

12-19-25

Hello Families,

What an amazing week! Students worked hard completing their tests and showed great effort and focus. We also stepped back in time for Boom Town Day, dressing up like pioneers and enjoying hands-on activities that brought history to life. After all that learning and fun, we wrapped up the week with a festive holiday party and seasonal activities to kick off winter break. It was the perfect way to end the year together!

***Please check your student's backpack for iReady reports, grades, papers that can stay at home, and thank you notes.**

*** As we start the second half of the school year, some students need an additional 5-subject wide-ruled spiral notebook. If you're able, we would greatly appreciate donations of extra notebooks to support classmates who may not have one. Families of students who need another notebook have already been contacted by email, but having a few extras on hand ensures everyone is prepared for success. Thank you for your generosity and support!**

Take Part in Northwood's Winter Break Challenge!

During the break consider our Winter Break Challenge which includes an activity to complete each day of the break. You can choose from iReady, Greg Tang Math challenges, reading and math fact practice.

You can use any of the Greg Tang activities that are attached to this email or use this interactive [Grade 4](#) game board.

Attached to our weekly blast you will find the Winter Break Challenge form and Greg Tang math games. **Students who bring their signed Winter Break Challenge form and turn it in to Ms. Evangelista after the break will receive a special surprise!** If you are unable to print you can still participate in the fun and email your child's teacher or Ms. Evangelista (evangelista@fultonschools.org) to let us know you participated. Enjoy your break!

Dates to Remember:

December 22-January 5: Winter Break

January 6: Students return/Mrs. Williams' Birthday

Curriculum Updates:

Math On/Adv Level	Students will generate equivalent fractions.
Math ACC	Students will compare three fractions with different numerators and denominators by using a variety comparing strategies.
ELA (Writing & Grammar)	Students will revise opinion essays.
Reading	Students will identify and explain poetry structure. Students will identify the theme of a poem.
Science	Students will explain that reflection is when light bounces off a surface and travels in a new straight line, allowing us to see images.
RethinkEd	Students will learn to stop and think before acting.

Wishing you and your family a safe, joyful, and relaxing winter break! See you in the new year!

The 4th Grade Team
