HOMEBOUND INSTRUCTION

The schools may furnish homebound instruction to those students who are unable to attend classes for at least two consecutive weeks due to a physical injury, medical situation, or a severe emotional problem. The instruction is designed to provide maintenance in the basic academic courses so that when a student returns to school he/she will not be at a disadvantage because of the illness or the hospitalization.

To qualify for the program the student needs a written statement from a medical doctor requesting the homebound instruction, stating the reason why, and estimating the time the students will be out of school. This statement, along with the Webster Home Hospital Form, must be sent to the Director of Student Support Services.

Homebound instruction is offered in basic elementary and secondary subjects which do not require laboratories and special equipment, subject in all cases to the availability of qualified tutors. Qualified tutors are assigned to homebound instruction by the Director of Student Support Services with the approval of the Superintendent.
