August 1, 2022

Dear Member and Family:

The Trustees of the Cambridge Public Employees Dental and Vision Fund are pleased to announce improvements to your vision plan!

When Are You and Your Covered Dependents Eligible for Benefits?

- The twenty-four (24) month eligibility period for you and your covered dependents age fourteen (14) and over will remain.
- The twelve (12) month eligibility period for your covered dependents under fourteen (14) years of age will remain.

What Are Your Improved Vision Benefits?

- Effective **September 1, 2022**, the allowable vision reimbursement will be increasing from $300 to $450 during each eligibility period, as described above. Each eligible member and eligible dependent will be entitled to receive a total reimbursement of up to $450 towards any combination of lenses, frames, and/or contact lenses.

All other vision policies will remain in place. Note that your next eligibility period will be measured from your last date of service. Please call the Fund Office at 617-354-1110 or email at info@cdvfund.org, for any concerns or questions. Additional information, provided at the Fund's website www.cdvfund.org.

The trustees encourage you and your family to use your improved vision benefit. We hope that the increased reimbursement allowance of up to $450 will be even more valuable to you.

Sincerely,

Board of Trustees
