

Possin Farms is offering the
“Forever Farming” Memorial Scholarship

In honor of Brent T Possin

Brent along with his family became the third generation of Possin Farms in 1994 when he built his first hog barn. From a young age, he always knew he would be a farmer. Many holidays and Christmases were spent playing around his model farm as a kid with his family and cousins. Farming was his passion. He was involved in FFA and received multiple awards as an adult including:

- Young Farmer of the Year (2004)
- Farmer Family of the Year (2014)
- Farmer of the Year (2016)

His love of the land and farming was evident. To honor Brent’s legacy, Possin Farms is awarding our third annual “Forever Farming” Memorial Scholarship”, in the amount of **\$500**. There will be one scholarship offered to a NRHEG student. Applicants must be attending a higher education institution with a degree in Agriculture. These deserving seniors will demonstrate their passion for farming and agriculture. They will also explain why they are passionate about agriculture and how they would shape the future of farming as Brent truly loved invention in the farming community.

Applications are available at school and students may contact their school’s counseling office to receive an application.
