

Pathways for students who have completed Science 8 in middle school

Pathways for students who have completed the Earth & Space Science course and RE in middle school

EXTENDED AND ALTERNATIVE SCIENCE PATHWAYS

* Typically, students who are most successful in Chemistry have learned physical science lab skills through the completion of Earth and Space Science, and are concurrently enrolled in Algebra 2 or Algebra 2/Trig, or have earned at least an 85 average or better in Algebra. Chemistry is an essential science for students pursuing any science field after high school.

- Science Research 10
- Science Research DE (11-12)
- PLTW Human Body Systems DE
- IB Environmental Science (w/lab 11-12)
- IB Sports Exercise Health Physiology (w/lab 11-12)
- Forensics (.5cr/life sci)
- Climate Science (.5cr/life sci)
- The Science of Food (.5cr/life sci)
- Science in Pop Culture (.5cr/phys sci)
- Astronomy (.5cr/phys sci)
