that has financial accountability and control over all activities related to public education in the District.

*Reporting Entity*

Generally accepted accounting principles require that the financial reporting entity is to include (1) the primary government, (2) organizations for which the primary government is financially accountable and, (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided in the applicable GASB statements have been considered and there are no other agencies or entities, which should be presented with the District.

*Basis of Presentation*

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

*Government-Wide Financial Statements*

The Statement of Net Position and the Statement of Activities include the financial activities of the primary government, as a whole. Proprietary fund activity is eliminated to avoid 'doubling up' revenues and expenses. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions.

The government-wide statements are prepared using the economic resources measurement focus and accrual basis of accounting. This is the same approach used in the preparation of proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. These financial statements include a reconciliation with brief explanations to better identify the differences between the government-wide statements and the statements for governmental funds.

---

*Government-Wide Financial Statements*

The government-wide Statement of Net Position presents the financial condition of the governmental activities at year-end. The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Amounts reported as program revenues include (a) charges paid by the recipient of the goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

*Fund Financial Statements*

The fund financial statements report detailed information about the District's funds. The District segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds (if applicable) are aggregated and presented in a single column. The internal service fund, which funds the District's self-insured health benefits, is presented in a single column on the face of the proprietary fund statements.

*Fund Financial Statements*

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are the balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

*Fund Accounting*

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities and fund balances arising from revenues and expenditures. The measurement focus is upon determination of changes in the financial position rather than upon net income determination. District resources are allocated to and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following are the District's major funds:

**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

*Governmental Funds*

*General Fund:* This fund is the general operating fund of the District, and accounts for expenditures for non-certified employees, pupil transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program and any expenditures not required or permitted to be accounted for in other funds.

*Special Revenue (Teachers) Fund:* A special revenue fund is required to be established by state law which accounts for expenditures for certified employees involved in instruction and administration, and includes revenues restricted by the state and local tax levy allocations for the payment of teacher salaries and certain benefits.

*Debt Service Fund:* Accounts for the accumulation of resources for, and the payment of, principal, interest and fiscal charges on long-term obligations.

*Capital Projects Fund:* Accounts for the proceeds of long-term debt, taxes and other revenues designated for acquisition or construction of major capital assets.

*Fund Accounting*

*Proprietary Funds*

The Proprietary Fund focuses on the determination of changes in net position, financial position, and cash flows and is classified as either enterprise or internal service. The District does not have any enterprise funds. The District's Proprietary Fund is:

*Internal Service Fund* – Accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. This fund was established to account for the District's self-funded medical and dental insurance benefits for participating employees and their families. The revenues received by the internal service fund represent District contributions and premiums withheld as payroll deductions from employees. Claims paid, direct insurance payments, and administrative costs are the only expenses of this fund. A liability for estimated claims incurred, but not reported, is recorded in this fund.

*Basis of Accounting*

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue (property and sales taxes), the recording of deferred inflows and outflows, and in the presentation of expenses versus expenditures.

Government-wide financial statements prepared on the accrual basis of accounting recognize and record revenues when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes, sales taxes, grants and similar revenue are susceptible to accrual

**Rockwood R-VI School District**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

and so have been recognized as revenues of the current fiscal year. Property taxes are recognized as revenues in the year they are levied. Grants and similar revenue are recognized as revenue as soon as all of the eligibility requirements have been met.

Government fund financial statements prepared on the modified accrual basis of accounting recognize revenues as soon as they are both measurable and available. The District considers available to mean collectible within sixty days after the end of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds at the fund reporting level.

*Basis of Accounting*

Amounts reported as program revenues include 1) charges to users for goods, services, or privileges provided, 2) operating grants and contributions 3) capital grants and contributions (if applicable).

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. The District does not have any business-type activities.

Proprietary funds distinguish between operating and non-operating revenues and expenses. Operating revenues and expenses normally result from providing services and producing and delivering goods in connection with the fund's principle function. The principal operating revenue in the internal service fund includes payroll withholdings or payments on insurance premiums. Operating expenses are related to providing insurance coverage and paying third party administrative fees. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

It is District policy to use restricted resources prior to unrestricted when both are available for use.

*Revenues – Exchange and Non-Exchange Transactions*

Revenues resulting from exchange transactions, in which each party receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in

**Rockwood R-VI School District**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenues from non-exchange transactions must also be available before they can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end within the availability period: property taxes, sales tax, interest, tuition, grants, student fees and rentals.

*Expenses/Expenditures*

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds at the fund reporting level.

*Pooled Cash and Temporary Investments*

Cash resources are combined to form a pool of cash and temporary investments, which is managed by the District Treasurer, except resources from the Debt Service Fund, as state law requires these deposits to be separately maintained.

The District may invest in bonds of the State of Missouri, of the United States, or any wholly-owned corporation of the United States; or in other short-term obligations of the United States. Interest income earned is allocated to contributing funds based on each funds' proportionate shares of funds invested.

For purposes of the statement of cash flows, the District's internal service fund considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

*Inventories and Prepaid Items*

Inventories are valued at cost, on a first-in, first-out (FIFO) basis, and consist of purchased food and supplies of \$1,178,674. An expenditure is recorded at the time the inventory is used. Prepaid items of \$2,993,805 consist of insurance premiums on policies that provide coverage past the current year-end. These premiums will be expensed through the balance of the policy terms within one year. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

*Receivables*

Taxes receivable include property taxes and sales taxes. Property taxes receivable is reported net of an allowance for uncollectible calculated from historical collection rates. Other receivables include interest earned but not yet credited to the District's cash or investments accounts, amounts due the District from the State, amounts due to the District from federal grants, and some miscellaneous receivables from various local activities.

*Unearned Revenue*

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

*Capital Assets/Intangible Assets*

Capital assets, which include land, land improvements, buildings, machinery and equipment, technology, automobiles and other vehicles, and construction in progress, are reported in the governmental activities column of the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. All land purchases are capitalized. Assets are recorded at historical cost or estimated historical cost if actual historical cost is not available and are updated for additions and retirements during the year. Donated assets are recorded at their acquisition value as of the date received. The District does not own any infrastructure.

The District has recorded right to use lease assets and lease liabilities in the government wide financial statements. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability, plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use assets are amortized on a straight-line basis over the life of the related lease. The lease liability is initially measured at the present value of payments expected to be made during the lease term. The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District uses its estimated incremental borrowing rate as the discount rate for leases.

The cost of routine maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized.

Capital assets under construction and not yet in use by the District as of the date of the financial statements are reported as construction in progress. Assets reported as construction in progress will include individual assets with a cost less than \$5,000.

All reported capital assets except land and construction in progress are depreciated or amortized using the straight-line method over the useful lives of the assets.

<u>Capital asset/ Intangible asset type</u>	<u>Estimated useful life</u>
Land improvements	20
Buildings	50
Machinery and equipment	15
Automobiles and other vehicles	5-10
Right-to-use lease buses	10

*Deferred Outflows of Resources*

The District reports consumption of net assets that applies to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary fund statements of net position. The only deferred outflows of resources reported in this year's financial statements are deferred amounts related to the District's defined benefit pension plans and other post-employment benefits as further discussed in Note G and Note H. No deferred outflows of resources affect the governmental funds financial statements in the current year.

*Deferred Inflows of Resources*

The District's statements of net position and its governmental fund balance sheet report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to future periods. Deferred inflows of resources are reported in the District's statement of net position for actual pension plan investment earnings in excess of the expected amounts included in determining pension expense and changes in assumptions for the OPEB plan. These deferred inflows of resources are attributed to pension and OPEB expense over multiple years, including the current year. In its governmental funds, the only deferred inflow of resources is for revenues that are not considered available. The District will not recognize the related revenues until they are available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting. Accordingly, unavailable revenues from property taxes are reported in the governmental funds balance sheet.

*Compensated Absences and Early Retirement*

An accrual for certain salary related payments associated with vacation time and unused sick leave are included in the government-wide financial statements. The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example, paid in cash to the employee) during or upon separation from employment.

District employees earn vacation time throughout the fiscal year to be taken by the end of the subsequent fiscal year. Any unused vacation days remaining will be forfeited by the employee. Unused vacation is payable to the employee upon termination. District policy permits employees to accumulate earned but unused sick leave. A liability for the estimated sick leave that will be used by employees as time off is included in the liability for compensated absences. Employees who meet certain requirements may receive compensation for unused sick leave payable at time of retirement.

*Accrued Liabilities and Long-Term Obligations*

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

**Rockwood R-VI School District**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, special termination benefits, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds, leases and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

*Post Employment Benefits*

COBRA Benefits - Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District provides healthcare benefits to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured on or before the tenth (10th) day of the month for the actual month covered. The program provides continuation of benefits for the number of months as prescribed by law.

There is no associated cost to the District under this program. The District prepares the initial COBRA enrollment forms and the former employee makes the premium payments directly to a division of the third party administrator.

The District also offers continued healthcare benefits to retired employees who elect to participate. The retiree pays the premium.

*Fund Balances – Governmental Funds*

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only by the Board. The District does not have any committed fund balances.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Amounts are assigned by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Under the District's adopted fund balance policy, amounts may be assigned by the Chief Financial Officer.

**Rockwood R-VI School District**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes, a negative unassigned fund balance may be reported.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions. The District has not reported any committed fund balance.

The details of the fund balances are included in the Balance Sheet – Governmental Funds.

*Net Position*

Net position represents the difference between assets, and deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets, net of any unspent bond proceeds, plus deferred amounts on refundings resulting from advance refundings. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The remaining balance of net position is reported as unrestricted. When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first and then unrestricted resources as they are needed.

*Interfund Activity*

Interfund transfers are reported as other financing sources / (uses) in governmental funds. Missouri statute requires the District to report all equipment purchases in the Capital Projects Fund. During the year the District accounts for certain capital outlay expenditures in the various General Fund sub-categories (Student Activity, Community Education and Child Nutrition). The District then records a transfer for these expenditures to the Capital Projects Fund at year end. For the year ended June 30, 2025, these transfers amounted to \$3,515,348.

*Use of Estimates*

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. However, it is management’s belief that the actual results will materially approximate the estimates used.

*Teachers Salaries*

The salary payment schedule of the District for the 2024-25 school year requires the payment of salaries over a twelve month period. Consequently, the final three teacher payrolls related to the 2024-25 school year are included in accrued liabilities on the basic financial statements.

*New Accounting Pronouncements Adopted*

For the year ended June 30, 2025, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. GASB Statement No. 101 provides guidance on the accounting and financial reporting for compensated absences and associated salary-related payments. The effects of the implementation of GASB Statement No. 101 are disclosed in Note M to the financial statements.

**NOTE B | CASH AND INVESTMENTS**

Cash balances from all funds, except the Debt Service Fund, are combined and invested to the extent available in short-term securities. State laws require that all deposits of the Debt Service Fund be kept separate and apart from all other funds of the District. Earnings from such investments are allocated to the General Fund, Teachers Fund and Capital Projects Fund on the basis of the applicable cash balance participation by each fund. Separate accounts are maintained for the Debt Service Fund and the Internal Service Fund. Interest is deposited directly into these accounts. State statutes authorize the District to invest in obligations of the United States government or any agency or instrumentality, including repurchase agreements; bonds of the State of Missouri, or the United States, or of any wholly owned corporation of the United States, and other short-term obligations of the United States; under limited circumstances, commercial paper and bankers' acceptances; and deposit accounts with insured financial institutions, provided the accounts are entirely insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized with government securities that have a fair value exceeding the deposit amount.

The cash deposits and temporary investments are summarized and presented in the financial statements at fair value as follows as of June 30, 2025:

Cash deposits	\$ 156,379,360
Cash on hand	10,760
Investments	<u>10,000,000</u>
Total	<u><u>\$ 166,390,120</u></u>
Cash and investments - governmental funds	\$ 155,139,957
Cash and investments - proprietary funds	<u>11,250,163</u>
Total reporting entity	<u><u>\$ 166,390,120</u></u>

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At June 30, 2025, the carrying amount of the deposits under District control was \$156,389,058 and the bank balance was \$168,875,590, which was covered by federal

depository insurance and collateral held at the Bank of New York, the District's safekeeping agent, pledged in the name of the District.

*Investments*

The District may purchase any investments allowed by the State Treasurer. These include (1) obligations of the United States Government or any agency or instrumentality thereof maturing and becoming payable not more than three years from the date of purchase, or (2) repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. Government agencies or instrumentalities of any maturity, as provided by law. The District has investments managed by the Missouri Securities Investment Program. All funds in this program are invested in accordance with Section 165.061 RSMo. Each school district owns a pro rata share of each investment, which is held in the name of the program. The investments are stated at amortized cost, which approximates fair value. The value of the investments was \$10,000,000 at June 30, 2025. A separate financial report for the MOSIP program can be obtained from the PFM Asset Management LLC, 77 West Port Plaza Drive, Suite 220, St. Louis, Missouri 63146. The MOSIP program is exempt from regulatory oversight as it is a Local Government Investment Pool.

*Interest Rate Risk*

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. One of the ways the District manages its exposure to interest rate risk is by purchasing investments with short-term maturities to provide the cash flow and liquidity needed for operations, and by timing cash flows from maturities so a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

*Credit Risk*

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments that can be held by government agencies to safe high quality securities. The investments authorized under the investment policy are limited to federal government-backed securities, certificates of deposit, bankers' acceptance, repurchase agreements (under certain conditions), local and state government bonds (limited to one of the highest three credit ratings) and District policy is also to use diversification to minimize credit risk. The District has a formal policy and supporting regulation which governs the investment funds. District administrators will be guided by the criteria of legality, safety, liquidity and yield. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in MOSIP are rated AAAf by Fitch and AAAM by Standard and Poor's.

*Custodial Credit Risk*

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy states that the District will manage custodial credit risk by pre-qualifying the financial institutions and advisors with which the District will do business; and, diversifying the portfolio so that potential losses on individual securities will be minimized. The District's investment policy further mandates that all securities purchased be perfected in the name of or for the account of the District and be held by a third-party custodian as evidenced by appropriate safekeeping receipts.

*Concentration of Credit Risk*

As a means of limiting its exposure to losses arising from concentration of investments, the District's investment policy mandates that the portfolio not have a concentration of assets in specific maturity or specific class of securities. At a minimum, diversification standards by security type and issuer are established as (a) U.S. treasuries, securities issued by State of Missouri, and securities having principal and/or interest guaranteed by the U.S. Government – 100%; (b) collateralized time and demand deposits – 100%; (c) U.S. Government agencies, and government sponsored enterprises, no more than 60%; (d) collateralized repurchase agreements, no more than 50%; (e) U.S. Government callable securities, no more than 15%; (f) qualified commercial paper, no more than 25%; and (g) bankers' acceptances, no more than 25%.

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond what is provided by law. There were no investments in any one issuer representing 5% or more of total investments (excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools and other pooled investments).

**NOTE C | TAXES**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on November 1 and are payable by December 31. All unpaid taxes become delinquent January 1 of the following year. The county collects the property taxes and remits them to the District on a monthly basis. An allowance for uncollectible taxes has been provided for delinquent taxes.

At the fund reporting level, property tax revenues are recognized when they become measurable and available. Available includes those property tax receivables expected to be collected within sixty (60) days after year-end. Revenue recognition of delinquent property taxes not collected within sixty (60) days of fiscal year end is deferred.

The District also receives sales tax collected by the State of Missouri and remitted to the District based on eligible pupil counts. The District is required to reduce its sales tax levy by one-half of the amount of sales tax estimated to be received in the subsequent calendar year, Prop C rollback. However, the District's voters approved a full waiver of the Prop C rollback in the 1994/1995 school year, so sales taxes are not reduced to the District. The final assessed valuation of the tangible taxable property (excluding state assessed railroad and utilities) for the calendar year 2024 for purposes of local taxation was:

Real estate		
Residential	\$	3,597,713,400
Agricultural		3,023,870
Commercial including locally assessed railroad and utility		1,071,370,971
Personal property including locally assessed railroad and utility		<u>801,886,042</u>
		5,473,994,283
Less tax increment financing		<u>69,268,310</u>
	\$	<u><u>5,404,725,973</u></u>

Accounts receivable-property taxes at June 30, 2025, were \$4,794,501 (less an allowance for uncollectible taxes of \$532,722).

The tax levy per \$100 of the assessed valuation of tangible taxable property for the fiscal year ending June 30, 2025 for purposes of local taxation was:

	<u>Unadjusted</u>	<u>Adjusted</u>
General Fund	\$ 1.3236	\$ 1.3236
Special Revenue Fund	1.7990	1.7990
Debt Service Fund	0.3200	0.3200
Capital Projects Fund	0.4400	0.4400
	<u>\$ 3.8826</u>	<u>\$ 3.8826</u>

The receipts of current and delinquent property taxes during the fiscal year ended June 30, 2025, aggregated approximately 97.33% of the current assessment computed on the basis of the levy as shown above.

Payments on the general obligation bonds are made by the Debt Service Fund. The obligations under leases are paid by the Capital Projects Fund. The compensated absences, pension and OPEB will be liquidated by the General Fund or the Teachers Fund depending on which fund the employee's salary was charged. The amount reported as reductions to compensated absences represents the net change in the liability.

The District issues general obligation bonds to provide funds to erect, improve and equip school buildings. The District has built three new elementary schools, one middle school and major renovations to each of the four high schools in addition to improvements to every school site in the District in recent years. From time to time the District issues general obligation bonds to refund prior bond issuances to reduce cash flows and interest costs.

In a prior year, the District defeased its Series 2018 general obligation bonds by placing existing resources in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old obligations. Accordingly, the trust account assets and the liability for the defeased debt are not included in the accompanying financial statements. As of June 30, 2025, \$10,500,000 of debt considered in-substance defeased remains outstanding.

*Leases*

In 2016, the District entered into a \$12,500,000 lease purchase agreement with Bank of America Public Capital Corp. Proceeds were used to purchase school buses for the District. The original term of the lease was one year and provided for nine consecutive renewal terms and the final renewal term ending June 10, 2026, subject to earlier termination. In August 2019, the District received additional proceeds of \$873,950 under this lease purchase agreement for the purchase of school buses for the District extending the term of the original lease agreement to August 26, 2027. During the year ended June 30, 2025 the District paid the lease off early and took ownership of the assets.

**NOTE F | TAX ABATEMENTS**

Saint Louis County has granted four tax incentives in the Rockwood R-VI School District. The total amount of tax abated for 2024 was \$1,294,866. These tax abatements are considered immaterial to the overall financial statements.

**NOTE G | RETIREMENT PLAN**

*Public School and Education Employee Retirement System of Missouri*

The District contributes to the Public School Retirement System of Missouri (PSRS) and the Public Education Employee Retirement System (PEERS), a cost-sharing multiple-employer defined benefit pension plan.

Plan Description

PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of the Systems, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the State of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987 and 1989.

The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member who is required to contribute to Social Security comes under the requirements of Section 169.070 (9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount.

PEERS is a mandatory cost-sharing multiple employer retirement system for all non-certified public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of PSRS must contribute to PEERS. Employees of

the Systems who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600 - 169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of PSRS.

Benefits Provided

PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of 5 years of service, (b) have 30 years of service, or (c) qualify for benefits under the “Rule of 80” (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the “Rule of 80” but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

PEERS is a defined benefit plan providing retirement, disability, and death benefits to its members. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the “Rule of 80” (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 1.61% benefit factor. Members qualifying for "Rule of 80" or "30-and-out" are entitled to an additional temporary benefit until reaching minimum Social Security age (currently age 62), which is calculated using a 0.8% benefit factor. Actuarially age-reduced retirement benefits are available with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the “Rule of 80” but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life benefit amount.

Summary Plan Descriptions detailing the provisions of the plans can be found on the Systems’ website at [www.psrps-peers.org](http://www.psrps-peers.org).

Cost-of-Living Adjustments (“COLA”)

The Board of Trustees has established a policy of providing COLAs to both PSRS and PEERS members as follows:

- If the June to June change in the Consumer Price Index for All Urban Consumers (CPI-U) is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.

**Rockwood R-VI School District**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

---

- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

For any PSRS member retiring on or after July 1, 2001, such adjustments commence on the second January after commencement of benefits and occur annually thereafter. For PEERS members, such adjustments commence on the fourth January after commencement of benefits and occur annually thereafter. The total of such increases may not exceed 80% of the original benefit for any member.

Contributions

PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2023, 2024 and 2025. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

PEERS members were required to contribute 6.86% of their annual covered salary during fiscal years 2023, 2024 and 2025. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS Board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 0.5% of pay.

The District's contributions to PSRS and PEERS were \$20,470,913 and \$3,432,793, respectively, for the year ended June 30, 2025.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2025, the District recorded a liability of \$172,323,554 for its proportionate share of the PSRS net pension liability and \$17,213,227 for its proportionate share of the PEERS net pension liability. In total, the District recorded net pension liabilities of \$189,536,781. The net pension liability for the plans in total was measured as of June 30, 2024 and determined by an actuarial valuation as of that date. The District's proportionate share of the total net pension liability was based on the ratio of its actual contributions paid to PSRS and PEERS of \$20,381,670 and \$3,219,524 respectively, for the year ended June 30, 2024, relative to the total contributions of \$818,841,138 for PSRS and \$161,237,992 for PEERS from all participating employers. At June 30, 2024, the District's proportionate share was 2.4891% for PSRS and 1.9968% for PEERS.

For the year ended June 30, 2025, the District recognized pension expense of \$15,613,729 for PSRS and \$2,650,166 for PEERS, its proportionate share of the total pension expense, for an aggregate pension expense of \$18,263,895. Pension expense is the change in the net pension liability from the previous

reporting period to the current reporting period, less adjustments. This may be a negative expense (pension income).

At June 30, 2025, the District reported deferred outflows of resources from the following sources related to PSRS and PEERS pension benefits:

Balance of Deferred Outflows Due to:	Deferred Outflows of Resources		
	PSRS	PEERS	District Total
Differences between expected and actual experience	\$ 27,859,029	\$ 2,096,034	\$ 29,955,063

At June 30, 2025, the District reported deferred inflows of resources from the following sources related to PSRS and PEERS pension benefits:

Balance of Deferred Inflows Due to:	Deferred Inflows of Resources		
	PSRS	PEERS	District Total
Changes in proportion and differences between Employer contributions and proportionate share of contributions	\$ 4,254,742	\$ 1,146,870	\$ 5,401,612

Amounts reported as deferred outflows of resources resulting from contributions subsequent to the measurement date of June 30, 2024, will be recognized as a reduction to the net pension liability in the year ended June 30, 2026.

Other amounts reported as collective deferred (inflows)/outflows of resources are to be recognized in pension expense as follows:

Year Ending June 30:	PSRS	PEERS	District Total

*Actuarial Assumptions*

Actuarial valuations of the Systems involve assumptions about the probability of occurrence of events far into the future in order to estimate the reported amounts. Examples include assumptions about future employment, salary increases, and mortality. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Board of Trustees adopts actuarial assumptions, each of which individually represents a reasonable long-term estimate of anticipated experience for the Systems, derived from experience studies conducted every fifth year and from Board policies concerning investments and COLAs. The most recent comprehensive experience studies were completed in May 2021. All economic and demographic assumptions were reviewed and certain assumptions were updated, where appropriate, based on the results of the studies and effective with the June 30, 2021 valuations. For PSRS, the retirement rates assumption was updated for the June 30, 2023 valuation due to the passage of Senate Bill 75 (HCS/SS/SB 75), which added the 2.55% formula factor benefit for members that retire with 32 or more years of service. Significant actuarial assumption and methods are detailed below. For additional information please refer to the Systems' Annual Comprehensive Financial Report (ACFR). The next experience studies are scheduled for 2026.

Significant actuarial assumptions and other inputs used to measure the total pension liability:

Measurement Date – June 30, 2024

Valuation Date – June 30, 2024

Expected Return on Investments – 7.30%, net of investment expenses and including 2.00% inflation.

Total Payroll Growth PSRS – 2.25% per annum, consisting of 2.00% inflation, 0.125% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.125% of real wage growth due to productivity.

Total Payroll Growth PEERS – 2.50% per annum, consisting of 2.00% inflation, 0.25% real wage growth due to the inclusion of active health care costs in pensionable earnings, and 0.25% of real wage growth due to productivity.

Future Salary Increases PSRS – 2.625% - 8.875%, depending on service and including 2.00% inflation, 0.125% real wage growth due to the inclusion of active health care costs in pensionable earnings, 0.125% of real wage growth due to productivity, and real wage growth for merit.

Future Salary Increases PEERS – 3.25% - 9.75%, depending on service and including 2.00% inflation, 0.25% real wage growth due to the inclusion of active health care costs in pensionable earnings, 0.25% of real wage growth due to productivity, and real wage growth for merit.

Cost-of-Living Increases PSRS & PEERS

Given that the actual increase in the CPI-U index from June 2023 to June 2024 was 2.97%, the Board approved an actual cost-of-living adjustment ("COLA") as of January 1, 2025 of 2.00%, in accordance with the Board's funding policy and Missouri statutes, consistent with the assumed COLA of 2.00%. Future

COLAs assumed in the valuation are 1.35% each January 1. This COLA assumption is based on the 20-year stochastic analysis of inflation performed in the 2021 experience study and application of the Board's funding policy to those expectations. The current policy of the Board to grant a COLA on each January 1 is as follows:

- If the June to June change in the CPI-U is less than 2% for consecutive one-year periods, a cost-of-living increase of 2% will be granted when the cumulative increase is equal to or greater than 2%, at which point the cumulative increase in the CPI-U will be reset to zero. For the following year, the starting CPI-U will be based on the June value immediately preceding the January 1 at which the 2% cost-of-living increase is granted.
- If the June to June change in the CPI-U is greater than or equal to 2%, but less than 5%, a cost-of-living increase of 2% will be granted.
- If the June to June change in the CPI-U is greater than or equal to 5%, a cost-of-living increase of 5% will be granted.
- If the CPI decreases, no COLA is provided.

The COLA applies to service retirements and beneficiary annuities. The COLA does not apply to the benefits for in-service death payable to spouses (where the spouse is over age (60), and does not apply to the spouse with children pre-retirement death benefit, the dependent children pre-retirement death benefit, or the dependent parent death benefit. The total lifetime COLA cannot exceed 80% of the original benefit. PSRS members receive a COLA on the second January after retirement, while PEERS members receive a COLA on the fourth January after retirement.

Mortality Assumption

- Actives PSRS: Experience-adjusted Pub-2010 Teachers Mortality Table for Employees with generational projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.
- Actives PEERS: Experience-adjusted Pub-2010 General (Below-Median Income) Mortality Table for Employees with generational projection using the MP-2020 improvement scale. Experience adjustments are equal to the healthy retiree experience-based adjustment factors at all ages for both males and females.
- Non-Disabled Retirees, Beneficiaries and Survivors PSRS: Mortality rates for non-disabled retirees and beneficiaries are based on the Pub-2010 Teachers Mortality Table for Healthy Retirees and the Pub-2010 Teachers Mortality Table for Contingent Survivors, respectively. The tables are projected generationally using the MP-2020 improvement scale and multiplied by the experience-based adjustment factors shown in the tables below at all ages for both males and females.

Expected Rate of Return

The long-term expected rate of return on investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed rate of return. The long-term expected rate of return on the Systems’ investments was determined using a building-block method in which best-estimate ranges of expected future real rates of returns (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Systems’ target allocation as of June 30, 2024 are summarized below:

Discount Rate

The long-term expected rate of return used to measure the total pension liability was 7.3% as of June 30, 2024 and is consistent with the long-term expected geometric return on plan investments. The actuarial assumed rate of return of 7.3% is consistent with the June 30, 2023 valuations and is based on the actuarial experience studies conducted during the 2021 fiscal year. The projection of cash flows used to determine the discount rate assumed that employer contributions would be made at the actuarially calculated rate computed in accordance with assumptions and methods stated in the funding policy adopted by the Board of Trustees, which requires payment of the normal cost and amortization of the unfunded actuarially accrued liability in level percent of employee payroll installments over 30 years utilizing a closed period, layered approach. Based on this assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The sensitivity of the District's net pension liability to changes in the discount rate is presented below. The District's net pension liability calculated using the discount rate of 7.30% is presented as well as the net pension liability using a discount rate that is 1.0% lower (6.30%) or 1.0% higher (8.30%) than the current rate.

**NOTE H | DEFERRED COMPENSATION PLANS**

The District offers its employees a choice of deferred compensation plans created in accordance with Internal Revenue Code Sections 403(b) or 457(b). These plans, available to all District employees, permit them to defer a portion of their salary until future years. The District makes these Plans available to its employees as an accommodation only. The District’s role in connection with the Plans is generally limited to processing the paperwork necessary to remit participant’s salary withholdings (deferrals) to annuity providers and custodians.

**NOTE I | OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

*Plan Description*

In addition to providing the pension benefits described above, the District (under the provisions of the Rockwood Self-insurance Plan) provides continuation of medical, dental and vision insurance coverage, including prescription drugs to employees who are eligible for normal or early retirement under a single employer plan. The plan is not accounted for as a trust fund since an irrevocable trust has not been established. A stand-alone financial report is not available for the plan. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Retirees who elect to participate must pay the premium in effect for the current plan year or any subsequent year at the premium rates in effect at that time. Since the retirees pay the premium for each year, the District’s share of any premium cost is determined on the basis of a blended rate or implicit rate subsidy calculation.

The benefits in this plan end when the retiree and or the covered spouse reach age 65. This valuation does not account for the cost of benefits to retirees or their spouses after age 65.

Employees covered by benefit terms at July 1, 2024:

	<u>Number</u>	<u>Average Age</u>	<u>Average Service</u>
Actives	1,910	43.7	11.3
Inactive Currently Receiving Benefit Payments	<u>395</u>	59.6	
Total	<u><u>2,305</u></u>		

*Contributions*

The District currently pays for the implicit rate subsidy associated with these postemployment health care benefits on a pay-as-you-go basis. The implicit rate is the difference between the calculated claims cost and the premiums paid by retirees. The District determines contribution requirements and they may be amended by the District. For fiscal year 2025, claims paid for retirees totaled \$5,651,826 and retirees contributed \$3,904,293 through premiums.

*Total OPEB Liability*

The School District’s total OPEB liability of \$31,191,747 was measured as of June 30, 2025, and was determined by an actuarial valuation as of July 1, 2024.

*Actuarial Assumptions*

The total OPEB liability in the July 1, 2024 valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Discount Rate – 3.93%. The discount rate was based on the index provided by Bond Buyer 20-Bond General Obligation Index based on the 20 year AA municipal bond rate as of June 30, 2025.

Salary Increase Rate – 3.50%

Healthcare Cost Trend Rates – 2.80% in 2025 and 8.00% in 2026 and decreasing to an ultimate rate of 4.54% for 2090.

Mortality rates: Pub-2010 General Employees Headcount-Weighted Mortality fully generational using Scale MP-2021 , Pub-2010 General Retirees Headcount-Weighted Mortality fully generational using Scale MP-2021 , Pub-2010 Teachers Employees Headcount-Weighted Mortality fully generational using Scale MP-2021 , and Pub-2010 Teachers Retirees Headcount-Weighted Mortality fully generational using Scale MP-2021.

Participation – It is assumed that 50% of participants will continue coverage under the plan upon retirement.

Actuarial Cost Method – Entry Age Normal.

*Significant Changes from the Previous Actuarial Valuation*

- Increasing the discount rate from 3.93% to 5.20%.
- Initial trend rates were advanced, the model for the trends in subsequent years is based on the Getzen Model as updated through September 2024.

**NOTE J | SELF INSURED MEDICAL BENEFITS**

The District is under a self-insured plan to provide medical and dental benefits to participating employees and their families. The participating employees contribute to the self-insurance fund through payroll deductions based on their coverage election. The District's maximum liability for each employee and in the aggregate for a one-year period is limited by insurance coverage. Transactions for the self-funded insurance are recorded in the Internal Service Fund.

Liabilities of the fund are recorded when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated based upon recent claim settlement trends. Settlements have not exceeded coverage for each of the past three fiscal years.

Changes in the balance of claims liabilities are as follows for the years ended June 30,:

Unpaid claims, at July 1, 2024	\$ 7,880,684
Incurred claims (including IBNRs)	37,976,058
Claim payments	<u>(34,606,579)</u>
Unpaid claims, at June 30, 2025	<u>\$ 11,250,163</u>

**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2025**

**NOTE K | INSURANCE PROGRAM**

The District, along with various other local school districts, participates in the Missouri United School Insurance Council (MUSIC), an insurance association for workers' compensation, general liability and property casualty insurance. The purpose of MUSIC is to distribute the cost of self-insurance over similar entities. MUSIC requires an annual premium payment to cover estimated claims payable and reserves for claims for each entity. Part of the assessment then goes to buy excess insurance contracts for the group as a whole. Should the contributions received by MUSIC be in excess or not be sufficient, rebates or special assessments can be made of the member Districts. There have been no significant changes in insurance coverage from the prior year. Settlements have not exceeded coverage for each of the past three fiscal years.

**NOTE L | COMMITMENTS AND CONTINGENCIES**

*Litigation* – Various claims and lawsuits are pending against the District. In the opinion of District management, the potential loss on all claims and lawsuits will not be significant to the District's financial statements taken as a whole.

*Grants* – The District received financial assistance from federal and state agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District at June 30, 2025.

*Construction* – The District has entered into various contracts for building and grounds renovations and improvements which are included in the amount designated in the capital projects fund in the fund financial statements.

**NOTE M | PRIOR PERIOD ADJUSTMENT**

In accordance with GASB Statement No. 101, *Compensated Absences*, the District restated beginning governmental activities net position to recognize a liability for earned and unused sick leave that is more likely than not be used as time off. Additionally, the District restated beginning governmental activities net position to recognize premiums and discounts that have been fully amortized on bonds defeased in previous years. Net position as of July 1, 2024 has been restated as follows:

Net position at July 1, 2024 - as previously reported	\$ 197,933,843
Change in accounting principle - GASB Statement No. 101	(19,616,193)
Amortization of premium/discount on bonds previously defeased	<u>6,551,275</u>
Net position at July 1, 2024 - as restated	<u><u>\$ 184,868,925</u></u>

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

**JUNE 30, 2025**

**I. BUDGETS AND BUDGETARY ACCOUNTING**

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 67, RSMo, the District adopts a budget for each major fund of the political subdivision.
2. Prior to July, the Chief Financial Officer, who serves as the budget officer, submits to the Board of Education a proposed modified accrual basis budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all funds. Budgeted expenditures cannot exceed available monies plus estimated reserves for the year.
3. A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
4. In June 2024 the budget was legally enacted by a vote of the Board of Education.
5. Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the board. Adjustments made during the year are reflected in the budget information included in the budgetary comparison schedules.
6. Budgets are presented on the modified accrual basis of accounting for all governmental funds.

Note: On January 1 of every second year the property values are rendered for appraisal (reassessment). The appraisal process for the Rockwood School District is conducted by the St. Louis or Jefferson county Assessor's office. For Rockwood School District residential real estate is appraised at 19% of market value, commercial at 32% of value, agricultural at 12% of value and personal property at 33% of value.

The Assessor's Office submits preliminary values to the school district by June. These values are usually a realistic estimate of the ultimate certified values that come by August. The preliminary values are good estimates upon which to base the tax levies for the operating and debt service budgets. Once the certified values are received by the district, the tax rate adoption is completed prior to September and the budgeting process can be begin for the subsequent fiscal year.

Property owners (both Real Estate and Personal Property) are taxed by the various taxing authorities (including the school district) in their county of residence. Tax levy rates (so much per \$100 of assessed valuations) are set by the taxing authorities according the State law. Assessed valuations are set by the county in which the property resides and every other year is a reassessment year. The tax obligation is billed by the county department of revenue and paid through that department to the taxing authorities. The tax billed is simply the levy rate multiplied by the assessed valuation. There are normally multiple taxing authority obligations included on one tax bill which is typically mailed to tax payers in November with a due date of December 31. The District receives the majority of its revenue in late December and January.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. Percentage of overlap is calculated by the Collector of Revenue's Office as follows: For the purpose of determining the appropriate composite property tax rates, all properties are within areas defined by what are called school district sub-codes. Each sub-code accounts for what taxing districts have jurisdiction over a particular parcel, or property. Periodic ledgers comprising the total assessed values for each sub-code area are generated by County Revenue. Appropriate percentage overlap values have been culled from the appropriate ledger.

**CAPACITY SCHEDULES INFORMATION**  
**June 30, 2025**

---

The capacity of a school building depends on how many rooms are available for general classrooms and District standards regarding the number of students to be served in each classroom. In order to be used for classroom space, the size of the room needs to be appropriate, and it cannot be occupied by another program (e.g. SSD, early childhood, adventure club, remedial services, etc.) offered within the building. In general, when enrollment exceeds capacity, the school is likely using non-standard rooms as classroom space or the number of students in the classrooms exceed the guidelines. The non-standard rooms may include:

- The library, multi-purpose or cafeteria for classrooms
- Using a dedicated art or music room and providing that curriculum within each classroom
- If the over-capacity relates to projected enrollment, it may signal that a special program within the building may need to be relocated to accommodate the projected enrollment.

For grades 6-8, the District organizes students into middle school teams. There are eight curricular areas covered with four being offered in a general classroom and four offered in specially equipped rooms. Two of the specially equipped rooms are core classes offered to all students (science and PE) and two are encore classes (business, FACS, fine arts, gifted and technology). To determine the capacity of a middle school, it is important to determine the number of teams that can be served within these constraints and the number of students to be served in each room.

For high school, there are many more specialized rooms. Additionally, students have a wide range of courses they can select. Using the final master schedule, the class offerings are separated into those that are taught in general classrooms vs. specialized. Likewise, the rooms are separated into the same classifications. A capacity calculation can be created for each type of room. Due to scheduling conflicts, it is highly likely that some rooms will have open periods throughout the day. This is especially true when using a block schedule. An efficiency factor can be determined by dividing the total number of occupied periods by the number of classrooms times seven periods. To determine the capacity for a high school building, add the following:

- The number of regular classrooms times the average number of students to be served in each room times the efficiency factor for that category of room
- The number of specially equipped rooms times the average number of students to be served in each room times the efficiency factor for that category of room
- Some students enroll in work skill classes and, for a portion of the school day, the student is not being served within the classroom. Determine the full-time equivalency for these students.

When reviewing the capacity information on the attached chart, the following information is important:

- The capacity for each elementary school is computed the same and follows the approach outlined in the first paragraph above.
- With the exception of LaSalle Middle School and Eureka High School, the capacity numbers are based on the 2013 study by an outside demographer, RSP. Due to the rapid growth in the Eureka quadrant, a more in-depth analysis was completed using the approach described above.

**Independent Accountants' Report on Compliance with  
Specified Requirements of Missouri Laws and Regulations**

---

Board of Education  
Rockwood R-VI School District

We have examined Rockwood R-VI School District's compliance with the requirements of Missouri laws and regulations regarding budgetary and disbursement procedures; accurate disclosure by Rockwood R-VI School District's records of average daily attendance and average daily transportation of pupils and other statutory requirements as listed in the Schedule of Selected Statistics for the year ended June 30, 2025. Management of Rockwood R-VI School District is responsible for Rockwood R-VI School District's compliance with the specified requirements. Our responsibility is to express an opinion on Rockwood R-VI School District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the AICPA. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether Rockwood R-VI School District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether Rockwood R-VI School District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on Rockwood R-VI School District's compliance with specified requirements.

In our opinion, Rockwood R-VI School District complied, in all material respects, with the aforementioned requirements for the year ended June 30, 2025.

This report is intended solely for the information and use of the members of the Board of Education, District management, the Missouri Department of Elementary and Secondary Education and other audit agencies and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Internal Control  
Over Financial Reporting and on Compliance and Other  
Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

---

Board of Education  
Rockwood R-VI School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rockwood R-VI School District as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Rockwood R-VI School District's basic financial statements, and have issued our report thereon dated December 9, 2025.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Rockwood R-VI School District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Rockwood R-VI School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Rockwood R-VI School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Rockwood R-VI School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by The Uniform Guidance**

---

Board of Education  
Rockwood R-VI School District

### **Report on Compliance for Each Major Federal Program**

#### **Opinion on Each Major Federal Program**

We have audited Rockwood R-VI School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Rockwood R-VI School District's major federal programs for the year ended June 30, 2025. Rockwood R-VI School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, Rockwood R-VI School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

#### **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Rockwood R-VI School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Rockwood R-VI School District's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Rockwood R-VI School District's federal programs.

#### **Auditors' Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Rockwood R-VI School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery,

intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Rockwood R-VI School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Rockwood R-VI School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Rockwood R-VI School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Rockwood R-VI School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE YEAR ENDED JUNE 30, 2025**

**NOTE A | BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal grant activity of the Rockwood R-VI School District under programs of the federal government for the year ended June 30, 2025. The information in this Schedule is presented in accordance with the requirements of *OMB Uniform Guidance, Cost Principles, and Audit Requirements for Federal Awards*. Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

**NOTE B | SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Rockwood R-VI School District prepares its Schedule of Expenditures of Federal Awards on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related liabilities are incurred.

**NOTE C | INDIRECT COST RATE**

The District has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D | SUBRECIPIENTS**

There have been no awards passed through to subrecipients.

**NOTE E | FOOD DISTRIBUTION**

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed by the District during the fiscal year ended June 30, 2025.
