Favorite Animal: **Elephants**

Favorite Movie: **The Greatest Showman**

Favorite Book: **Hidden Potential by Adam Grant**

Favorite Musical: **Wicked**

### What is the Gull Lake Early College Program?

Gull Lake Community Schools Early College (GLEC) is a fifth-year high school program that combines and extends high school with an early college experience. The goal is to provide students with a high school diploma and college credits, up to an Associate's Degree.

#### Key Benefits & Goals

Cost Savings: Gull Lake Community Schools pays for the cost of tuition, course materials, and fees (up to an allocated amount).

Time Savings: Students have the opportunity to earn college credits for up to three years, with the final year taking place after their original high school graduation.

- Post-Graduation Success: Increases the number of GLCS students enrolling in and completing college.
- Supportive Environment: Students receive support services to assist in the transition from high school to college.

#### Program Design: The 3-Year Transition

Students gradually transition from traditional high school to full-time college over three years (grades 11, 12, and 13).
