Study on the Lawn at the ASC

This December, our Academic Success Center brought studying outdoors with our first-ever Study on the Lawn event. It was a cozy, Christmas-themed study session designed to give students a refreshing change of scenery to help them finish the semester strong. Blankets, blow-up furniture, and warm holiday touches transformed our lawn into the perfect space to focus, unwind, and review.

Students were invited to bring their books, Chromebooks, or projects, but we also provided plenty of study-ready materials.

Study on the Lawn was more than a study session—it was a reminder that when we create space, support, and structure, students can build a strong framework for success. We loved seeing our Bulldogs working hard, encouraging one another, and finishing the semester with confidence.

Peer Tutors supported elementary students during the event.

High schoolers enjoyed a study session on the blow-up furniture.

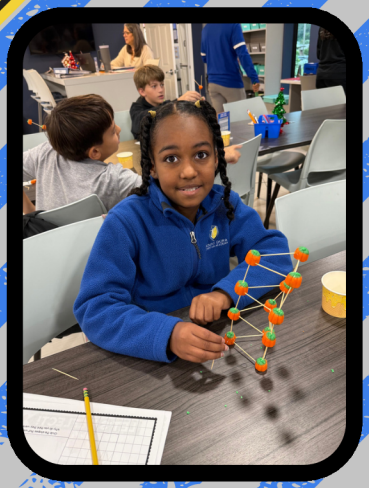

Middle schoolers came prepared with blankets and snacks ready to study together!

Dolly Parton Imagination Library

The ASC proudly collaborates with the Dolly Parton Imagination Library. We recently visited our Preschool to nurture a passion for reading. This wonderful program provides free books to children from newborns up to 5 years old. If you would like to learn more, please reach out to the ASC.

January 26-30
Literacy Week

Gratitude

During November, our Peer Tutors distributed letters of gratitude to various staff and faculty members. We sincerely appreciate our MDCA&CH community.
