8. Foundations-Social Science	
9. Foundations-World Cultures	
10. Connections-Global	
11. Connections	
12. Synthesis	

Students covered under this program
This general education curriculum applies to students who entered from fall 2020 onwards and did not graduate by May 2024.

Transfer students
Transfer students with a completed associate's degree from a regionally accredited institution are only required to take a Synthesis course to fulfill their general education requirements. Check the Council of Higher Education Accreditation website to see if your institution was accredited.

First-year seminar
Required of first-year students and transfer students with fewer than 8 course units or 24 credits. Students are considered first-year students if they have not attended a different college following their high school graduation, even if bringing in credits from dual enrollment or other means. Students who are enrolled in fully online degree programs are exempt from FYS.

English Composition
Transfer students bringing in credit for ENG102 do not need to take ENG101. Students must Complete English 101 to take English 102.

Foundations
Take courses with Foundations designations in Self-Service. May count toward a major at the discretion of the department chair.

Connections
Take Connections courses from two different departments; at least one must be a designated Global Connections course. One Connections course can count toward the major or co-major; both may count toward a minor.

Synthesis
The Synthesis course does not count toward the major or co-majors; it may count toward a minor. Cannot be taken before junior year as determined by course units or credit hours.
