Glascock County Elementary School Mission:

The mission of the Glascock County Board of Education is to cultivate a dynamic learning environment that fosters lifelong growth empowering every child to realize his/her utmost potential and become a competitive, productive member of a rapidly changing, technologically advanced society and world.

JOINTLY DEVELOPED

The parents, students, and staff of Glascock County Elementary School partnered together to develop this school-parent compact for achievement. Teachers suggested home learning strategies, parents added input about the types of support they needed, and students told us what would help them learn. Parents are invited to revision meetings each year to review the compact and make suggestions based on student needs and school improvement goals. Parents are encouraged to participate in the annual Title I parent survey that is used as a tool to collect parent feedback regarding the current Title I programs and policies.

To understand how working together can benefit your child, it is first important to understand the district's goals for student academic achievement.
