

How to Create an Account in Mackin VIA

(follow the directions sentence by sentence—the screenshots may no longer completely match the new Mackin VIA version)

1. Go to the NISD website (www.nederland.k12.tx.us), click Schools, click CO Wilson, click Library link on left.
2. On Library page, go to Mackin VIA link on right. You will be asked to log in. Begin typing **Wilson** in the School blank. Find C.O. Wilson in the drop down list and click. Use **cowilson** as the User ID and **guest** as the password.

3. Click on LOG IN in the upper right corner and a registration screen will appear.
4. A log-in dialog box will come up. Type in a User ID and password of **YOUR OWN**. (I strongly suggest you use the same username and password you have used in the past for AR.) Fill out the Registration form. No need for email address. Then click **SAVE**.
6. Click Save. Then you can go back to the list of books.
7. *Once the Backpack Account is set up. You can go to the app store on your device and download the free Mackin VIA app. The app on your device will take you directly to our (CO Wilson's) collection of ebooks in Mackin VIA.*
