Investing in Our Future World

Bellevue School District receives funding from state, federal and local funds. BSD uses voter-approved levies to help bridge the gap between what the state funds, and what it costs to operate our schools. The 2026 replacement levies renew funding that voters approved four years ago.

LEVY	ESTIMATED RATE	PURPOSE
Educational Programs & Operations Levy	\$0.75 per \$1,000 of assessed property value	Day-to-day school operations
Technology & Capital Projects Levy	\$0.54 per \$1,000 of assessed property value	Technology, safety, and facility upkeep

For a Bellevue home valued at \$1 million, the combined cost is about \$1,290 per year for Bellevue School District.

Our Financial Health is Improving

One year ago, BSD was in a difficult financial position and expected to face even more challenges in the year ahead. By cutting costs, working closely across schools and departments, and managing money carefully, the district’s financial situation has improved. BSD is now ahead of schedule in meeting its financial requirements and is continuing to keep spending under control while rebuilding its savings.
