

Eagle Gazette: News from the Eagle's Nest

8th Grade Science thinks outside the shell!

Mrs. Tomkinson's classes studied the effects of genetic and environmental factors on the growth of organisms with eggs in incubators. Pictured are two students holding the chicks that hatched.

8th grade visits Piedmont Tech

8th grade explored course offerings at Piedmont Tech as well as careers connected to those studies. They enjoyed many demonstrations and hands on activities such as the student pictured wearing police riot gear.

Important Dates

- ☒ Book Fair - Oct 13-17
- ☒ PSAT - Oct 21
- ☒ Picture Day - Oct 3
- ☒ PTO Fall Dance & Dental Visit - Oct 24

7th Grade ELA news

In 7th grade ELA this nine weeks, we have been working on answering the question "What can one generation learn from another?" We have read an excerpt entitled "Two Kinds" from Amy Tan's bestseller "The Joy Luck Club" and breaking down the relationship between Jing-Mei and her mother. We have read and discussed how generations of kids across the world possibly will not know how to speak certain languages because they are in danger of becoming extinct. We have read and discussed how senior citizens are learning how to use technology from high school seniors. We have read and discussed the relationship between Maya Angelou and her mother from her memoir "Mom & Me & Mom". Finally, we have written a personal narrative on how someone from a different generation influenced and enriched our lives. It has been a great beginning to the school year!! - Mr. Wrenn and Ms. Wilhite

PTO Needs You!

Be part of the fun, the ideas and the difference when you join the J-E-T PTO family. Your child will feel supported, and every child will benefit. email jet.pto3@gmail.com and follow on facebook: PTO- JET Middle School
