OUR ROOTS

Our story began in Kansas City, Missouri, where Future Farmers of America took shape — opening doors for young people to learn, lead, and grow through agriculture.

In 1930, Mifflinburg High School started the first FFA chapter in Pennsylvania. For nearly a century, we've grown leaders, strengthened farm knowledge, and lifted our community.

Explore our rich history and tour our current spaces to understand the need for updated, expanded facilities.

TODAY'S AGRICULTURE PROGRAM

- Comprehensive courses in animal science, plant science, and ag mechanics
- Hands-on learning in labs and greenhouses
- Community partnerships and leadership development through FFA

EXPLORE OUR FUTURE
