happy new year

PLEASANT VALLEY FAMILIES

We hope you all enjoyed a restful and joyful holiday break. We are excited to welcome our students back to school and embark on a productive and engaging second half of the school year.

The start of a new calendar year is always a great time to reset goals and recommit to learning. Our students have returned with enthusiasm, and we are already diving deep into new academic concepts and challenges across all grade levels. As we move forward, we are placing emphasis on key skills across all grade levels:

- Reading & Communication: Encouraging students to engage in active reading, critical thinking, and effective communication through writing and speaking.
- Mathematical Proficiency: Building mastery in core concepts and applying problem-solving strategies to increasingly complex tasks.
- Inquiry-Based Learning: Fostering curiosity through hands-on units and collaborative projects in science and social studies.

We strongly encourage you to continue supporting your child's learning by maintaining a consistent homework and reading routine at home.
With winter fully upon us, we want to remind everyone of our procedures for inclement weather:

- School Closures/Delays: Please make sure you are receiving our PVI automated phone calls, as this is how we communicate school delays and closures. You can also find closure information on the PVSD website.
- Dress Warmly: Please ensure your child comes to school dressed appropriately for the cold, including a warm coat, hat, and gloves, as we will continue to have outdoor recess when the weather permits.

We are so grateful for your continued partnership. Remember that communication is key! If you have any questions or concerns about your child's progress, please do not hesitate to reach out directly to their teacher or to us.

Wishing you all a healthy and successful start to 2026!

-Sabrina Albright & Lauryn Bencker

Lessons in the SEL Lab continue through the month of January.
Third grade will learn about managing strong emotions.
Fourth-grade students will participate in an escape room to practice their conflict resolution skills.
Fifth grade will be learning about executive functioning skills.
Executive functioning skills are skills essential to school success such as focus, study skills, planning, and decision-making.

Listed below is our contact information.
Please reach out with any concerns you may have about your child.
