

Switches and Cause and Effect Resources

Talk to Robert Woodbury if you'd like to learn more about any of these devices or resources.

Common Switches - Various types of switches available from [Ablenet](#) and [Enabling Devices](#).

[Switch Interfaces](#) - Switch interfaces let students use switches to interact with computers, Chromebooks, and iPads to control YouTube, apps, online games, and more.

[Powerlink Device](#) - Powerlink devices let students use switches to activate electric devices that plug into a wall, such as fans, disco balls, blenders, and even [electric leaf blowers!](#)

[Switch Prompting Dos and Don'ts](#)

[Tarheel Gameplay](#) - Allows you to turn YouTube videos into switch activities. You can create your own gameplays or use gameplays created by others.
