Partners in Education

Business Partner and Volunteer Partner Opportunities

The Nederland Independent School District Partners in Education program is based upon the belief that members of our community and local businesses are an essential part in the growth and development of our students and district. The Partners in Education program is designed to create mutually beneficial relationships that enhance the lives of both parties. Nederland ISD seeks to collaborate with organizations that have a desire to contribute to the 5,000 students across the district. Nederland ISD welcomes any organization willing to invest their time, talent and resources in our district.

Business and volunteer partners are important for a number of reasons. Through volunteering, in-kind donations, program support and other creative ways, our partners are committed to building a better community through their involvement in our district.
