

ABOUT SCHMITT

At Schmitt Elementary School we are a community where we all work together to achieve success in a way that is respectful, responsible, and safe. We have high expectations for our students and we are striving for excellence through AVID focusing on WICOR: writing, inquiry, collaboration, organization, reading.

Leader in Me

We have after school opportunities to expose our students to sports, engineering, and chess.

We focus on core subjects and incorporate art through our Art Masters program and our after school drama club. Students also spend time in our innovation lab where they utilize the design process through collaboration and projects with Lego.

Our goal is to provide rigorous and well rounded academic experiences to enable all students to achieve success and become lifelong learners.
