CSA
(REGULATION)

Purpose

The purpose of this regulation is to ensure compliance with law and policy regarding the use of private spaces in District facilities. This regulation provides guidance on the designation and use of multiple-occupancy private spaces based on sex, as defined in the Texas Women's Privacy Act, Government Code Chapter 3002. The Board of Trustees has directed the Superintendent to ensure that appropriate staff designate private spaces in accordance with the law. [See CSA (LEGAL) and (LOCAL)]

Application

This regulation applies to all employees, students, contractors, and visitors and governs the use of private spaces in all buildings owned, operated, or controlled by the District. The District will take every reasonable step to ensure an individual whose sex is opposite to the sex designated for a private space does not enter the private space, unless the use meets an exception or accommodation as set forth below.

Designation of Private Spaces

Private spaces where an individual may be in a state of undress will be designated either single-occupancy or multiple-occupancy as defined by law. [See CSA (LEGAL)]

Designation of private spaces will be determined by the Superintendent or designee for all non-campus District facilities. Designation of private spaces at campus facilities will be by the campus principal or designee.

Single-Occupancy Private Spaces

Single-occupancy private spaces owned, operated, or controlled by the District may be designated as either male, female or unisex. The District may also designate a family restroom or a single-occupancy changing room. Single-occupancy private spaces will have a locking door unless the space is designated for use only by children under 9 or individuals needing assistance through an accommodation as described below.

Multiple-Occupancy Private Spaces

The District will designate each multiple-occupancy private space in a building the District owns, operates, or controls for use only by individuals of one sex. The District may change the designation of a multiple-occupancy private space from the exclusive use of one sex to the exclusive use of the other sex.

The District will designate private spaces and change the designation of multiple- or single-occupancy private spaces with appropriate notice and signage.

Athletic, Band, and Performance Facilities

A multiple-occupancy private space may be temporarily designated as a non-private space. Temporary redesignation of a space may be warranted for coaching, instruction, rehearsal, training, medical

care, media coverage, parent visits, or other purposes approved by the Superintendent.

Appropriate campus or District officials will notify affected staff, participating students, and participating students' parents of a general schedule of approximate times immediately before, during, and after practices, rehearsals, events, and competitions that specific spaces will be designated non-private. Campus and District officials will give the notice in a manner that is reasonable and appropriate to the circumstances, considering the age and maturity of the students, the nature of the program, the customary use of the space, and the times a space's privacy designation may be changed. In many cases, an announcement at a team meeting or an email to participating students and parents will give adequate notice of the customary privacy designations and the times when a privacy designation may be changed. In other cases, temporary or permanent signage may be appropriate to notify participants of privacy designations. [See CSA (EXHIBIT)]

**Changes to
Privacy
Designations**

When a campus hosts a competition or event where (1) privacy designations are temporarily changed, or (2) many participants are unfamiliar with the space's customary privacy designations, signage should be used to notify participants of privacy designations. Campus and District officials should use reasonable discretion in determining what type of notice is appropriate for the circumstance, and they may consult with the campus principal and Executive Director of the program for direction as needed.

In order to ensure the privacy of student participants and others is respected, consistent protocols will be followed as a space is changing from a designated private space to a non-private space. Before a person enters a space where the privacy designation has changed, a clear announcement will be made to ensure that no one is in a state of undress and occupants are placed on notice that the space is in a non-private status. During these times, reasonable steps will be taken to provide clarity about the temporary privacy designation of a space as non-private, which may include posting temporary signage at or near the entrance of the space or propping interior doors open to a hallway or common space.

Prohibitions

The use of a multiple-occupancy private space by an individual whose sex is opposite to the sex-designation of the private space is prohibited, unless the use meets an exception or accommodation as set forth below.

Exceptions

The following are exceptions to the designation of multiple-occupancy private spaces for the use of a single sex:
