### Header: Introductions

Wide range of grade levels represented this year K-4. Parents, grandparents, etc.

Goal is to meet monthly to discuss the progress the students are making academically, evaluate School Improvement Plan and determine budget etc.

Determine roles:

Notetaker: Barbara Burgess

Timekeeper: Kristin Wade

Co-coordinator: Sandra Morales

Reminder that it is a public meeting, everyone is welcome to attend, but only members of the council can participate in voting.

### Header: MCAS Data Presentation and Discussion

According to MCAS we have work to do in terms of proficiency.

Our growth is an area of strength.

English language proficiency is a strength.

Chronic absenteeism continues to be 4/4.

Interventions are working as is evidenced by our growth scores. Tier one instruction needs to be strengthened to achieve growth in our proficiency scores.

### Header: Joint Meeting Notes

Explanation of QIP

Community and Family Engagement and SEL program seemed to be important. Evenly split between parents and staff, which leads one to believe that we're on the same page.

Math support already seems to be happening.

What should we focus on this school year (QIP)?

Unpacking ELA curriculum

Interventions

SEL

Working with other schools who are focusing on the same initiatives.

Every part of the goal is important. They are intertwined, so you can't have one without the other.

We'll be looking at and evaluating progress toward these goals at our meetings.
