ABOUT US

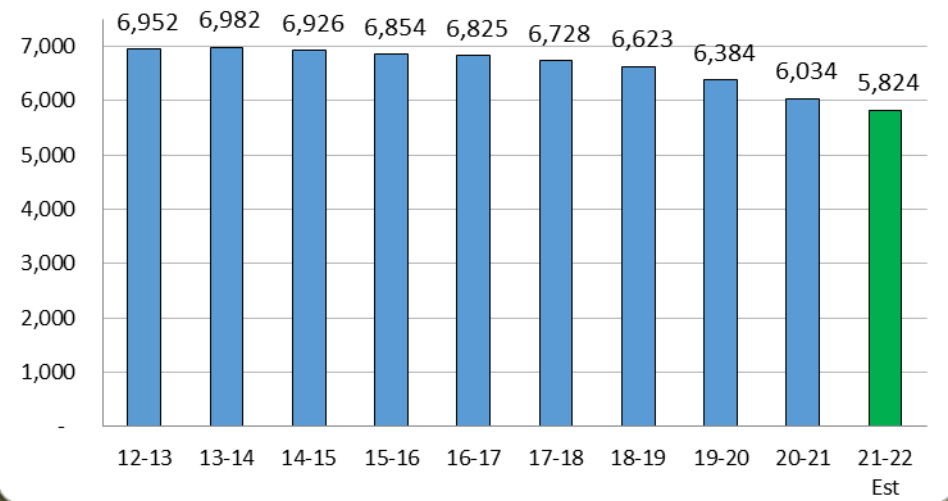

Every school district thinks their schools are great - at least they should. But what makes a school, and a school district, truly great?

At the West Bend Joint School District #1, we believe it's establishing within all families the knowledge that their child - throughout their 14 years within this school district - will experience a caring, inclusive learning environment that supports the development of the whole child.

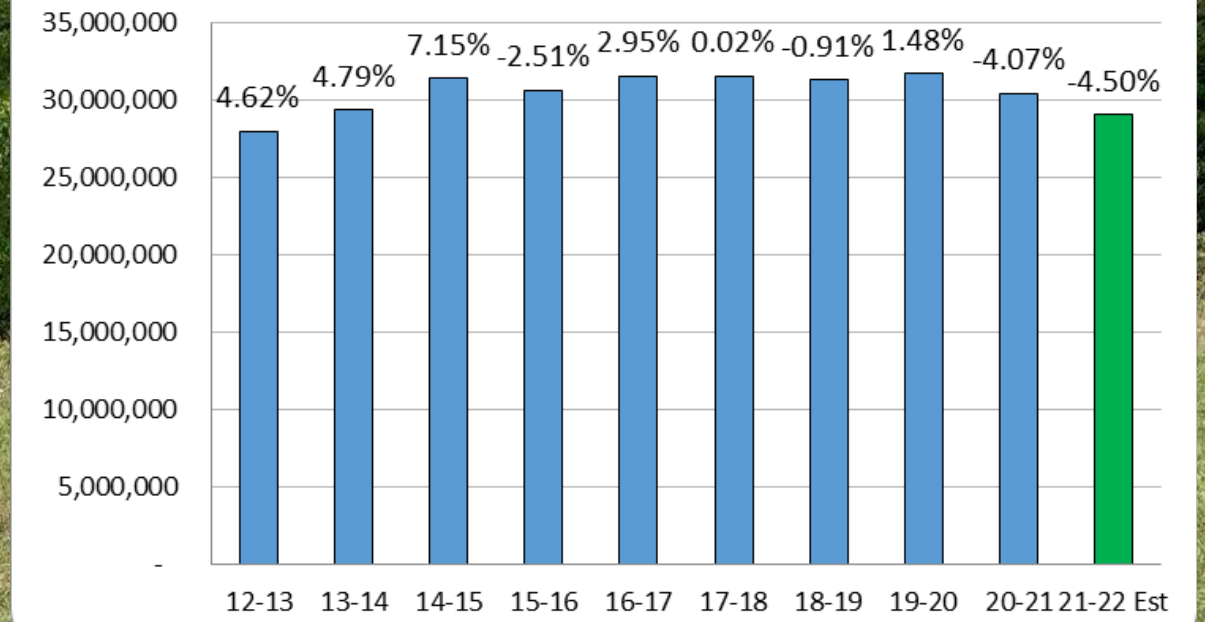

- We strive to meet the needs of our gifted learners, ensuring they will be challenged at an appropriate rate while experiencing a balanced approach to their physical, social, emotional, and intellectual well-being.
- We strive to provide services for our students with special needs, in a manner which allows them to attend their neighborhood school and receive research-based effective specialized services from the highly-trained staff that allows them to thrive.
- We strive to ensure that our typically developing students are not overlooked. Rather, they experience individualized learning from high-quality staff to reach their goals while thriving in every aspect of their life.
- We strive to provide opportunities for all students to explore their interests and talents through a wide variety of academic programs, visual and performing arts, athletics, and co-curricular clubs.

The West Bend School District believes that succeeding in school means being happy at school. We foster a sense of belonging, empowerment, and safety in our schools. Dedicated administrators, teachers, support staff, and volunteers are focused on creating a positive, happy place to learn.
