

Next Steps

$$\frac{a}{b} = a:b$$

Our goal is to empower students in their next step by exploring College and Career options. This club is limited to just 35 eighth graders. We meet every Thursday during Mountain Time and take several field trips throughout the year.

Next Steps Provides

Positive role models.

Members of the community will be invited to share their College and Career story during our weekly Mountain Time meetings.

College visits

We will tour COCC and OSU Cascades, allowing students to visit classes and talk with staff.

High Schools Connections

We will visit high school campuses that offer Career Technical Education and School-to-Career programs, exposing students to industries that offer high wage, high demand job options.

Future Readiness

Students will learn about professional etiquette, leadership skills, financial literacy, and be empowered to make next-step decisions for their future.
