\* **There will be no classes on the following date:**

**Monday, January 19<sup>th</sup> -  
 Martin Luther King, Jr. Holiday**

Hello Adult Education Family,

Welcome to 2026! We're thrilled to kick off the new year with all of you. As you return from a well-deserved break, we hope you're ready to focus on your goals with renewed energy.

Learning requires dedication, and we're proud of the commitment each of you brings. Many of you are starting classes in our certification programs, and we commend you for taking this important step. Our aim is not just to teach English and provide GED support, but to help you secure meaningful employment, increase your income, and take pride in your accomplishments.

A quick reminder: daily attendance is crucial. Each lesson builds on the last, and every day matters. Remember, your teachers, case managers, and office staff are here to support you every step of the way.

As we embark on this new year, take time to reflect and meet with your case managers to work towards your employment and educational goals.

Warm regards,  
 Ms. Audrey Gottlieb  
 Director of Adult Education

### WORKSHOPS FOR IMPROVING SKILLS

Students are being given a great opportunity to learn new skills, get good advice and be able to supplement their classroom learning with an exciting new group of workshops that are being offered at 6:00 PM on certain days. Ask your teacher or see the bulletin board for more information. Recently students learned budgeting tips, computer skills and money management advice. Students who take advantage of these excellent opportunities will receive certificates if they complete the workshop series and attend each day.
