Proficient Trend (3rd grade state test)			
○ Hillsboro Primary School ……ELA	67%	73%	75%
○ Hillsboro Primary School ……Math	61%	65%	68%

The data is based on Ohio Department of Education (ODE) trend data, available on the ODE webpage under Ohio School Report Cards. This data was reviewed by the elementary principals, the superintendent, and the district administrator. It has been shared with K–5 teachers to guide evaluation of current programming and instruction using Title I resources. Recent initiatives include the implementation of i-Ready as the district assessment, a revision of the MTSS framework for the 2025–2026 school year, and the adoption of new reading series: *Wonders* for grades K–2 and *Benchmark Advance* for grades 3–5. These updates aim to identify learning gaps and improve student performance, with the goal of increased achievement in the 2026–2027 school year.
