

SUPPLIES

INSTRUCTIONAL SUPPLIES – 611

Instructional supplies are items directly used in the educational setting. Generally speaking, instructional supplies represent consumable supplies. Examples of items included in this budget line are art supplies, sheet music, reeds and strings, reading kits and magnetic letters and words, consumables materials for the K-5 science curriculum, STEM consumables, and math workbooks. At the elementary level, language arts journals, science notebooks and math journals for every student are also included in this account.

SOFTWARE

COMPUTER SOFTWARE – 612

From this account we purchase software programs that cover the different curriculum areas and extend over several grade levels. Coordination and oversight of these purchases is provided by the Technology Department to insure best pricing and supportability.

Depending on the program usage, we may purchase a single copy for each school, a site license or a district license. A site license allows us to install the program in all our schools on an unlimited number of computers.

This account also includes the management software for all computers, the maintenance of the district-wide student system, and the maintenance of all administrative department applications that support the following departments: Business Office, Finance Department, Transportation, Human Resources, Payroll, Nursing and Special Education.

EXPENSES

TECHNOLOGY SUPPLIES – 613

From this account we purchase replacement cartridges, Chromebook cases, headphones and other miscellaneous materials to support the printers and other technology used throughout the school district.

GRADUATION EXPENSE – 615

Costs for Staples High School graduation exercises are charged to this account. Examples are:

Police coverage
Plaques
Folding chairs
Gown rentals

Flowers
Awards
Diplomas
Invitations

TEXTS, PRINT AND ONLINE MATERIALS – 641

At the school level, this account covers the cost of replacing lost and damaged books, and supporting specific classroom library needs. In addition, new texts and online resources are scheduled to be purchased centrally by the Assistant Superintendent of Teaching and Learning for subjects, grades and courses throughout the district. As the world of textbook publishing continues to evolve, internet website-based electronic resources are sometimes purchased from this account in lieu of physical textbooks depending on the content area and publisher.

Grades K-5

Informational texts, series books, decodables, and books that span the reading levels and interests of our students that align with our reading and writing curriculum, science and social studies content, and social emotional learning (RULER lessons) will be purchased for our classroom libraries.

Grades 6-12

At the secondary level, we will continue to purchase reading materials to support the ELA program and provide resources for teachers to differentiate instruction. In the 2026-2027 budget, our expenditures in the secondary textbook account largely represent the purchase of website-based electronic resources.

641 TEXTBOOKS, E-TEXTS & ON-LINE MATERIALS

LIBRARY MATERIALS – 642

LIBRARY BOOKS

Each school media center maintains a diverse collection of books for reference, curriculum support and independent reading. The reading materials reflect a broad range of subjects, interests, ideas, beliefs and viewpoints, and accommodate the varied literary tastes, learning styles, ages and abilities of the students served. A quality school library collection is crucial to the development of lifelong reading habits for leisure and learning.

To maintain the integrity of the collection, damaged and lost books must be replaced. To expand the breadth and depth of the collection, relevant, current, accurate information sources and popular, award-winning titles and authors of fiction and picture books must be purchased. Media Specialists read magazine reviews of books, reference sources, and non-print materials to assist them in selecting quality materials for our libraries.

PERIODICALS

Age-appropriate periodicals provide students with reading materials that initiate learning and recreational activities. Current reading materials allow students to keep abreast of political, cultural, scientific, social and economic changes and happenings in the world. Many magazines directly support the curriculum and assist students in completing classroom assignments. Additionally, professional journals are purchased for our educators and administrators. Materials on management, curriculum, subject disciplines, technology and other relevant topics provide information for improving instruction and student learning.

DATABASES

The school system continues to move away from printed reference books in favor of subscriptions to online database resources. Examples of database subscriptions include Pebble-Go, Encyclopedia Britannica, CQ Researcher, and Nature.

EXPENSES

NON-INSTRUCTIONAL SUPPLIES – 690

This account covers the cost of supplies not directly charged to an instructional program. Examples of non-instructional supplies are photocopy paper, toner and dispersing supplies for photocopies, office supplies for each school office and the central offices, as well as items needed by district-wide coordinators. There is a continuing migration toward distributing information through technology rather than a printed document.

HEALTH SERVICES – 691

This account covers the expenses for all supplies used by the Nursing staff in all schools.

MEMBERSHIP EXPENSES

DUES AND FEES – 810

This account covers the cost of professional memberships. Some of the organizations that are affiliated with the Westport Board of Education and/or its employees are the Connecticut Association of Boards of Education, the Connecticut Association of Public School Superintendents, the National Association of Secondary Schools, the New England Association of Schools and Colleges, the Connecticut Association of School Business Officials, the Tri-State Consortium, Cooperative Education Services and various subject oriented organizations.

STUDENT ACTIVITIES – 811

Funds are appropriated for non-athletic student activities such as chorus, band, school newspapers, and other school club functions.

STUDENT ATHLETICS – 812

This account is used to account for the athletic funds for the high school.

This account covers the purchase and scheduled replacement of athletic uniforms for all Staples High School interscholastic teams. Funding supports both a yearly and four-year rotation cycle designed to ensure uniforms are replaced on a consistent and predictable schedule. This includes game uniforms and related required apparel necessary for safe and proper student participation in athletic programs.
