Fall 2025

CLASS OF 2025

REPORT

WHERE LEARNING SHAPES THE WORLD

REGION 12 SCHOOLS

Donald R. Schels Ed.D.
Superintendent of Schools

"Region 12's core purpose: empowering our graduates to contribute to a better world."

Donald R Schels

Dear Members of the Shepaug Community,

I am honored to help celebrate the accomplishments of Shepaug's Class of 2025. In these pages you will find achievements realized in our classrooms, on stage and in studios, on our athletic fields, and in the community. Many of our students earned accolades in several of these categories; they are truly renaissance people.

The Class of 2025 is well prepared to pursue higher education, enter the workforce with a unique set of skills, serve in our military, and take their place as the latest ambassadors for Region 12's core purpose: empowering our graduates to contribute to a better world.

In this publication you will find the metrics, qualitative and quantitative, that define the Class's honors. I was lucky enough to get to know these young people over the past four years, and I can offer a few reflections that are not necessarily conveyed by statistics alone, no matter how impressive those statistics are.

I watched these students learn about plant science, raise produce, and then donate it to food banks. I watched AP Calculus students visiting elementary children to help them learn to love math. I saw numerous senior projects that touched the community. Our Link Crew and Spartan Club Seniors worked to connect students to the school and ensure a sense of belonging for all. Those examples are a few among many. So, please do take serious notice of the benchmarks you find between these pages. Celebrate them, and please further understand that Region 12 graduates think and feel deeply, and they turn those thoughts and feelings into action that touches the community, locally and beyond. They deploy their learning for a better tomorrow.

Thank you to all the parents, guardians, community stakeholders, faculty and staff who teamed up to support this wonderful group. I really cannot wait to see what they will do next.

Sincerely,

Donald R. Schels Ed.D.
Superintendent of Schools

Shepaug Link Crew leaders welcome ninth graders with a community-building icebreaker.

Chris Dennis, social studies teacher at Shepaug Valley School, delivered the following speech at Convocation in August.

"I stand before you the most unqualified person to accept this honor. Those who know me know I was never a fan of this award. The reality is that we are a product of each other. This district is filled with the most talented, generous and hard working people I have ever met. The success of one of us is the success of all of us.

I love to talk. Sometimes I talk so much that I forget to stop. Delivering a speech was never the problem. Getting me to shut up is the real challenge. To keep me focused, I decided to do what the kids do. I went to ChatGPT. I typed in "I am an undeserving recipient of a teacher of the year award. The committee worked hard and meant well, but got it wrong. Please write a self deprecating speech to deliver at convocation".

The speech was awesome. I thought I was done. It took 12 seconds to create. I love AI. I turned on the Food Network, assumed the position, and had my wife read the speech. She said it was great. She also said there's no chance anyone would believe that I could write something so good.

Dejected, I went back to ChatGPT and typed "I am an undeserving recipient of a teacher of the year award. Please give me ideas of what I should say in a speech". As always, ChatGPT nailed it. It told me to talk about why I have the best job on the planet.

I was hired 19 years ago as a 23 year old kid who read a lot of books on theories of education but had no idea about the reality of education. Instead of giving up on me, my colleagues embraced me. I learned so much from all of you. Here's what I learned from you.

We take care of our most vulnerable kids. This starts at the elementary schools and nobody does it better than our elementary teachers. Our kids aren't perfect but whose are? I admire how well our students and teachers look after our most vulnerable populations. This is deeply personal for me, raising a son on the spectrum who struggles to find acceptance and forge meaningful friendships. Region 12 has special education teachers, counselors, psychologists and therapists who advocate on their behalf and give them the tools to self-advocate. I would argue the most important measure of any human, or institution, is how well you look after our most vulnerable. I wish every child who struggles like my son could be a member of the Region 12 learning community.

I hear that colleagues arrive sometimes as early as 5 am and others leave at 7/8 at night. I often say to myself "I wish I had what they have". Beyond arrival times, you are all so easy to talk to. Collaboration is essential in this job which is why I'm not a fan of this award and it is the central characteristic of this district. Our best ideas have multiple fingerprints on them. When I think about what went wrong in my most unsuccessful lessons, there is one common denominator. . . I didn't ask anyone around me what they thought.

You are all so generous. You donate to senior projects, class fundraisers, bazaar booths and help students in need. You volunteer for committees, run clubs, chaperone dances. You donate your time as technical advisors to senior projects. Our middle school teachers are the most patient and kind humans on the planet. I look at the field trips that the middle school teachers organize and think to myself "there has to be something in our contract to save them from this". But you always do it with a smile.

Many moons ago, when we team-taught in the humanities, my teaching partner and mentor Christine Shugrue often said "No one of us is as smart as all of us". I think this message bears repeating. I also think it stands on its own.

I don't know of any communities more dedicated to public education than the towns we serve in Region 12. I am starting my 19th year at Shepaug. In my second year, the Great Recession hit. In my fifth year, we faced projections of declining enrollment. In my seventh year, closing Shepaug was a realistic option. A few years after that, we embarked on an agriscience journey that has brought in so many talented teachers and students but didn't come without some controversy and back tracking from the state early on. Every step of the way, the taxpayers of this district have overwhelmingly and resoundingly voted to support our schools with their wallets. For context, this past June, the town that I live in rejected more budgets in a three week span than Region 12 has in the last 19 years. Think about that for a minute. We are so fortunate.

Our Board of Education are selfless volunteers who serve and sacrifice. In the years that I've been here and many years before, they continually give the schools and teachers the resources and support they need to be successful. We have what we need because a board of volunteer citizens wants to facilitate a public education system that is second to none. There is no greater calling and compliment. I know that we all carry that awesome responsibility in our conscience every day.

ChatGPT got it right. I do have the best job in the world and I work with the best people. I hope you have a great school year. Our kids need you. Badly. Thank you."

2025 AP SCHOLARS

Advanced Placement (AP), through the College Board, provides students the opportunity to take college level courses and earn credit at the collegiate level. Of our 80 graduates, 62% of the class completed one or more Advanced Placement (AP) courses and, additionally, 42% completed two or more AP courses during their high school career.

The AP Scholar program recognizes students who have met benchmark scores on multiple AP exams taken in the same year. There are four levels of recognition.

After another successful AP testing season, 10 students in the Class of 2025 were recognized as AP Scholars.

AP.CollegeBoard.org

AP SCHOLARS

AP Scholar status is awarded to students receiving scores of 3 (out of 5) or higher on three or more exams.

Amelia C. Jacob

Griffin J. Konik

Nathan J. Steinis

AP SCHOLARS WITH HONORS

AP Scholar with Honors is awarded to students receiving an average score of at least 3.25 on all exams taken and scoring a 3 or higher on four or more of these exams.

Juliet A. Eddy

Mina A. Kheir-Eldin

Hayden R. Myles

Caleb L. Seamans

AP SCHOLARS WITH DISTINCTION

AP Scholar with Distinction is awarded to students earning an average score of at least 3.5 on all AP exams taken and a 3 or higher on five or more of these exams.

Academic Achievement

Recognizing Outstanding Scholars and Their Contributions

Peyton King
The Class of 25' Valedictorian

Shepaug offers over 20 honors courses across all subjects including agriscience, art, business, history, language, literature, music and science, over 18 college level courses, as well as extracurricular opportunities for students to challenge themselves throughout their academic careers.

This year, Peyton King was named Valedictorian and is attending Hamilton University as a pre-med student.

Juliet Eddy was named Salutatorian and is attending Salve Regina as a nursing student.

Juliet Eddy
The Class of 25' Salutatorian

These accomplishments highlight the importance of perseverance, curiosity, and a strong work ethic in achieving academic success.

They demonstrate the value of consistent effort and a commitment to learning both inside and outside the classroom. Such dedication sets a powerful example for future students to follow.

Answering a Call to Citizenship

The Class of 2025 contributed significant community service hours. The graduating class of 80 students contributed nearly 7,000 hours of service. This remarkable achievement reflects the dedication and compassion of the students toward their community.

This year's community service recipient, Micayla Aleksandrowicz, accrued over 440 hours of service, showcasing her commitment to helping others. Micayla's efforts highlight the positive impact one individual can have in fostering confidence, teamwork, and mentorship among youth.

Community Service Highlights

- The Community Service Award recipient, Micayla Aleksandrowicz, dedicated her volunteer hours to serving as a student demonstrator for Pop Warner cheerleading, where she acted as a mentor, encouraged teamwork, and helped build confidence in the youth participants.
- 81% of the Class of 2025 exceeded the 30 hours of service required.
- The Class of 2025 contributed 6,981 hours of community service.

Senior Projects with *Distinction*

Senior Project serves as the culmination of the Shepaug Experience. At the beginning of senior year, each student identifies a challenging project and develops and implements a plan to achieve a specific goal. Students defend their work in a public presentation, demonstrating their skills and knowledge, and tying those to the Shepaug Core Values and Guiding Beliefs.

This year the Senior Project team is pleased to recognize two students whose projects exemplified excellence in all facets. Each of these students pursued their projects to the fullest extent, leaving no stone unturned–which has always been our core criterion for this commendation.

We would like to recognize Peyton King and Rebecca Wheeler for their outstanding work in Senior Project.

Peyton King
Clay for a Cause

Peyton's project, titled Clay for a Cause, focused on learning and practicing pottery. Peyton infused the project with intellectual sophistication by going beyond developing an artistic skill. Her work showed a strong intersectionality of art, humanities, and science. Peyton incorporated elements of natural history, anthropology, and African, Asian, and indigenous American history to inform and inspire her pottery.

Her research was dimensionalized further by studying cleft palates, which informed her decision to use her pottery to create fundraisers for Project Smile. Her project was a convergence of multiple disciplines that showcased deep, authentic inquiry and analysis, which is essential to Shepaug's identity and spirit.

Rebecca Wheeler
From Dirt to Plate

This year, Rebecca was enrolled in the Early Enrollment Program at Johnson & Wales University, so she completed her Senior Project while simultaneously pursuing her freshman year in college. Her project, titled From Dirt to Plate, expanded her family's garden exponentially, growing dozens of vegetables, fruits, flowers, and herbs from seed.

Her research was exceptionally thorough; she analyzed soil samples and adjusted nutrient profiles to suit each seed. Rebecca returned home each weekend to prepare the fields, tend the plants, and then to can over 50 jars of jam and pickles, and arrange flower bouquets, most of which were donated to local fundraisers. Ultimately, her project met some of America's most fundamental values of self-reliance, sustainability, and connecting to the land. She also had fun doing it.

Future Education Plans

The counseling office is pleased to announce the future education plans of the Class of 2025.

Stephen Reich Memorial Award

The Stephen Reich Memorial Award Assembly is an annual event honoring Major Stephen Reich, a Washington, Connecticut native who exemplified courage, leadership, and service. Established in 2006, the award recognizes one Shepaug student each year for exceptional citizenship and dedication to the community.

This year, from the Class of 2025, Peyton King was selected as the recipient of the Stephen Reich Memorial Award. Peyton's integrity, compassion, and commitment to helping others reflect the spirit and legacy of Major Reich.

Region 12 Schools proudly continues this tradition, celebrating students who embody the same values of honor and service that defined Major Reich's life.

Shepaug Dramatics

HALO NOMINATIONS & AWARDS

This year, Shepaug Dramatics presented two outstanding productions, *Clue* and *Into the Woods*. Both performances reflected the depth of talent, commitment, and creativity within Shepaug's performing arts program. At Shepaug, the arts are an essential part of the student experience, cultivating confidence, collaboration, and a lifelong appreciation for creative expression.

The following members of the Class of 2025 were recognized with HALO Award nominations for their exceptional artistry and contributions to these productions.

CLUE

Best Costume Design and/or Execution
Amanda Phillip, Helena Nelson & Bucky Nunes

Best Performance in a Featured Male Role in a Musical
Talon Profeta as Mr. Green

Best Prop Design
Amanda Phillip & Helena Nelson

Best Sound Design and/or Execution
Julia Wologodzew

Best Standout Performance in a Female Role in an Ensemble Production
Peyton Ongley as Mrs. White

INTO THE WOODS

Best Lighting Design and/or Execution
Ryn Hutchings

Best Performance in a Featured Female Role in a Musical
Matilda Skiles as Cinderella

Best Performance in a Leading Female Role in a Classical Musical
Alexandra Quilli as The Witch

Best Performance in a Leading Male Role in a Classical Musical
Peyton Ongley as The Baker

AWARD WINNER!

Best Performance in a Comic Male Role in a Play

Congratulations to **Talon Profeta**, who received the HALO Award for Best Performance in a Comic Male Role in a Play for his portrayal of Mr. Green in Clue! Talon's sharp timing, expressive delivery, and dedication to his craft brought humor and energy to the stage, earning well-deserved recognition for both his performance and the Shepaug Dramatics program.

We congratulate Talon on this outstanding achievement and wish him continued success in all his future theatrical endeavors.
