

## EXTENDED LEARNING OPPORTUNITIES

All Extended Learning Opportunities (ELO) must be aligned with the educational goals and objectives of Kingswood Regional High School's instructional program.

### Application and approval process

The ELO application must be submitted to the high school principal through the student's guidance counselor. The application must be submitted three weeks prior to the beginning of the semester and include the following:

1. A detailed accounting of how participation in the ELO achieves competency or competencies that meet or exceed the rigorous academic standards required by the school for students enrolled in a credit course offered by the school.
2. A detailed explanation of the performance. It is expected that students will produce a portfolio of evidence that they have met the competencies.

The Kingswood Regional High School Administration will monitor all requests for ELO and may not approve an application because of the lack of rigor or because the application exceeds the number of requests that can be adequately monitored.

### Evaluation of the ELO

The ELO experience will be evaluated on a timely basis. The evaluation process will include the following:

1. A self-reflection by the student summarizing the experience and explaining the outcome(s) of the ELO.
2. An evaluative statement by the mentor. If credit is being requested, the statement shall include a grade using the same scale as KRHS.
3. If credit is being requested, the portfolio shall be reviewed by a KRHS faculty member certified in the related content.
