

Nederland Independent School District

About the Program

The Nederland ISD “Men Enriching Nederland Schools” program is designed to encourage men in our community to become active in the lives of our students. This program will inspire men to become involved as positive role models for our students, along with enhancing student security across all campuses. Participants will have the opportunity to see what happens within the doors of our campuses every day, while providing an extra set of eyes and ears.

The success of the program depends on not just the participation of NISD faculty and staff, but the community as a whole. The district is calling on community members to get involved in this exciting program. Through community and parental involvement, we can ensure the success of the M.E.N. program.

Together, as a community, we can build a brighter future and instill the love of learning at an early age. Join us as we make the leaders of tomorrow!

How does the program work?

M.E.N. are fathers, brothers, grandfathers, uncles, and others who volunteer at any NISD campus. During the day, M.E.N. help with drop off and pick up, play at recess and P.E., eat lunch with students, watch school entrances and hallways, read with students, and other assigned activities.

How do I become a volunteer?

Volunteering is simple. We are asking for fathers, brothers, grandfathers, retirees and others who would be willing to give of their time to help enrich the lives of students in NISD. Training will be provided to volunteers giving them the skills they need to better assist the faculty, staff and students they work with. Volunteers must pass a district background check.
