				$7,710,900.00			**$ 5,064,000.00**

Note: This project ensures JPSD completes the required transition away from Windows 10 before support ends and eliminates the cybersecurity, operational, and instructional risks associated with outdated devices. The proposal from KIBS Corp provides a fully managed, turnkey deployment. Their submission meets all technical specifications and delivers the lowest and best value compared to the alternative response, offering a comprehensive rollout at a significantly lower total cost.
