

ASCTE
FOUNDATION

DECEMBER 2025
DONOR UPDATE

Happy New Year

As we welcome 2026, we are deeply grateful for our Partners in Education whose collaboration, generosity, and shared vision continue to shape the future of cybersecurity and engineering education.

Thank you for investing in students and helping build a stronger tomorrow!

Year In Review

2025 was a year of remarkable growth and momentum for the ASCTE Foundation. We celebrated record enrollment, historic student achievements, and the continued expansion of real-world learning through industry partnerships. Students completed meaningful internships and earned acceptances to top universities and service academies, while ASCTE strengthened its leadership in cybersecurity, engineering, and AI education. Significant progress was also made on the Sentinel Center, which is nearing completion and will soon expand opportunities for athletics, the arts, and student life. None of this progress would be possible without the continued support of our partners and supporters who help prepare the next generation of innovators and leaders.

Senior Internship Reveal

Today was an exciting milestone for our ASCTE Team 4 seniors! Students participated in their internship reveal, learning where they'll be gaining hands-on, real-world experience as they take the next step toward their future careers. We're incredibly proud of their hard work and can't wait to see them grow through these opportunities.

Want To Attend ASCTE?

Final ASCTE admission applications close January 23rd. If you have an 8th or 9th grader interested in cyber or engineering, now is the perfect time to explore what ASCTE has to offer. Join us for a tour, meet our team, and see why families across Alabama choose ASCTE. For more information and to apply, visit ascte.org/admission.
