Contract for MVS Students at Constantine High School

Welcome to Michigan Virtual School. Your participation in this course has similar requirements to other courses on your schedule at CHS. You are still bound by the standards in the Student Handbook. The big difference is you are expected to be more independent in terms of learning and meeting the requirements established by your instructor at MVHS as your work will be online and administered by an instructor not on campus here at the high school.

It is essential that you maintain regular and punctual daily attendance in this assigned class. The same expectations for all classes at CHS will apply to virtual learners regarding absences and tardiness.

All students participating in an online class must have the CHS Acceptable Use Policy agreement on file before starting a class. Students must also agree to the MVHS policy in order to proceed with the program.

This is an online course and you are expected to complete your work independently. Personnel are available on a daily basis to help with logins, glitches in the system, and other technical issues. In terms of assignments (writing, reading, exams, quizzes, etc.), students are to communicate with the instructor at MVHS for their course.

Quizzes, tests, exams, and other assessments are to be completed at school.

You are expected to be on task with announcements, assignments, discussions, tests, and quizzes. **It is important to follow the pacing guide for your class in order to complete all the assignments in the class. CHS is requiring 100% completion of the class. If classes are not fully completed, we will negatively adjust their grade.** Working ahead of schedule is a good thing! Seniors: choose a pacing guide that corresponds to your final day at CHS. **Extensions do not happen at MVHS,** so be prepared.

Your mentor will be keeping track of your progress, however, **you** are ultimately responsible for keeping yourself on track. Your progress **will** be recorded as a percentage in Powerschool at the end of each marking period. Grades will be recorded at the end of the semester.

MVHS students will work in the Media Center on their given device with the other MVHS students, unless they are working on a language course and need to be isolated for speaking parts.

Time management is essential, therefore this will be your only reminder that class time and CHS computers are not to be used for surfing the internet, listening to music, messaging, talking and/or any email that is not related to your course. Phones are not to be used in class or for class assignments.

MVHS Online Learning Enrollment Form

Online learning opportunities are encouraged for students who wish to earn elective credits or resolve scheduling conflicts, are comfortable with computers and the internet, and are self-motivated learners. Online learners must be proficient at time management. Online classes are not appropriate for all learning styles; students should plan to spend a minimum of 8-10 hours per week on their course.

CHS will bear the cost of the Michigan Virtual High School classes and textbooks unless the student fails the class with a 59% or lower, at which time the student/parents will reimburse CHS. As of 8/26/19, classes are $325 each. This cost is subject to change per MVHS.

The MVHS grades are letter grades and are factored into the student's GPA just like any other class.

CHS recommends that the course selected by the student be applicable to their current career interest and/or fulfillment of Michigan Merit Curriculum requirements for graduation.

CHS reserves the right to limit the classes student may take through MVS.
