**SECTION 00010
SOLICITATION AND NOTICE FOR BIDS**

Sealed Bids in duplicate for **TULSA PUBLIC SCHOOLS – STADIUM WATERPROOFING AT MCLAIN & MEMORIAL STADIUMS** will be received and publicly opened and read aloud by INDEPENDENT SCHOOL DISTRICT NUMBER ONE OF TULSA COUNTY, OKLAHOMA, hereinafter referred to as “Owner,” in Room 600, Education Service Center, 3027 S. New Haven Ave, Tulsa, OK, 74114 until **10:00 AM, JANUARY 15, 2026. MANDATORY PRE-BID ON JANUARY 7, 2026 AT 1:30 AT MCLAIN STADIUM.**

The bidding process will be in compliance with the Public Competitive Bidding Act of 1974. Bids must be accompanied by a bid security in the amount of 5% of the bid. By this notice, all provisions of the act apply to this project and are incorporated into notice by reference.

Upon receipt of an acceptable bid, the contract will be awarded within thirty days after the opening of bids and the written contract executed within sixty days thereafter.

Contractor qualification statement must be submitted **seven (7)** calendar days prior to bid date to the Owner, if not currently on file.

Attention is called to the fact that a designated completion date for this project site will be established based on the number of calendar days, as stated in the accepted bid, required to complete the Project work. There will be a \$2500 Liquidated Damages Clause for each day the contract is not completed. The scheduled completion date will be a very significant and material factor to the owner when selecting the Lowest Responsible Bid. Each Bidder must include (in the space provided on the Bid Form) the number of calendar days, which the Bidder will require to complete the specified Project.

Failure to comply with the above bid requirements will result in return of unopened Bid Proposal.

Bid Documents may be obtained from:

<http://www.tulsaschools.org/connect-with-us/partner-with-us/bond-bids>

Owner reserves the right to reject any or all bids and to waive informalities or minor irregularities in any bid.

INDEPENDENT SCHOOL DISTRICT NUMBER ONE OF TULSA COUNTY OKLAHOMA

By Ms. Susan Lampkin, Board President

ATTEST:

By Sarah Bozone, Clerk

SECTION 00020

INSURANCE REQUIREMENTS

Contractor shall obtain insurance of the types and in the amounts described below. The insurance shall be written by insurance companies and on forms acceptable to Owner.

1). Commercial General and Excess Liability or Umbrella Liability Insurance:

Contractor shall maintain commercial general liability (CGL) and, if necessary, commercial excess liability or umbrella insurance with a limit of not less than \$1,000,000 each occurrence. CGL insurance should contain a general aggregate with a \$2,000,000 limit, and should apply separately to the Project.

- a) CGL insurance shall be written on an ISO occurrence form and shall cover liability arising from premises, operations, independent contractors, at a minimum, contractual liability equivalent to an intermediate form of contractual liability insurance, products/completed operations and personal injury and advertising injury;
- b) Owner shall be included as an additional insured on the CGL policy, using ISO Additional Insured Endorsement CG 20101185 or a substitute providing equivalent coverage, and under the commercial excess liability or umbrella, if any. This insurance, including insurance provided under the commercial excess liability or umbrella, if any, shall apply as primary insurance with respect to any other insurance or self insurance programs afforded to or maintained by Owner;
- c) There shall be no endorsement or modification of the CGL policy limiting the scope of coverage for liability arising from pollution, explosion, collapse or underground property damage;
- d) **Waiver of Subrogation.** Contractor waives all rights against Owner and its agents, officers, directors and employees for recovery of damages to the extent these damagers are covered by the commercial general liability, excess liability or umbrella liability insurance maintained pursuant to this agreement.

2). Business Auto and Excess Liability or Umbrella Liability Insurance:

Contractor shall maintain business auto liability and, if necessary, excess liability or umbrella liability insurance with a limit of not less than \$1,000,000 each accident.

- a) Such insurance shall cover liability arising out of any auto (including owned, hired and non-owned autos);
- b) Business auto coverage shall be written on an ISO form. If necessary, the policy shall be endorsed to provide contractual liability coverage equivalent to that provided in the 1990 and later editions of CA 00 01;
- c) If the Contract Documents require Contractor to remove and haul hazardous waste from the project site or if the Project involves such similar environmental exposure, pollution liability coverage equivalent to that provided on the ISO Pollution Liability Broadened Coverage for Covered Autos Endorsement (CA 99 48) shall be provided, and the Motor Carrier Act Endorsement (MCS 90) shall be attached;
- d) **Waiver of Subrogation.** Contractor waives all rights against the Owner and its agents, officers, directors and employees for recovery of damages to the extent these damages are covered by the business auto liability, excess liability or umbrella liability insurance obtained by Contractor pursuant to this Agreement or under any applicable auto physical damage coverage.

3). Workers Compensation Insurance

Contractors shall maintain workers compensation and employers liability insurance.

- a) The employers liability, and if necessary excess liability or umbrella insurance limits shall not be less than \$1,000,000 each accident for bodily injury by accident or \$1,000,000 each employee for bodily injury by disease;

- b) The alternate employer endorsement (WC 00 03 01 A) shall be attached showing Owner in the schedule as the alternate employer.

4). Property Insurance

- a) Contractor shall purchase and maintain in force Builders Risk insurance for the entire Work. Such insurance shall be written in an amount at least equal to the initial contract sum as well as subsequent modifications of that sum. The insurance shall apply on a replacement cost basis and shall be written on a completed value form;
- b) The insurance as required in subparagraph (a) shall name as insured the Owner, Contractor and all subcontractors and sub-subcontractors on the Project. The insurance policy shall contain a provision that the insurance will not be canceled or allowed to expire until at least 30 days prior written notice has been given to the Owner;
- c) The insurance as required in Subparagraph (a) shall cover the entire Work as outlined in the project specifications and shall also cover portions of the Work located away from the site but intended for use at the site and shall also cover portions of the Work in transit. The policy shall include as insured property scaffolding, false work and temporary buildings located at the site. The policy shall cover the cost of removing debris, including demolition, as any is made legally necessary by the operation of any law, ordinance or regulation.
- d) The insurance as required by this Paragraph shall be written to cover all risks of physical loss except those specifically excluded in the policy and shall inure at least against the perils of fire, lightning, explosion, windstorm or hail, smoke, aircraft or vehicles, riot or civil commotion, theft, vandalism, malicious mischief and collapse;
- e) Any deductible applicable to the insurance purchased in compliance with this Paragraph shall be paid by Owner;
- f) Before the commencement of Work, Contractor shall provide Owner a copy the insurance policy obtained in compliance with this Paragraph;
- g) **Waiver of Subrogation.** Owner and Contractor waive all rights against each other and each of their subcontractors, sub-subcontractors, officer, directors, agents and employees for recovery for damages caused by fire and other perils to the extent covered by builders risk or property insurance purchased pursuant to the requirements of this Paragraph 4 or any other property insurance applicable to the Work.
- h) Partial occupancy or use of the Work shall not commence until the insurance company or companies providing insurance as required in this Paragraph have consented to such partial occupancy or use. Owner and Contractor shall take reasonable steps to obtain consent of the insurance company or companies and agree to take no action, other than upon mutual written consent, with respect to occupancy or use of the Work that could lead to cancellation, lapse or reduction of insurance;

5). Evidence of Insurance

Prior to commencing the Work, Contractor shall furnish Owner with a certificate(s) of insurance, executed by a duly authorized representative of each insurer, setting out compliance with the insurance requirements set forth above.

- a) All certificates shall provide for 30 days written notice to Owner prior to the cancellation or material change of any insurance referenced to herein;
- b) The words “endeavor to” and “but failure to mail such notice shall impose no obligation or liability of any kind upon the company, its agents or representatives” shall be deleted from the cancellation provision of all certificates provided by the Contractor;
- c) Failure of Owner to demand such certificate or other evidence of full compliance with these insurance requirements or failure of Owner to identify a deficiency from evidence that is provided shall not be construed as a waiver of Contractor’s obligation to maintain such insurance;
- d) Owner shall have the right, but not the obligation to prohibit Contractor or any subcontractor from entering the Project site unit such certificates or other evidence that insurance has been placed in the complete compliance with these requirements is received and approved by the Owner;

- e) Failure to maintain the insurance in this Insurance Requirement Section shall constitute an event of default pursuant to this Agreement and shall allow Owner to terminate this Agreement to Owner's option. If Contractor fails to maintain the insurance set forth herein, Owner shall have the right, but not the obligation, to purchase said insurance at Contractor's expense;
- f) Contractor shall provide certified copies of all insurance policies required above within 10 working days of Owner's written request for said copies.

6). General Insurance Provisions

- a) No Representation of Coverage Adequacy. By requiring the insurance as set out in the Insurance Requirement Section, Owner does not represent that coverage and limits will necessarily be adequate to protect Contractor and such coverage and limits shall not be deemed as a limitation on Contractor's liability under the indemnities provided to Owner in this Agreement or any other provision of the Contract documents;
- b) Cross Liability Coverage. If Contractor's liability policies do not contain the standard ISO separation of insureds provision or a substantially similar clause, they shall be endorsed to provide cross liability coverage;
- c) The insurance requirements set out in this Insurance Requirement Section are independent from all other obligations of Contractor under this Agreement and apply whether or not required by any other provision of this Agreement;
- d) Subcontractor's Insurance. Contractor shall cause each subcontractor employed by Contractor to purchase and maintain insurance of the type specified in the Insurance Requirement Section. When requested by the Owner, Contractor shall furnish to Owner copies of certificates of insurance evidencing coverage for each subcontractor.

END OF SECTION

SECTION 00100

INSTRUCTIONS TO BIDDERS

SCOPE:

1. GENERAL CONDITIONS:

Standard form "General Conditions of the Contract for Construction," The American Institute of Architects, Document A201, Fourteenth Edition, 1997, ("General Conditions") shall apply to the Work, except insofar as the General Conditions are modified, amended, waived, or changed by these Supplementary General Conditions. The following paragraph numbers refer to the paragraphs in the above referenced "General Conditions":

- (a) Paragraph 1. 1. 1: The last sentence is amended to read as follows: "The Contract Documents include the advertisement or invitation to bid, notice to bidders, instructions to bidders, sample forms, the Contractor's bid or proposal, any addenda relating to the foregoing and any other documents specifically enumerated in the Owner-Contractor Agreement."
- (b) Paragraph 3.7. 1. is amended to read as follows: "When applicable, Contractor shall secure all permits, licenses and inspections necessary for the proper execution and completion of the Work. Owner will not reimburse Contractor for any fees paid by Contractor for permits and inspections."
- (c) Paragraph 13.6.1 is amended to read as follows: "Any moneys not paid within thirty (30) days after they become due and payable under the terms of this Contract shall bear interest at the rate of six percent (6%) per annum from and after said thirty (30) day period."
- (d) Paragraph 8.3.1 is amended to read as follows: "The Contractor shall not be entitled to compensation for any loss, cost or expense, sustained by reason of delay in completion of the Work from any cause whatever."
- (e) Paragraph 11.3.1 is amended to read as follows: "The Contractor shall purchase and maintain, at Contractor's expense, property insurance upon the entire Work at the site to the full insurable value thereof. This insurance shall include the interests of Owner, Contractor, Subcontractor and Sub-subcontractors in the Work and shall insure against perils of fire and extended coverage on a 'broad-form, all risk' basis for physical loss of damage, including theft, vandalism, and malicious mischief. Such insurance shall be purchased from a carrier licensed to do business in the State of Oklahoma. Certificates of such insurance shall be delivered to the Department Manager of Building Planning, Maintenance and Plant Operations of Owner prior to commencement of the Work. Said certificates shall provide that the carrier must give Owner at least thirty (30) days prior written notice before cancellation or reduction of the coverage for any reason. If not covered by the above insurance, Contractor shall also purchase and maintain similar coverage on portions of the Work stored off site or in transit when such portions of the Work are to be included in an Application for Payment under Subparagraph 9.3.2. Until substantial completion of the Work, all risk of loss shall be upon Contractor."
- (f) Paragraph 11.3.4 is eliminated.
- (g) Paragraph 3.6.1 is amended by adding the following "Contractor assumes full responsibility for the payment of all contributions and payroll taxes (State and Federal) for all employees engaged on the Work and provide proof of worker compensation coverage for all employees."

2. DEFINITIONS:

Wherever the words herein defined, or pronouns used in the stead, occur in this contract and these specifications, they shall have the meanings herein given.

- (a) The word "OWNER" shall mean the Independent School District Number One of Tulsa County, Oklahoma, a public corporation.
- (b) The word "CONTRACTOR" shall mean the person, persons, Partnership, company, firm or corporation entering into the contract for the performance of the Work, and the legal representative of said party, or agent appointed to act for said party in the performance of the Work.
- (c) The word "SURETY" or "SURETIES" shall mean the bondsman or party of parties who have made sure the fulfillment of the requirement of the contract by bonds, including the Payment Bond, and whose signatures are attached to said bonds.
- (d) The word "ADVERTISEMENT" shall mean all of the legal publications pertaining to the Work.
- (e) The word "SPECIFICATIONS" shall mean, collectively, all the terms and stipulations contained in those portions of the contract known as Instructions to Bidders, General, Mechanical and Electrical Specifications.
- (f) The word "PLAN" shall mean, collectively, all of the drawings pertaining to the contract and made part thereof, and also such supplementary drawings as may be issued from time to time in order to elucidate the drawings or for the purpose of showing changes in the Work as authorized under the section "Changes and Alterations," or for showing details which are not shown thereon.
- (e) The words "CONTRACT PRICE" shall mean either the unit prices or unit price, or lump sum price, named in the contract or the total of all payments according to schedule or prices in the contract.
- (h) The word "BID" or "BIDS" shall mean the written statements duly filed with the Clerk of Independent School District Number One of Tulsa County, Oklahoma, for the person or persons, partnership, company, firm or corporation proposing to do the Work and furnish materials called for on plans at the prices named on said statement.
- (i) The word "CALENDAR DAYS" shall mean the actual days to complete the contract excluding days due to inclement weather.

3. **BONDS:**

If the Contract Price is in excess of **\$100,000.00**, Contractor will furnish the following bonds: (i) a Payment Bond (the "statutory" bond required by Section I of Title 6 1, Okla. State, as amended) in an amount equal to 100% of the Contract Price; and (ii) a Performance Bond in such form as directed by Owner in an amount equal to 100% of the Contract Price for work on the project(s) as security for the proper and prompt completion of the Work in accordance with the contract and bidding documents; and (iii) a Warranty Bond in an amount equal to 100% of the Contract Price for work on the project(s) to protect Owner against defects in workmanship and materials for a period of one (1) year from Owner's acceptance of the Project(s). The Surety on all bonds of the successful bidder must be approved in the Treasury Department Circular 570. If the Surety Company is not on the list, those bids shall be rejected.

Where the Contract Price is **\$100,000.00** or less, the above bonds will not be required. However, in lieu of the Payment Bond, as to contracts where the Contract Price is \$25,000.00 or less, Contractor shall submit an affidavit of the payment of all indebtedness incurred by the Contractor, Subcontractors, and all material men for labor, material, rental of machinery or equipment and repair of and parts for equipment as are used or consumed in the performance of the contract. The execution of the affidavit with knowledge that any of the contents of the affidavit are false, upon conviction, shall constitute perjury, punishable as provided by law. Copies of the affidavit form may be obtained from the Bond Office, Charles C. Mason Education Service Center, 3027 South New Haven Avenue, Tulsa, Oklahoma, 74147.

4. **CORPORATE SURETY BONDS:**

To be acceptable, a corporate surety bond (including both a bid bond and the payment/performance/warranty bonds of the successful bidder) must be signed by BOTH the bidder, as principal, and by a properly authorized representative of the bonding company. If the bonding company is a corporation, the bond must have attached a power of attorney from the corporation authorizing the person signing the bond on behalf of the bonding company to sign bonds for the bonding company. Only original executed instruments will be acceptable.

The corporate surety issuing the bond must be licensed by the Oklahoma State Insurance Commissioner to issue corporate surety bonds in the State of Oklahoma. The Owner reserves the right to require the bidder to submit evidence that the corporate Surety Company is so authorized. The Corporate Surety on all bonds of the successful bidder must be approved in the Treasury Departments Circular 570. If the Surety Company is not on the list, those bids shall be rejected. A bond written by an "offshore" (non-United States) surety company will not be acceptable.

5. SPECIFICATIONS REGARDING EQUALS:

It is not the intent of these documents to have closed specifications and the brand names shown are the desired materials to be used. The name of a certain brand, make or manufacturer does not restrict proposals to the specified brand, make or manufacturer named unless a brand, model or manufacturer is labeled "No Substitution" in the bid. It is not intended to exclude other products, but to convey the type, functional characteristics and quality of the item desired. Any item that the Owner, in its sole discretion, determines and approves to be the equal of that specified considering quality, workmanship, economy of operation and suitability for the purpose intended will be considered. Thus "equal" products of other manufacturers may be considered if the products meet or exceed the stated specifications, and if a detailed explanation of a claim of equivalency is submitted five (5) days prior to the bid opening. It will be the responsibility of the Bidder to provide data on all products so that the Owner can compare.

6. COMPLETION:

Upon completion of the project, the Contractor will notify Owner and Owner's Representative will make a final inspection of the work. The project shall be completed in good and workmanlike manner and to the satisfaction of the Owner.

7. ETHICS IN PUBLIC CONTRACTING:

By submitting their bid, Bidders certify that their bids are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other bidder, supplier, manufacturer or subcontractor in connection with their proposal, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised unless consideration of substantially equal or greater value was exchanged.

8. NON-DISCRIMINATION:

Contractor agrees Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, age, or national origin. Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, religion, color, sex, age or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff-, or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting for the provisions of this non-discrimination clause.

9. ERRORS OR OMISSIONS:

The Bidder shall not be allowed to take advantage of any errors or omissions in the specifications. Where they occur, the Bidder shall promptly notify the contact person listed. Inconsistencies in the specifications are to be reported before bids are submitted.

10. BID FORM:

The bid **MUST** be submitted on the bid form provided in the bid packet. A Xerox copy of this bid form is acceptable. All blanks must be completed.

END OF SECTION

SECTION 00110

SPECIAL CONDITIONS OF THE CONTRACT

The following conditions also apply to this contract:

1. **WORK COVERED UNDER THE CONTRACT:**

The scope of the work consists of all new materials, tools, equipment, labor, and services, to complete the **TURF REPLACEMENT AT WEBSTER & EDISON HIGH SCHOOL** listed in the "Solicitation and Notice for Bids" in accordance with the "Form of Proposal" and as indicated by the Drawings and by the Specifications included in this Project Manual.

2. **MATERIALS AND EQUIPMENT:**

All material and equipment utilized shall be in conformance with these Specifications and with good Standards of practice and shall meet or exceed the latest applicable industry standards such as A.S.T.M., Standards and Specifications along with all applicable local and national codes and ordinances, including B.O.C.A, N.E.C. and N.F.P.A.

Failure to comply with the terms and conditions of this solicitation or to deliver equipment, supplies or services identified in the Solicitation and Contract at the discount quoted will void the contract award. In the case of failure to deliver goods or provide services in accordance with the contract terms and conditions, Owner, after due oral or written notice, may procure them from other sources and hold the contractor responsible for any resulting additional purchase and administrative costs.

3. **CONTRACT METHOD:**

The method of Contract and Management shall be in accordance with the Owner's requirements and guidelines set forth at the time the Contract is signed, and a Work Order issued.

4. **CONTRACT ADMINISTRATOR:**

This individual shall serve as the monitor of the conditions of the contract and shall work directly with the contractor to schedule and coordinate the performance of services and to provide general direction under the resulting contract. The following individual is identified to use all powers under the contract to enforce its faithful performance for the Owner: **Tara Logan, Project Manager, (918) 630-8082.**

5. **PRIORITIES AND WORK SEQUENCE:**

The priority will be furnished by the Owner to the successful bidder at the Issuance of the Work Order. Completion of the project(s) in a timely manner is critical. The bidder is required to give the actual number of days to complete each project. Timing will be a consideration in determining the successful bidder.

6. **CONTRACTOR'S USE OF PREMISES:**

The contractor shall also furnish a schedule of intended workdays to the owner through the Department of Building Planning prior to commencing the work at any site and keep all parties informed of any adjustments made necessary by changes of shipping schedules or other causes.

Permission must be obtained from the Owner for temporary use of electric power, water, toilet facilities or other utilities. The Owner's approval must also be obtained for the exact on-site location

of any storage of materials, tools or equipment. Owner assumes no responsibility for items stored on school property.

Demolition items and/or debris shall be hauled away from the site after each days activity and the site always maintained in a clean condition free of any build-up of objectionable scraps, waste material or refuse.

7. **OWNER OCCUPANCY AND PROTECTION OF PROPERTY:**

The owner's Site-based Personnel may occupy the site. Therefore, it may be necessary to erect a system of barricades or markers to direct traffic away from the area of each day's operations. The Contractor shall protect and safeguard against damage to all adjacent or nearby surfaces, materials, hardware, glass, furnishings, signage or other site improvements and/or vehicles if in the area of intended loading and unloading operations.

8. **SALES TAX:** (None Required)

The Owner will issue such Documents as necessary to exempt the sales tax upon execution of a contract for the Project(s); therefore, the Contractors are advised to omit the State Sales Tax when preparing their Bid.

9. **PROJECT START-UP:**

The contractor is advised to notify the Owner well in advance of commencing the work on the site.

10. **KNOWLEDGE OF SITE AND SCOPE OF WORK REQUIREMENTS:**

All Contractors shall visit the site on which work is proposed and become thoroughly familiar with the existing conditions and with the Bid Documents and the Scope of the Work included prior to submitting their bid. Sign in at the main office when visiting the site(s).

11. **SUBMITTALS AND CLOSING PROCEDURES:**

(Other than Start-up Contract Requirements such as Certificates of Insurance, Bonds, Etc.)

A. Submit Schedules of intended workdays and activity planned for each Site after receiving Owner's Project Priority list prior to commencing work. **Shop drawings and/or product data and samples** shall be submitted to Tulsa Public Schools' Building Planning department covering all Items in the Scope of Work **for approval prior to manufacture** shipment and installation at the project site. Submit the number of copies, which the contractor requires plus one copy, which will be retained by Tulsa Public Schools' Building Planning Department. Furnish information on characteristics of finish materials proposed for use, to ensure compatible prime coats are used. Provide barrier coats over incompatible primers or remove and re-prime as required. Notify the architect in writing of any anticipated problems using specified coating systems with substrates primed by others.

B. Unless the contract stipulates "Payment upon Completion" of the project or another method of payment; during Progress of the work, submit a separate "Application and Certificate for Payment"-AIA Document G702 on or about the 25th day of each month for work performed in that same month. A 10% retainage shall be calculated and withheld from each Pay Application until the project is completed and accepted by Owner.

C. Upon Final Completion and Final Acceptance by Owner, submit the following prepared and properly signed Closing Documents:

1. Certificate of Substantial Completion
(AIA Document G704)
2. Final Application and Certificate for Payment
(AIA Document G702)
3. Contractor's Affidavit of Payment of Debts
and Claims (AIA Document G706)
4. Contractor's Affidavit of Release of Liens
(AIA Document G706A)
5. Consent of Surety Company to Final Payment
(AIA Document G707)
6. Contractor's Affidavit Pursuant to Title 61
O.S.- Optional in lieu of items 3 above.
7. Contractor's Written Warranty for one (1) year against defects in Material or
Workmanship.

12. SUBSTITUTIONS AND DEVIATIONS FROM THE SPECIFICATIONS:

Substitutions prior to Bid are covered under Paragraph 6 "Instructions to Bidders". Any substitution or deviation from the specifications must be by Owner's prior approval and accepted by an approved change order stipulating the change in price and change in construction time, if any.

13. OWNER'S RIGHT TO REJECT BIDS:

The Owner reserves the right to reject any or all bids and to waive minor irregularities in any bid. In addition, Bidders should recognize the right of the Owner to reject a bid if said bidder fails to provide any data required in the bid or if the bid is in any way incomplete.

14. FINAL CLEANING:

- A. Execute prior to final inspection.
- B. Clean surfaces exposed to view; remove temporary labels, stains and foreign substances and polish transparent and glossy surfaces. Clean equipment and fixtures, sweep and vacuum interior areas and rake clean exterior areas. Remove waste and surplus materials, rubbish and construction facilities from the Project and from the site.

15. SPECIAL TERMS AND CONDITIONS:

- 15.1 Testing and Inspections: Owner reserves the right to conduct any test or inspection it may deem advisable to assure supplies and services conform to specifications.
- 15.2 Proprietary Indemnity: Bidder warrants that the system, each part of the system, and all other products and services used by or furnished by bidder, do not infringe upon or violate any patent, copyright, trade, secret, trademark, or any other proprietary right of any third party. In the event of claim against Owner, Owner shall promptly notify vendor and vendor shall defend and indemnify Owner against any loss, cost expense, claim, or liability arising out of such claim, whether such claim is successful.

- 15.3 Patent and Copyright Materials: Unless otherwise expressly provided in a contract, bidder shall be solely responsible for clearing the right to use any patented or copyrighted materials in the performance of this contract.
- 15.4 Audit: Contractor hereby agrees to retain all books, records and other documents relative to this contract for five (5) years after final payment or until audited by the owner, whichever is sooner. Owner, its authorized agents and/or auditors reserve the right to perform or have performed an audit of contractor's records and therefore shall have full access to the right to examine any of said materials within those five years.
- 15.5 Open Records: Ownership of all data, materials and documentation originated and prepared for the owner pursuant to this bid shall belong exclusively to Owner and be subject to inspections in accordance with the Oklahoma Open Records Act.
- 15.6 Contractor Compliance: Contractor shall comply with all procedural instructions that may be issued from time to time by Owner; however, the terms and conditions of the contract will not change:
- 15.7 Lead Based Paint: Contractor shall be certified and follow work practices established under the UPA Renovation, Repairing and Painting Program applicable to schools when performing any work which will disturb interior or exterior lead-based surface coatings in buildings constructed before 1978. All such work shall be performed in compliance with 40 CFR Part 745.

END OF SECTION

SECTION 00120

SUPPLEMENTAL CONDITIONS TO THE CONTRACT

(References are to Articles, Paragraphs, Subparagraphs and Clauses of the General Conditions of the Contract for Construction, AIA Document A201, 1997 Edition)

4.3.1 **Delete** entire Subparagraph, and substitute the following:

"Definition"

"A Claim is any demand or assertion by the Contractor that it should be paid more money than the Contract Sum, as adjusted under the Change Order provisions herein, by the Owner because of action or inaction on the part of Owner, Program Manager, Architect, or any party for whom Owner is responsible, or any party with whom Owner has separately contracted for other portions of the Project, including, but not limited to, any demand or assertion that Contractor's performance has been delayed, interrupted or interfered with, that Contractor's performance has been accelerated or suspended, that Contractor's performance has been wrongfully terminated, that the Contract Documents have been misinterpreted, that there has been a failure of payment, that Contractor has encountered concealed or unknown conditions, that Contractor has encountered hazardous materials, that there are problems with the Contract Documents, or the timing of Architectural approvals or decisions, that actions of the Owner have been intentionally wrongful or deceptive, that Owner is directly or indirectly guilty of negligence or an intentional tort related in any way to the Work, that the amount of time or money granted in a Construction Change Directive is inadequate, that an item treated as a minor change in the Work should have been treated as a Change Order, that a time extension grant was inadequate, or that Contractor is entitled to any other relief, on any legal theory, related to the Work and the Contract."

"Notice Requirement"

"Within five (5) days of the first occurrence of an event that Contractor has any reason to believe might result in a Claim, or within five (5) days of Contractor's discovery of the first occurrence of an event that Contractor has any reason to believe might result in a Claim, if the first occurrence of the event was willfully hidden from the Contractor, the Contractor shall file a written document clearly captioned "Notice of Claim" with Tulsa Public Schools, Program Manager and the Architect. The notice shall clearly set out the specific matter of complaint, and the impact or damages which may occur or have occurred as a result thereof, to the extent the impact or damages can be assessed at the time of the notice. If the impact or damages cannot be assessed as of the date of the notice, the notice shall be amended at the earliest date this is reasonably possible."

Add the following Subparagraph:

"Any claim or portion of a Claim that has not been made the specific subject of a notice strictly in accordance with the requirements of this section shall be waived. It is imperative that Owner have timely, specific notice of any subject, the impact of which Owner may be in a position to mitigate."

4.3.3 **Add** the following sentences:

"Claims Handling During Construction. After receipt of a Notice of Claim, the Owner may elect to refer the matter to the Architect, Program Manager or another party for review. Contractor will attend meetings called to review and discuss the Claims and mitigation of the problem and shall furnish any reasonable factual backup for the Claim requested. The Owner may also elect to defer

consideration of the Claim until the Work is completed, in which case the same review options shall be available to the Owner at the completion of the Work. At any stage the Owner is entitled to refer a Claim to mediation under the Construction Industry Mediation Rules of the American Arbitration Association, and if this reference is made Contractor and the Owner will take part in the mediation process. The filing, mediation or rejection of a Claim does not entitle Contractor to stop performance of the Work. The Contractor shall proceed diligently with performance of the Contract."

4.3.6.1 **Add** the following Subparagraph:

"Calculating Claim Amount"

"In calculating the amount of any Claim, the following standards will apply:

- .1 No indirect or consequential damages will be allowed.
- .2 All damages must be directly and specifically shown to be caused by a proven wrong. No recovery shall be based on a comparison of planned expenditures to total actual expenditures, or on estimated losses of labor efficiency, or on a comparison of planned man loading to actual man loading, or any other analysis that is used to shown damages indirectly.
- .3 Damages are limited to extra costs specifically shown to have been directly caused by a proven wrong.
- .4 The maximum daily limit on any recovery for delay shall be the amount estimated by the Contractor for job overhead costs divided by the total number of calendar days of Contract Time called for in the original Contract."
- .5 No monetary costs shall be allowed for delay.

5.2.1 In the first sentence, delete "as soon as practicable" and substitute "within seventy-two (72) hours."

5.2.5 **Add** this new Subparagraph:

"The Contractor shall not sublet the work as a whole. The approval of Subcontractors in no way relieves the Contractor from full responsibility for performance and completion of the Work and its obligations under the Contract Documents."

5.3.1 **Delete** the remainder of the second sentence beginning with the words "and shall allow to the Subcontractor."

5.4.2 **Delete** entire Subparagraph and substitute the following:

"Owner shall only be responsible for compensating Subcontractors for work done or materials furnished after the date Owner gives written notice of its acceptance of the subcontract agreement."

5.5 **Add** this new Paragraph:

5.5 "RESPONSIBILITY"

5.5.1 "Contractor shall be fully responsible for the performance of its Subcontractors.

6.1.1 **Delete** the entire Subparagraph, and substitute the following:

"The Owner reserves the right to perform other construction work, maintenance and repair work and school program operations at the site and near the site during the time of the Work. Owner may perform other work with separate contractors or with its own forces. On renovation/addition projects, the Owner shall always have access to the site and all buildings on the site. On new construction, the Owner shall have access to the site and all buildings during normal business hours."

10.1.2 **Add** this new Subparagraph:

"The Contractor shall be responsible for the protection and security of the Work and the Project, until he receives written notification that the Substantial Completion of the work has been accepted by the Tulsa Public Schools."

10.2.8 **Add** this new Subparagraph:

"In an emergency affecting the safety of persons or property, the Contractor shall notify the Owner, Program Manager and Architect immediately of the emergency, simultaneously acting at his discretion to prevent damage, injury, or loss. Any additional compensation or extension of time claimed by the Contractor on account of emergency work shall be determined as provided in Article 4.3 and Article 7."

10.3.1 **Delete** entire Subparagraph and substitute the following:

"Contractor is responsible for reviewing all Asbestos Hazard Emergency Act Management Plans on file with Owner and for obtaining sign-off from Tulsa Public Schools Hazardous Materials Bureau prior to commencing the Work. In no event shall the Contractor engage in the disturbance or removal of asbestos or polychlorinated biphenyl (PCB). In the event the Contractor encounters on the site material reasonably believed to be asbestos or PCB which has not been rendered harmless, the Contractor shall immediately stop work in the area affected and report the condition to the Architect in writing. If the portion of the Work that is stopped is critical to overall completion, the Contractor shall reschedule the Work, if possible, to minimize the impact of the stoppage. The work in the affected area shall not thereafter be resumed except by written agreement of the Owner and Contractor if in fact the material is asbestos or PCB and has not been rendered harmless. The work in the affected area shall be resumed when the asbestos or polychlorinated biphenyl (PCB) has been removed, or when it has been rendered harmless. If the Work is stopped due to the presence of such materials, Owner shall arrange for the removal and/or rendering harmless of such materials prior to Contractor being allowed to proceed. The Owner shall have the option of arranging for removal by a qualified, adequately insured third party tendered to Contractor, and mutually agreed to by both parties, as a Subcontractor in which case a Change Order will be issued for the cost of this subcontract. Any tendered Subcontractor must indemnify the Contractor and the Owner about its work. In the case of such a tender, Owner will not hold Contractor responsible for the work or other actions of the tendered Subcontractor, and Contractor's approval of tendered Subcontractor shall not be unreasonably withheld. In those instances, in which the presence of such materials was set forth in the Hazardous Materials documents or in which Contractor had other notice of such through information given to Contractor by Owner or its representative prior to the commencement of the Work, Contractor shall not be entitled to a Claim for any delays, disruption or interference it encounters. In those instances of work stoppage due to the existence of such hazardous materials which were not set forth in the Hazardous Materials Control plans and of which Contractor had no

other prior notice, Contractor may be entitled to a Claim for extension of time due to the work stoppage.”

11.4 PROPERTY INSURANCE

11.4.1 **Delete** entire Subparagraph, and substitute the following:

"Until the Work is completed and accepted by the Owner, the Contractor shall purchase and maintain property insurance upon the entire Work at the site to the full insurable value thereof. The property insurance shall also cover portions of the Work stored off site after written approval of the Owner of the value established in the approval, and portions of the Work in transit. This insurance shall include the interests of the Owner, the Contractor, Subcontractors and Sub-subcontractors in the Work and shall insure against the perils of fire and extended coverage including flood and earthquake and shall include "all risk" insurance for physical loss or damage including, without duplication of coverage, theft, vandalism, and malicious mischief. The insurance shall cover reasonable compensation for Architect's and Program Manager's services and expenses required because of an insured loss. This "all risk" policy shall be written incorporating Actual Completed Value Form and General Change Endorsement incorporating the following language:

"Permission is given for the Project insured hereunder to become occupied, the insurance remaining in full force and effect until such time as the Project has been accepted by the Owner, all as currently approved by the Laws for the State of Oklahoma."

"The policy shall include coverage for Explosion, Collapse and Underground (XCU). Such insurance shall be evidenced by the kind of policy which does not have to be adjusted or reported upon periodically but provides constant insurance at full one hundred percent (100%) of all insurable values as they are created during construction by performance of the Contract. The Certificate of Insurance must include the names of the insured Contractor and the Tulsa Public Schools."

11.4.1.2 **Delete** entire Clause, and substitute the following:

"Loss under such All-Risk Builder's Risk Insurance shall be made payable jointly to the Tulsa Public Schools and to the Contractor by name (and, if separate mechanical contracts are awarded to each, by name, of the plumbing, heating, ventilating and electric contractors)."

11.4.1.3 **Delete** entire Clause, and substitute the following:

"In the case of loss under the risks covered, and of collection by insured, the Owner shall act as trustee for all parties concerned as their interests may appear."

12.1.3 **Add** this new Clause:

"Where nonconforming work is found, the entire area of work involved shall be corrected unless the contractor can completely define the limits to the Architect's satisfaction. Additional testing, sampling, or inspecting needed to define nonconforming work shall be at the Contractor's expense. He shall employ the Owner's testing laboratory if such services are reasonably required by the Architect. All connected work shall be retested at the contractor's expense. Extra Architectural or Program Manager Services required to analyze nonconforming work shall be paid for by the Contractor."

13.1.1 **Delete** entire Subparagraph, and substitute the following:

“District Court in and for the County of Tulsa, State of Oklahoma shall have sole jurisdiction in any action brought under this contract.”

14.2.5 **Add** this new Subparagraph:

"If a Performance Bond has been furnished and the Contractor is declared by the Owner to be in default under the Contract, the Surety shall promptly remedy the default by completing the Contract in accordance with its terms and conditions, or by obtaining a bid or bids in accordance with its terms and conditions. Upon determination by the Owner and the Surety of the lowest responsible bidder, the Surety will arrange for a contract between such bidder and the Owner and make available as work progresses sufficient funds to pay the cost of completion less the balance of the Contract Sum, but not exceeding the Penal Sum of the bond and other costs and damages for which the Surety may be liable under the bond. The phrase 'balance of the Contract Sum' as used herein shall mean the total amount payable by the Owner to the Contractor under the Contract and amendments thereto less the amount previously paid by the Owner to the Contractor."

BID PACKAGE

FORM OF PROPOSAL

For

STADIUM WATERPROOFING

AT

MCLAIN & MEMORIAL HS STADIUMS

BID OPENING AT 10:00 AM, THURSDAY, JANUARY 15, 2026

CONTRACTORS WILL NOTE THAT A PROPOSAL MUST BE MADE ON THIS FORM. OTHER PROPOSALS WILL NOT BE ACCEPTED. COMPLETE ALL BLANKS. ALL BID PRICES SHALL BE IN BOTH FIGURES AND IN WRITING. PROPOSALS SHALL BE ENCLOSED IN A SEALED ENVELOPE, MARKED ON THE OUTSIDE “**SEALED BID: STADIUM WATERPROOFING AT MCLAIN AND MEMORIAL HS STADIUMS. ALSO INCLUDE COMPANY NAME, ADDRESS & PHONE NUMBER**”

Selection of the successful bidder will be based on the lowest responsible bid taking into consideration the number of calendar days bid to reach substantial completion of the Work. The Owner reserves the right to reject any or all bids and to waive informalities and minor irregularities in any bid.

Independent School District Number One of Tulsa County, Oklahoma
Charles C. Mason Education Service Center
3027 South New Haven
Tulsa, Oklahoma 74147-0208

Dear School Board Members:

The undersigned Contractor, in compliance with your Solicitation and Notice for Bids and Instructions to Bidders contained in the Bid documents for **STADIUM WATERPROOFING AT MCLAIN AND MEMORIAL HS STADIUMS** in Tulsa, County, Oklahoma, having examined the Specifications, Drawings, details, and Scope of Work, and areas where the work is proposed, and being familiar with all of the work required at the Project site(s), hereby proposes to furnish all labor, materials, tools, equipment, supplies and services to complete the Project(s) within the time set forth in this Proposal for the price as herein stated. The price(s) indicated is to cover all expenses incurred in performing all of the work required under the Contract Documents of which this Proposal is a part.

If awarded a contract for the Projects, the undersigned agrees as follows:

1. To furnish a Contractor's Written Warranty which will warranty the Project(s) for a period of one (1) year after substantial completion and acceptance by Owner against all defects in materials and workmanship.
2. To furnish all other insurance and Bonds required as indicated in the "Solicitation and Notice for Bids" in the amount equal to the Total Contract Price.
3. To furnish a monthly Application and Certificate for Payment (AIA Documents G702) and Certificate of Substantial Completion (AIA Document G704) for the project(s) based on the contract bid price indicated on this proposal.

The bidder acknowledges the following Addendum: _____, _____, _____, _____.

OUR BID FOR COMPLETING THE REQUIRED WORK DEFINED ABOVE AND DESCRIBED IN THESE BID DOCUMENTS IS AS FOLLOWS:

SECTION 00170 – NON-DISCRIMINATION AFFIDAVIT

The Contractor affirms and states that he/she complies with the following:

1. The Contractor will not discriminate against any employee or applicant for employment because of race, color, sex, religion, national origin or age. The Contractor will take affirmative action to insure that applicants are employed and that employees are treated during employment without regard to their race, color, sex, religion, national origin or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the requirements of these nondiscrimination provisions.
2. The Contractor will state, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, that all qualified applicants will receive consideration for employment without regard to race, color, sex, religion, national origin or age."

TULSA PUBLIC SCHOOLS

STADIUM WATERPROOFING AT McLAIN HIGH SCHOOL STADIUM AND MEMORIAL HIGH SCHOOL STADIUM

CLEANING, SEALING, AND ELASTOMERIC COATING AT STADIUM BLEACHERS

1. SCOPE OF WORK AT **MEMORIAL HIGH SCHOOL STADIUM** SHALL INCLUDE HOME AND VISITOR BLEACHERS.
2. SCOPE OF WORK AT **McLAIN HIGH SCHOOL STADIUM** SHALL INCLUDE THE HOME BLEACHERS.
3. MAKE ANY NECESSARY REPAIRS TO CMU PARAPET WALLS AND PRECAST PARAPET WALLS PRIOR TO APPLYING THE ELASTOMERIC COATING.
4. ELASTOMERIC COATING TO BE APPLIED OVER THE TOPS OF THE CMU AND PRECAST CONCRETE WALLS. EXTEND ELASTOMERIC COATING OVER TOP OF WALLS AND EXTEND DOWN OUTSIDE FACE 8". AT LOCATIONS WHERE THERE IS 4" DECORATIVE CMU ON THE 8" CMU, ALSO EXTEND ELASTOMERIC COATING ACROSS TOP OF 4" DECORATIVE CMU AND DOWN THE FACE 4".
5. ALL EXISTING ALUMINUM SEATING PLANKS & BRACKETS SHALL REMAIN IN PLACE AND SHALL BE PROTECTED. "TEE" BRACKETS SHALL BE CAULKED ALL AROUND AND COATING SHALL BE APPLIED UP TO THE CAULK.
6. ALL EXISTING SEALANTS, BACKER RODS, ETC. IN GOOD SHAPE SHALL REMAIN. REMOVE & REPLACE ALL DAMAGED AND FAILING SEALANT AS REQUIRED FOR A WATER-TIGHT APPLICATION.
7. SEAL ALL JOINTS BETWEEN THE EXISTING PRECAST PANELS AND BETWEEN THE CMU AND PRECAST, ETC.
8. ALL AREAS TO RECEIVE COATING SHALL BE PRESSURE WASHED (3,000 PSI) AND SAND BLASTED WHERE NECESSARY TO PROVIDE A CLEAN SURFACE SUITABLE FOR BONDING OF NEW SEALANTS AND COATINGS.
9. TREADS AT STEPS SHALL HAVE A TWO-COAT SYSTEM APPLIED. THE FIRST COAT SHALL BE A 25 mil BASE COAT WITH SAND. THE SECOND COAT SHALL BE A 15 mil TOP COAT WITHOUT SAND. HORIZONTAL JOINTS IN CONCRETE BLEACHER DECKING SHALL HAVE THE SAME TWO-COAT SYSTEM APPLIED. WHERE THE EXISTING SYSTEM IS WORN THROUGH TO THE CONCRETE ON THE STEPS, THE 25 MILL BASE COAT WITH SAND SHALL BE APPLIED AND THEN TWO 15 mil TOP COATS.
10. ALL SEATING AREAS SHALL HAVE A TOP-COAT SYSTEM APPLIED. THE TOP-COAT SHALL BE A 15 mil TOP-COAT WITHOUT SAND.
11. CMU AND PRECAST PARAPET WALLS ON THE INSIDE FACE AND AT THE TOP SHALL HAVE A TOP-COAT SYSTEM APPLIED. THE COAT SHALL BE A 15 mil TOP-COAT WITHOUT SAND.
12. CONTRACTOR SHALL REPLACE ALL MISSING OR DAMAGED ANCHORS AND BLEACHER END CAPS.

REFER TO THE ATTACHED SPECIFICATION SECTION 075000 TRAFFIC BEARING MEMBRANE.

ALTERNATES – CLEANING, SEALING, AND PAINTING OF EXTERIOR SIDES OF BLEACHER STANDS:

ALTERNATE 1.

PAINT ENTIRE EXTERIOR SIDE OF WALLS, DOORS, AND FRAMES OF EXISTING HOME BLEACHER STRUCTURE AT **McLAIN HIGH SCHOOL STADIUM**. ALL AREAS TO RECEIVE PAINTING SHALL BE PRESSURE WASHED (3,000 PSI) AND SAND BLASTED WHERE NECESSARY TO PROVIDE A CLEAN SURFACE SUITABLE FOR BONDING OF NEW SEALANTS AND PAINT. ALL EXISTING SEALANTS, BACKER RODS, ETC. IN GOOD SHAPE SHALL REMAIN. REMOVE & REPLACE ALL DAMAGED AND FAILING SEALANT AS REQUIRED FOR A WATER-TIGHT APPLICATION. MAKE ANY NECESSARY REPAIRS TO CMU PARAPET WALLS AND PRECAST PARAPET WALLS PRIOR TO APPLYING THE PAINT.

PAINT COLORS: CMU AND PRECAST CONCRET: TBD, DOORS AND FRAMES: DARK BRONZE

ALTERNATE 2.

PAINT ENTIRE EXTERIOR SIDE OF WALLS, DOORS, AND FRAMES OF EXISTING HOME AND VISITOR BLEACHER STRUCTURES AT **MEMORIAL HIGH SCHOOL STADIUM**. ALL AREAS TO RECEIVE PAINTING SHALL BE PRESSURE WASHED (3,000 PSI) AND SAND BLASTED WHERE NECESSARY TO PROVIDE A CLEAN SURFACE SUITABLE FOR BONDING OF NEW SEALANTS AND PAINT. ALL EXISTING SEALANTS, BACKER RODS, ETC. IN GOOD SHAPE SHALL REMAIN. REMOVE & REPLACE ALL DAMAGED AND FAILING SEALANT AS REQUIRED FOR A WATER-TIGHT APPLICATION. MAKE ANY NECESSARY REPAIRS TO CMU PARAPET WALLS AND PRECAST PARAPET WALLS PRIOR TO APPLYING THE PAINT.

PAINT COLORS: CMU AND PRECAST CONCRETE: TBD, DOORS AND FRAMES: DARK BRONZE

REFER TO THE ATTACHED SPECIFICATION SECTION 09900 PAINTING.

SECTION 01300
ADMINISTRATIVE REQUIREMENTS

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. Administration of Contract: Provide administrative requirements for the proper coordination and completion of work including the following:
 - 1. Supervisory personnel.
 - 2. Preconstruction conference.
 - 3. Project meetings, minimum of two per month; prepare and distribute minutes.
- B. Reports: Submit daily and special reports.
- C. Work Schedule: Submit progress schedule, updated monthly.
- D. Submittal Schedule: Prepare submittal schedule; coordinate with progress schedule.
- E. Schedule of Values: Submit schedule of values.
- F. Schedule of Tests: Submit schedule of required tests including payment and responsibility.
- G. Perform Surveys: Lay out the work and verifying locations during construction. Perform final site survey.
- H. Emergency Contacts: Submit and post a list of emergency telephone numbers and address for individuals to be contacted in case of emergency.
- I. Record Documents: Submit record drawings and specifications; to be maintained and annotated by Contractor as work progresses.

1.2 SUBMITTALS

- A. Types of Submittals: Provide types of submittals listed in individual sections and number of copies required below.
 - 1. Shop drawings, reviewed and annotated by the Contractor - 3 copies.
 - 2. Product data - 3 copies.
 - 3. Samples - 2, plus extra samples as required to indicate range of color, finish, and texture to be expected.
 - 4. Inspection and test reports - 3 copies.
 - 5. Warranties - 3 copies.
 - 6. Survey data - 3 copies.
 - 7. Closeout submittals – 3 copies.
- B. Submittal Procedures: Comply with project format for submittals. Comply with submittal procedures established by Architect including Architect's submittal and shop drawing stamp. Provide required resubmittals if original submittals are not approved. Provide distribution of approved copies including modifications after submittals have been approved.
- C. Samples and Shop Drawings: Samples and shop drawings shall be prepared specifically for this project. Shop drawings shall include dimensions and details, including adjacent construction and related work. Note special coordination required. Note any deviations from requirements of the Contract Documents.

- D. Warranties: Provide warranties as specified; warranties shall not limit length of time for remedy of damages Owner may have by legal statute. Contractor, supplier or installer responsible for performance of warranty shall sign warranties.

PART 2 PRODUCTS - Not applicable to this Section

PART 3 EXECUTION - Not applicable to this Section

END OF SECTION

SECTION 01600
PRODUCT REQUIREMENTS

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. Manufacturers: Provide products from one manufacturer for each type or kind as applicable. Provide secondary materials as acceptable to manufacturers of primary materials.
- B. Product Selection: Provide products selected or equal approved by Architect. Products submitted for substitution shall be submitted with complete documentation, and include construction costs of substitution including related work.
- C. Substitutions: Request for substitution must be in writing. Conditions for substitution include:
 - 1. An 'or equal' phrase in the specifications.
 - 2. Specified material cannot be coordinated with other work.
 - 3. Specified material is not acceptable to authorities having jurisdiction.
 - 4. Substantial advantage is offered to the Owner in terms of cost, time, or other valuable consideration.
- D. Substitution Requests: Substitutions shall be submitted prior to award of contract, unless otherwise acceptable. Approval of shop drawings, product data, or samples containing substitutions is not an approval of a substitution unless an item is clearly presented as a substitution at the time of submittal.

PART 2 PRODUCTS - Not applicable to this Section

PART 3 EXECUTION - Not applicable to this Section

END OF SECTION

SECTION 09900

PAINTS AND COATINGS

PART 1 GENERAL

1.01 SECTION INCLUDES

- A. Surface preparation.
- B. Field application of paints, stains, varnishes, and other coatings.

1.02 REFERENCES

- A. Painting and Decorating Contractors of America–P.D.C.A. Type 1 Manual.
- B. ASTM D 4442 - Standard Test Methods for Direct Moisture Content Measurement of Wood and Wood-Base Materials; 1992 (Re-approved 1997).

1.03 DEFINITIONS

- A. P.D.C.A. standards and interpretations.

1.04 SUBMITTALS

- A. See Section 01300 - Administrative Requirements, for submittal procedures.
- B. Product Data: Provide data on all finishing products.
- C. Verification samples: submit a minimum of three painted 6" x 10" (+/-) "pull down" samples, illustrating selected colors and textures for each color and system selected. Each sample to be identified on the backside with project ID and project color number. Two sets of samples will be returned to the GC, one of which must be maintained at the job site for reference.
- D. Submit sealer and stain finishes on material on which that particular finish is to be used.
- E. Manufacturer's instructions: Indicated special surface preparation procedures.
- F. Maintenance Data: Submit data on cleaning, touch-up, and repair of painted and coated surfaces.
- G. MSDS for each product to be utilized.

1.05 QUALITY ASSURANCE

- A. Applicator Qualifications: Company specializing in performing the work of this section with minimum three (3) years experience.

1.06 REGULATORY REQUIREMENTS

- A. Comply with safety recommendations of MSDS for each product utilized.

- B. Conform to applicable code for flame and smoke rating requirements for products and finishes.

1.07 DELIVERY, STORAGE, AND PROTECTION

- A. Deliver products to site in sealed and labeled containers; inspect to verify acceptability.
- B. Container Label: Include manufacturer's name, type of paint, brand name, lot number, brand code, coverage, surface preparation, drying time, cleanup requirements, color designation, and instructions for mixing and reducing.
- C. Paint Materials: Store at minimum ambient temperature of 45 degrees F and a maximum of 90 degrees F, in ventilated area, and as required by manufacturer's instructions.

1.08 ENVIRONMENTAL REQUIREMENTS

- A. Do not apply materials when surface and ambient temperatures are outside the temperature ranges required by the paint product manufacturer.
- B. Do not apply exterior coatings during rain or snow, or when relative humidity is outside the humidity ranges required by the paint product manufacturer.
- C. Minimum Application Temperatures for Latex Paints: 45 degrees F for interiors; 50 degrees F for exterior; unless required otherwise by manufacturer's instructions.

1.09 EXTRA MATERIALS

- A. See Section 01600 - Product Requirements, for additional provisions.
- B. Supply 1 gallon of each color; store where directed.
- C. Label each container with color in addition to the manufacturer's label.

PART 2 PRODUCTS

2.01 MANUFACTURERS

- A. Paints: Pittsburgh Paint Co.
- B. Transparent Finishes: Pittsburgh Paint Co.
- C. Stains: Pittsburgh Paint Co.
- D. Primer Sealers: Pittsburgh Paint Co.
- E. Substitutions: See Section 01600 - Product Requirements.

2.02 MATERIALS:

- A. Provide best of their respective kinds, delivered to job in original unopened containers, plainly marked with manufacturer's name, name of product and color. A schedule of colors will be prepared by TPS upon receipt of all paint samples and other items required for color selections.
 - 1. Materials: PPG, SHERWIN-WILLIAMS, GLIDDEN, BENJAMIN MOORE, and PORTER. Submit product information for equal material to TPS for approval prior to color selections.

2.03 PAINT SYSTEMS – EXTERIOR

- A. Paint WE-OP-3A - WOOD, Opaque, 3 coats
 - 1. One coat of PPG 6-9 Speedhide Exterior Alkyd Wood Primer.
 - 2. Two coats of PPG 6-900 Speedhide Exterior Latex Semi-Gloss.
- B. Paint WE-OP-3L - WOOD, Opaque, 3 coats
 - 1. One coat of PPG 6-609 Speedhide Exterior Latex Wood Primer.
 - 2. Two coats of PPG 6-900 Speedhide Exterior Latex Semi-Gloss.
- C. Paint CE-OP-3L - CONCRETE / MASONRY, Opaque, 3 coats
 - 1. One coat of PPG 6-7 Speedhide Interior/Exterior Latex Blockfiller.
 - 2. Two coats of PPG 6-900 Speedhide Exterior Latex Semi-Gloss.
- D. Paint GE-OP-3L - GYPSUM BOARD AND PLASTER, Opaque, 3 coats
 - 1. One coat of PPG 17-21 Interior/Exterior Latex Primer/Sealer.
 - 2. Two coats of PPG 57-110 Pro Siding Plus Exterior Latex Semi-Gloss.
- E. Paint ME-OP-3A - FERROUS METALS, Unprimed, 3 coats
 - 1. One coat of PPG 6-208 Speedhide Interior/Exterior Rust Inhibitive Alkyd Primer.
 - 2. Two coats of PPG 90-474 Pitt-Tech Interior/Exterior Satin Latex DTM Enamel.
- F. Paint MgE-OP-3L - GALVANIZED METALS, 3 coats
 - 1. One coat of PPG 90-712 Pitt-Tech Interior/Exterior Latex DTM Primer.
 - 2. Two coats of PPG 90-474 Pitt-Tech Interior/Exterior Satin Latex DTM Enamel.
- G. Paint MaE-OP-3A - ALUMINUM and COPPER, Unprimed, 3 coats
 - 1. One coat of PPG 97-687 Polyclutch Wash Primer.
 - 2. Two coats of PPG 90-474 Pitt-Tech Interior/Exterior Satin Latex DTM Enamel.
- H. Paint E-PAV - PAVEMENT MARKING PAINT
 - 1. One coat of PPG 11-24 Speedhide Yellow Latex Traffic Zone Marking Paint.

2.04 PAINT SYSTEMS - INTERIOR:

- A. Paint WI-OP-3A - WOOD, Opaque, 3 coats
 - 1. One coat of PPG 6-6 Speedhide Interior Alkyd Primer Undercoater.
 - 2. Two coats of PPG 6-1100 Speedhide Interior Alkyd Semi-Gloss Enamel.
- B. Paint WI-OP-3L - WOOD, Opaque, 3 coats
 - 1. One coat of PPG 6-2 Speedhide Interior Latex Wood Primer.
 - 2. Two coats of PPG 6-510 Speedhide Interior Latex Semi-Gloss Enamel.
- C. Paint WI-TR-V - WOOD, Transparent, Varnish, No Stain
 - 1. One coat of PPG 77-1 REZ Interior/Exterior Clear Sealer.
 - 2. Two coats of PPG 77-9 REZ Interior Polyurethane Satin Varnish.
- D. Paint WI-TR-VS - WOOD, Transparent, Varnish, Stain
 - 1. One coat of PPG 77-560 REZ Oil Wiping Stain.
 - 2. One coat of PPG 77-1 REZ Interior/Exterior Clear Sanding Sealer.
 - 3. Two coats of PPG 77-9 REZ Interior Polyurethane Satin Varnish.
- E. Paint CI-OP-3L - CONCRETE / MASONRY, Opaque, 3 coats
 - 1. One coat of PPG 6-7 Speedhide Interior/Exterior Latex Blockfiller.
 - 2. Two coats of PPG 6-510 Speedhide Interior Latex Semi-Gloss Enamel.
- F. Paint MI-OP-3A - FERROUS METALS, Unprimed, 3 coats
 - 1. One coat of PPG 6-208 Speedhide Interior/Exterior Rust Inhibitive Alkyd Primer.
 - 2. Two coats of PPG 6-1110 Speedhide Interior Alkyd Semi-gloss Enamel.
- G. Paint MI-OP-2A - FERROUS METALS, Primed, 2 coats
 - 1. Touch up if needed with PPG 6-208 Speedhide Interior/Exterior Rust Inhibitive Alkyd Primer.
 - 2. Two coats of PPG 6-1110 Speedhide Interior Alkyd Semi-Gloss Enamel.
- H. Paint Mgl-OP-3A - GALVANIZED METALS, 3 coats
 - 1. One coat of PPG 6-209 Speedhide White Galvanized Primer.
 - 2. Two coats of PPG 6-1110 Speedhide Interior Alkyd Semi-Gloss Enamel.
- I. Paint Mal-OP-3A -ALUMINUM, Unprimed, 3 coats
 - 1. One coat of PPG 97-687 Polyclutch Wash Primer.
 - 2. Two coats of PPG 6-1110 Speedhide Interior Alkyd Semi-Gloss Enamel.
- J. Paint GI-OP-3L - GYPSUM BOARD AND PLASTER, 3 coats
 - 1. One coat of PPG 6-2 Speedhide Interior Latex Primer/Sealer.
 - 2. (Semi-Gloss) Halls and other rooms: Three coats of PPG 6-510 Speedhide Interior Latex Semi-gloss.

3. (Eggshell) Classrooms: Two coats of PPG 6-411 Speedhide Interior Latex Eggshell.
- K. Paint GI-OP-2E - GYPSUM BOARD AND PLASTER, 2 coats Water Born Epoxy
1. (Semi-Gloss) Two coats of PPG Pitt-Glaze Acrylic-Epoxy Coating, Semi-gloss.
- L. Existing Lockers – Wash with Pero. Sand to achieve a smooth surface free of all nicks and scratches by sanding to a featheredge. Apply two finish-coats of P.P.G. Pitthane 95-8500.

2.05 SURFACES NOT TO BE PAINTED:

- A. Surfaces permanently concealed from view, unless noted to receive finish.
- B. Materials or equipment with a complete factory applied finish, except as provided for elsewhere.
- C. Finish hardware unless specifically noted otherwise.
- D. Non-ferrous metals unless specifically noted otherwise.
- E. Plumbing fixtures.
- F. Toilet Room Accessories.
- G. Lighting Fixtures.
- H. Any areas noted as "Unfinished" on Finish Schedule or drawings.

2.06 ACCESSORY MATERIALS

- A. Accessory Materials: Linseed oil, shellac, turpentine, paint thinners and other materials not specifically indicated but required to achieve the finishes specified; commercial quality.
- B. Patching Material: Latex filler.
- C. Fastener Head Cover Material: Latex filler.

PART 3 EXECUTION

3.01 EXAMINATION

- A. Verify that surfaces are ready to receive Work as instructed by the product manufacturer.
- B. Examine surfaces scheduled to be finished prior to commencement of work. Report any condition that may potentially affect proper application.
- C. Test shop-applied primer for compatibility with subsequent cover materials.
- D. Notify Architect of any incompatibilities of specified finish on substrates, including existing finishes.

- E. Measure moisture content of surfaces using an electronic moisture meter. Do not apply finishes unless moisture content of surfaces are below the following maximums:
 - 1. Plaster and Gypsum Wallboard: 12 percent.
 - 2. Masonry, Concrete, and Concrete Unit Masonry: 12 percent.
 - 3. Interior Wood: 15 percent, measured in accordance with ASTM D 4442.
 - 4. Exterior Wood: 15 percent, measured in accordance with ASTM D 4442.

3.02 PREPARATION

- A. Surface Appurtenances: Remove electrical plates, hardware, light fixture trim, escutcheons, and fittings prior to preparing surfaces or finishing.
- B. Surfaces: Correct defects and clean surfaces which affect work of this section. Remove or repair existing coatings that exhibit surface defects.
- C. Marks: Seal with shellac those which may bleed through surface finishes.
- D. Impervious Surfaces: Remove mildew by scrubbing with solution of tetra-sodium phosphate and bleach. Rinse with clean water and allow surface to dry.
- E. Concrete and Unit Masonry Surfaces to be Painted: Remove dirt, loose mortar, scale, salt or alkali powder, and other foreign matter. Remove oil and grease with a solution of tri-sodium phosphate; rinse well and allow to dry. Remove stains caused by weathering of corroding metals with a solution of sodium metasilicate after thoroughly wetting with water. Allow to dry.
- F. Gypsum Board Surfaces to be Painted: Clean thoroughly all wallboard surfaces to be painted. Sand smooth all rough surfaces. Fill minor defects with filler compound. Spot prime defects after repair.
- G. Aluminum Surfaces to be Painted: Remove surface contamination by steam or high pressure water. Remove oxidation with acid etch and solvent washing. Apply etching primer immediately following cleaning.
- H. Galvanized Surfaces to be Painted: Remove surface contamination and oils and wash with solvent. Apply coat of etching primer.
- I. Uncoated Steel and Iron Surfaces to be Painted: Remove grease, mill scale, weld splatter, dirt, and rust. Where heavy coatings of scale are evident, remove by hand wire brushing or sandblasting; clean by washing with solvent. Apply a treatment of phosphoric acid solution, ensuring weld joints, bolts, and nuts are similarly cleaned. Prime paint entire surface; spot prime after repairs.
- J. Shop-Primed Steel Surfaces to be Finish Painted: Sand and scrape to remove loose primer and rust. Feather edges to make touch-up patches inconspicuous. Clean surfaces with solvent. Prime bare steel surfaces.
- K. Interior Wood Items to Receive Opaque Finish: Wipe off dust and grit prior to priming. Seal knots, pitch streaks, and sappy sections with sealer. Fill nail holes and cracks after primer has dried; sand between coats. Back prime concealed surfaces before installation.
- L. Interior Wood Items to Receive Transparent Finish: Wipe off dust and grit prior to sealing, seal knots, pitch streaks, and sappy sections with sealer. Fill nail

holes and cracks after sealer has dried; sand lightly between coats. Prime concealed surfaces with gloss varnish reduced 25 percent with thinner.

- M. Exterior Wood to Receive Opaque Finish: Remove dust, grit, and foreign matter. Seal knots, pitch streaks, and sappy sections. Fill nail holes with tinted exterior caulking compound after prime coat has been applied. Back prime concealed surfaces before installation.
- N. Exterior Wood to Receive Transparent Finish: Remove dust, grit, and foreign matter; seal knots, pitch streaks, and sappy sections with sealer. Fill nail holes with tinted exterior caulking compound after sealer has been applied. Prime concealed surfaces.
- O. Wood Doors to be Field-Finished: Seal wood door top and bottom edge surfaces with clear sealer.
- P. Metal Doors to be Painted: Prime metal door top and bottom edge surfaces.

3.03 APPLICATION

- A. Apply products in accordance with manufacturer's instructions.
- B. Apply finishes at manufacturer's recommended spreading rate to provide total dry film of not less than 5 mils.
- C. Apply material without reduction except as specifically required by label direction; reduction shall be the minimum permitted.
- D. Provide uniform color and finish; the number of coats specified being a minimum, provide any additional coats to produce work satisfactory to TPS.
- E. Do not apply finishes to surfaces that are not dry. Allow applied coats to dry before next coat is applied.
- F. Apply each coat to uniform appearance.
- G. Sand wood surfaces lightly between coats to achieve required finish.
- H. Vacuum clean surfaces of loose particles. Use tack cloth to remove dust and particles just prior to applying next coat.
- I. Where clear finishes are required, tint fillers to match wood. Work fillers into the grain before set. Wipe excess from surface.
- J. Fire hose cabinets, air registers and grilles, flanges around ceiling fixtures, exposed electrical panel boards, primed hardware, etc., shall be painted to match adjacent surfaces unless factory finished such as aluminum registers and grilles.
- K. Where paint finish is specified on CMU, take special care to assure that every pore or irregularity of CMU texture is solidly and uniformly filled with block filler, adding extra coats to coarse textured units as necessary to provide a finish acceptable to TPS. Apply textured coating to uniform finish.
- L. Where Epoxy finish is specified on CMU, take special care to assure that every pore or irregularity of CMU texture is solidly and uniformly filled with block filler,

adding extra coats to coarse textured units as necessary to provide an easily washable finish acceptable to TPS and local Health Department.

- M. Apply material without reduction except as specifically required by label direction; reduction shall be the minimum permitted.

3.04 FINISHING MECHANICAL AND ELECTRICAL EQUIPMENT

- A. Paint shop-primed equipment, unless indicated otherwise.
- B. Paint rooftop equipment furnished with or without factory finish only as indicated on the drawings.
- C. Paint piping, equipment, conduits, vents, etc., on roof as indicated on the drawings. Identification labels will be provided by Mechanical Contractor.
- D. Remove unfinished louvers, grilles, covers, and access panels on mechanical and electrical components and paint separately.
- E. Reinstall electrical cover plates, hardware, light fixture trim, escutcheons, and fittings removed prior to finishing.

3.05 CLEANING

- A. Collect waste material that may constitute a fire hazard, place in closed metal containers, and remove daily from site.
- B. On completion of work, carefully clean all glass, hardware, factory finished surfaces, etc., and remove all misplaced paint and stain spots or spills and leave in a condition acceptable to TPS.

END OF SECTION

SECTION 075000

TRAFFIC BEARING MEMBRANE

PART 1 GENERAL

1.1 RELATED DOCUMENTS

- A. The Conditions of the Contract and the General Requirements of Division 1 of these specifications apply to the Work in this Section.

1.2 WORK INCLUDED

- A. The Work in this section shall include furnishing all labor, materials and equipment to install the **Iso-Flex 750 U MVT and HVT coating system**, including surface preparation, crack and joint detailing, in accordance with the Drawings and Specifications.

1.3 RELATED WORK

- A. Section 013000 – Administrative Requirements
- B. Section 079000 – Joint Sealers and Systems

1.4 SUBMITTALS

- A. Submit for review and approval a complete description of the deck coating system proposed, including all related materials and surface preparation methods to be employed.
- B. Submit two copies of the Manufacturer's literature for all products furnished, including physical properties, performance properties, application information, appropriate Material Safety Data Sheets (MSDS) and other safety requirements.
- C. Submit for record ASTM C 957 test results for thin deck coating systems.
- D. Submit for review and approval Manufacturer's standard Color Chart.
- E. Submit letter of verification showing VOC levels for all products to be used and verification that the VOCs meet local and/or federal limits.
- F. Submit copy of "Certificate of License" issued to the applicator from the Manufacturer.
- G. Submit for record qualification statement of the Installer stating projects, size, location, owner and contact, engineer/architect contact for projects that the membrane system has been applied.
- H. Submit for record Manufacturer's "Snow Removal Guideline" stating the procedures the Owner is to follow during snow removal from the deck coating slabs.
- I. Submit letter certifying that the aggregate to be used is approved by the manufacturer.

J. Submit sample Warranty.

1.5 QUALITY ASSURANCE

A. Applicator

1. Licensed by the manufacturer.
2. Minimum 5 years experience installing specified membrane system(s).
3. Minimum 5 projects similar in size/scope and coating system(s) to be used on this project.

B. Manufacturer

1. Minimum 5 years experience in manufacturing deck coating systems.
2. Must make available a qualified Manufacturer's representative to assist the Installer and Engineer. The Representative shall be experienced in the placement of deck coating systems.

1.6 SAMPLES

- A. Submit for review and approval one sample representative of color, thickness and surface texture.
- B. Install one 10' x 10' field sample representative of system to be installed. Samples are to be approved by the Owner's Representative. Leave sample at the jobsite during the referenced project. Use field sample to verify surface preparation, adhesion, coating thickness, application rates, aggregate type and quantity and slip resistance are acceptable prior to the start of the project.

1.7 DELIVERY, STORAGE AND HANDLING

- A. Deliver all materials to the site in original, unopened containers bearing labels indicating material name, date of manufacture and batch number.
- B. Store materials under cover at temperatures not exceeding 90° F.
- C. Store drums on their side.

1.8 PROJECT CONDITIONS

- A. Install materials in accordance with all safety and weather conditions required by the manufacturer or appropriate authority.
- B. Take necessary precautions to seal off openings that will allow vapors to migrate into occupied spaces.
- C. Remove open fires and spark producing equipment from application area until vapors have dissipated.
- D. Do not apply coating if rain is expected within 6 hours of application.
- E. Do not apply coating if temperatures are expected to fall below 40° F during the installation or if air temperatures are above 110° F.
- F. Apply the system base coat to concrete in the afternoon or evening when temperatures have stabilized or are falling in order to minimize the effects of out gassing concrete.

1.9 WARRANTY

- A. Provide the owner a “Joint and Several” Warranty by the Manufacturer and Installer that the installed deck coating system will be free of, for a period of five years, defects, water penetration and chemical damage related to design, workmanship or material deficiency, consisting of, but not limited to:
 - 1. Surface crazing or other weathering deficiency (including U.V. exposure).
 - 2. Abrasion or tear failure resulting from normal traffic use.
 - 3. Tear failure resulting from anticipated movement.
 - 4. Debonding from the substrate or delaminating between layers.
 - 5. Defective installation.
- B. Snowplows, vandalism, abrasive maintenance equipment and construction traffic are not normal traffic use and are exempted from the Warranty.

PART 2 PRODUCTS

2.1 GENERAL

- A. The deck coating system shall be a fluid applied, waterproof, traffic bearing membrane capable of preventing penetration of the concrete by water, gasoline, oils, greases, salts, deicer chemicals and radiator coolants.
- B. Color of the system shall be **gray** with the Architect and Owner selecting the shade of gray from the standard color chart submittal.
- C. The specified thicknesses are minimum dry film thicknesses and do not include the aggregate. Install each coat in accordance with the manufacturer’s recommended yield for the required thickness. All surfaces to be coated must be primed.
- D. Acceptable Alternate Products:
 - 1. GacoFlex E-5320, GacoFlex UB-64 and GacoFlex U-66, manufactured by Gaco Western. Product shall be installed per manufacturer’s recommendations and shall meet or exceed the following specified thicknesses.
 - 2. Sonoguard traffic coating system by Sonneborn. Product shall be installed per manufacturer’s recommendations and shall meet or exceed the following specified thicknesses.
 - 3. BASF MasterSeal Traffic 1500 ReCoat System. The Treads and Steps shall have two top coats applied over the existing and the Seating Areas and Parapet Walls shall have one top coat applied over the existing. Where the existing system is worn through to the concrete on the steps, the 25 mil base coat with sand shall be applied first before the two top coats.
 - 4. Poly-Tuff Systems International, PolyTuff Flexdeck C-WD System. Product shall be installed per manufacturer’s recommendations and shall meet or exceed the following specified thicknesses.

2.2. MATERIALS

A. Base Coat: Iso-Flex 750 Base Coat having the following properties:

Property	Test Method	Results
Weight Per Gallon		9.1lbs/gallon
Hardness (Shore A)	ASTM D2240	70-80
Viscosity @ 77° F (25°C)	ASTM D2196	4000-8000 cps
Flash Point	ASTM D93	110°F (43.3°C)
Cure Time @ 77°F (25°C)	ASTM C920	6-8 hours
Abrasion Resistance	ASTM D4060 Tabor 1000 rev CS17 Wheel 1000 grams	Loss 0.01 grams
Weathering Resistance	ASTM G53-83	Yellowing, Chalking
Permeability	ASTM E398	1.6 perms
Peel Adhesion	ASTM C794	50 pli
Tensile Strength	ASTM D412	1200 psi
Ultimate Elongation	ASTM D412	350%
Tear Resistance	ASTM D1004	100 pli
%Yield (Wet→Dry)		90%
Pot Life @ 77°F (25°C)	ASTM C603	30 mins
Shelf Life @ 77°F (25°C)		6 months
Chemical Resistance	No effect on System from Common Oils, Salts, Alkalies, Motor Oil Anti-Freeze, Gasoline, Mineral Spirits	

B. Top Coat: Iso-Flex 750 AL Top Coat having the following properties:

Property	Test Method	Results
Weight Per Gallon		9.0 lbs/gallon
Hardness (Shore A)	ASTM D2240	80-90
Viscosity @ 77° F (25°C)	ASTM D2196 #4 RVT @ 20 rpm	1500-3000 cps
Flash Point	ASTM D93	110°F (43.3°C)
Cure Time @ 77°F (25°C)	ASTM C920	24 hours
Abrasion Resistance	ASTM D4060 Tabor 1000 rev CS17 Wheel 1000 grams	Loss 0.03 grams
Weathering Resistance	ASTM G53-83	No Visual Effect
Permeability	ASTM E398	1.6 perms
Peel Adhesion	ASTM C794	n/a
Tensile Strength	ASTM D412	2500 psi
Ultimate Elongation	ASTM D412	100%
Tear Resistance	ASTM D1004	200 pli
% Yield (Wet→Dry)		80%

Pot Life @ 77°F (25°C)	ASTM C603	1-2 hours
Shelf Life @ 77°F (25°C)		6 months
Chemical Resistance	No effect on System from Common Oils, Salts, Alkalies, Motor Oil, Anti-Freeze, Gasoline, Mineral Spirits	

C. System Thickness

1. MVT – Total System Thickness – 40 mils
 - i. Primer
 - ii. Base Coat – 25 mils
 - iii. Top Coat – 15 mils

2. HVT – Total System Thickness – 55 mils
 - i. Primer
 - ii. Base Coat – 25 mils
 - iii. Top Coat – 15 mils
 - iv. Top Coat – 15 mils

2.3. DECK COATING AGGREGATE

- A. The approved aggregates for the deck coating system shall be graded, washed and dried 16-30 mesh silica sand, 12-20 mesh silica sand, 24 mesh silicon carbide or aluminum oxide. Aggregates used depend upon which system is being used.

PART 3 EXECUTION

3.1 GENERAL

- A. Inspect surfaces to be coated. Surfaces must be free of voids, laitance, loose material, grease, oil, rust and other contaminants that will affect the bond of the coating. Conduct a base coat adhesion test as part of the field test to determine if surface preparation and adhesion are acceptable.
- B. Inspect slab for variations in surface finish, joint offsets, and other defects that may adversely affect the performance of the coating.
- C. Inspect surfaces to be coated for delaminated or damaged concrete using chain drag. Repair using approved repair materials approved by the manufacturer.
- D. Concrete surfaces must be visibly dry and pass a 24-hour rubber mat test (no condensation) in accordance with ASTM D 4263 prior to application of the system.
- E. Report immediately to the Engineer as required any deficiencies in the surface that render it unsuitable for proper execution of this work. Do not proceed with work until unsatisfactory conditions have been corrected in an acceptable manner.

3.2 PREPARATION

- A. Patch voids, honeycombs, bug holes or delaminated areas. Use only those patching materials approved by the manufacturer.
- B. Clean surfaces to be coated in accordance with the manufacturer's recommendations.

1. Remove oil and grease with a commercial grade cleaner; thoroughly rinse and allow to dry.
 2. Prepare concrete surfaces by either shotblasting or sandblasting. Shotblasting is preferred; acid etching is unacceptable.
- C. Blow or sweep clean surfaces to be coated.
 - D. Rout and seal cracks greater than 1/32 inch, or as required by the manufacturer, using Iso-Flex 880 GB or 881.
 - E. Detail cracks, coves and terminations using Iso-Flex 880 GB or 881.
 - F. Detail coats shall be a minimum of 20 mils thick and extend a minimum of 2 inches onto the surrounding concrete surfaces. Detail those items described in paragraph D and E above, as well as cracks under 1/16 inch.
 - G. Do not apply the deck coating system until the crack, control, construction, and cove sealants have fully cured. Sealants shall cure a minimum of 24 hours prior to installation of the primer for the deck coating.

3.3 INSTALLATION

The following procedures describe how to apply Iso-Flex 750 U Deck Coating System. Refer to the system's Condensed Application Guide for specific information on coverage rates, mil thickness and aggregate consumption.

- A. All deck coating shall maintain straight edges by using duct tape at terminations. Upon removal of duct tape, remaining deck coating shall have a straight bonded edge.
- B. Apply Iso-Flex 750 Primer and allow to cure to a tacky-dry consistency.
- C. Apply Iso-Flex 750 Base Coat using the proper notched squeegee. The coverage rates of the product must be controlled using a grid pattern to distribute the proper amount of coating over a given area. Back roll the base coat.
- D. Allow the Iso-Flex 750 Base Coat to cure for a minimum of 6 hours prior to proceeding to the next coat. Maximum recoat time for the Iso-Flex 750 Base Coat is 24 hours. If this window is missed apply Iso-Flex Recoat Primer at 400 square feet per gallon and allow to cure for one hour, then proceed with the next coating step.
- E. For the MVT system, apply Iso-Flex 750 Top Coat using the proper notched squeegee. Control the coverage rate using a grid pattern to distribute the proper amount of coating over a given area. Broadcast the correct amount and size of aggregate (see the system's Condensed Application Guide) into the wet coating and backroll, taking care that the finished surface has acceptable slip resistance.
- F. For the HVT system, apply a coat of Iso-Flex 750 Top Coat using the proper notched squeegee. Again, control the coverage rate using a grid pattern to distribute the proper amount of coating over a given area. Broadcast the correct amount and size of aggregate (see the system's Condensed Application Guide) into the wet coating and allow to cure. Apply a second coat of Iso-Flex 750 Top Coat using the proper notched squeegee. Again, ensure proper distribution of the coating over the area. Broadcast the correct amount and size of aggregate (see the system's Condensed Application

Guide) into the wet coating and backroll, taking care that the finished surface has acceptable slip resistance.

- G. Use Iso-Flex 750 TC AR for the final top-coat on surfaces not receiving direct sunlight. Use 750 TC AL top-coat for surfaces receiving direct sunlight.
- H. Extend deck coating up vertical surfaces a minimum of 4".
- I. Allow a minimum of 24 hours cure time on the finish coat prior to opening to traffic.
- J. Refer to Drawings for additional Notes and Requirements

3.4 CLEANUP

- A. Remove all excess primer, sealant, deck coating and masking materials from the structure.

END OF SECTION
