

## New Preschool Rules Requirements

The new preschool rules state that "In ensuring that a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services, a school district shall annually prepare, post publicly, and make available to parents during the evaluation process, a list of the available preschool education service options in the community. This list shall not be limited to service providers within the geographic boundaries of the district, but shall include providers outside the limits of the school district boundaries that may be more easily accessible to children with disabilities living within the boundaries of the school district. This list shall inform the discussions and decisions on the appropriate placement of each child with a disability."

Therefore, the Sycamore Community School District is meeting a mandate in the Ohio Preschool Rules by identifying community preschools, within and outside of the district boundaries, which are easily accessible to district families. This posting is not an endorsement of any particular community preschool, nor does it constitute a placement decision if a parent elects to send their child to a school included on this list.
