

**Math Materials Selection Committee
Community Agreements 2025-2026 (est. 9/17/2025)**

1. Focus on equity for ALL students
2. Equity of Voice-Opportunity for all to voice their opinions and ideas (Use WAIT—Why am I talking?), encourage others to share, and active listening.
3. Honest and respectful dialogue
4. Challenge to think outside the box and be open to change; reach beyond the status quo; seek and encourage different opinions
5. Preparation as participants and facilitator (clearly stated purpose and outcomes, focus on the big picture outcome).
6. Be solution oriented, but be okay with multiple solutions. Accept that the solution may not be perfect; one size does not fit all.
7. Honor different styles of learning and processing (i.e., think time, out loud thinking)
8. Honor all team members' opinions, backgrounds and contributions. Exercise self-awareness when you sense a belief that is being challenged you are not comfortable with.
9. Honor team member's schedules. Start and end meetings on time
10. Respect the process and committee members.
