Fun with Math!

Multilingual Family Dinner

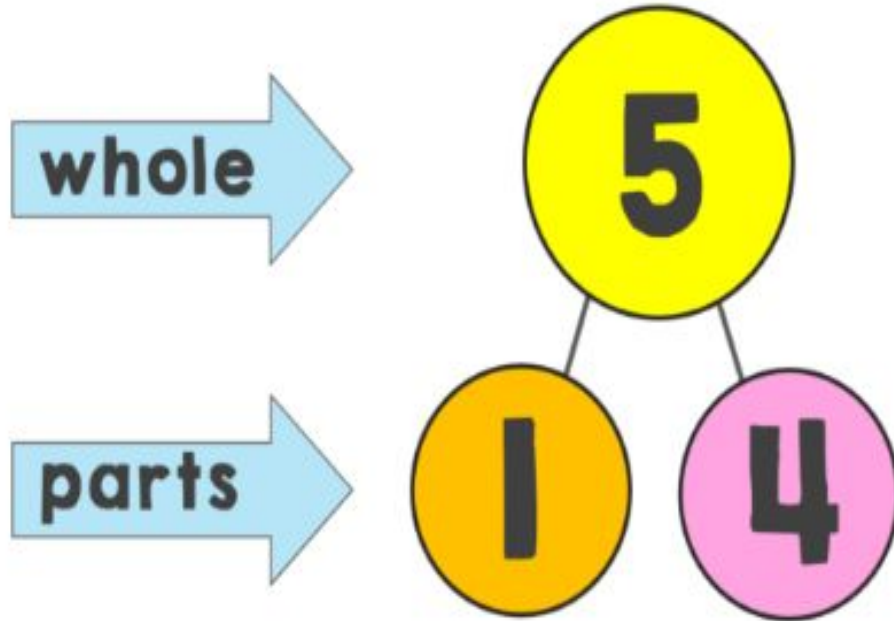

Get Dinner...

*and then we will talk about how
you can support your children
with math at home*

Tonight's Agenda

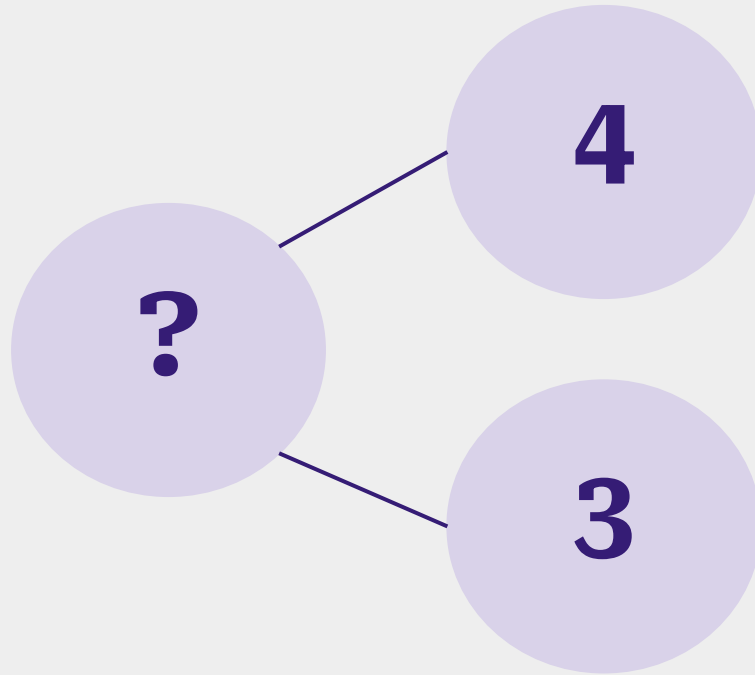

- Learn key math vocabulary
- Learn where you can find grade level specific resources
- Learn games to play together as a family
- Take home materials to keep playing!

Number Bonds

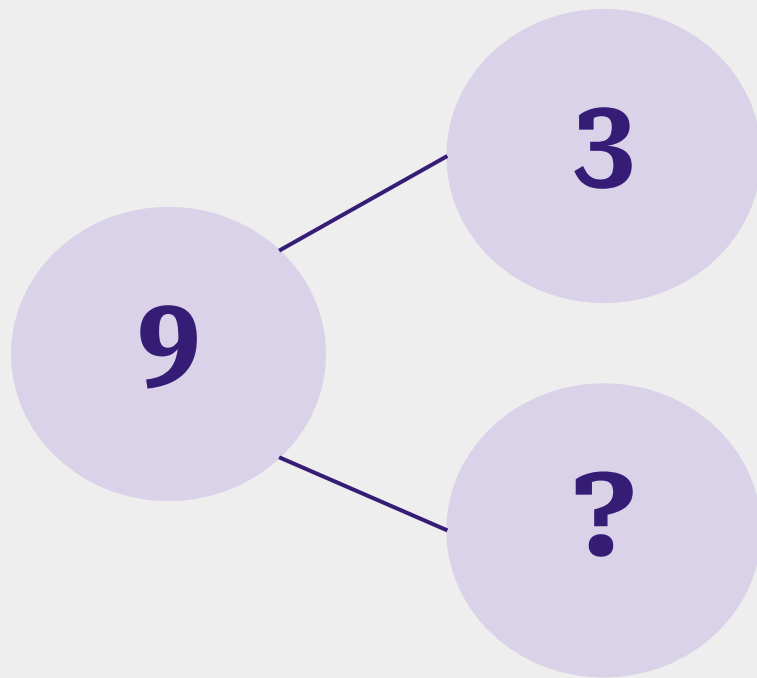

**Showing
relationship
between
numbers**

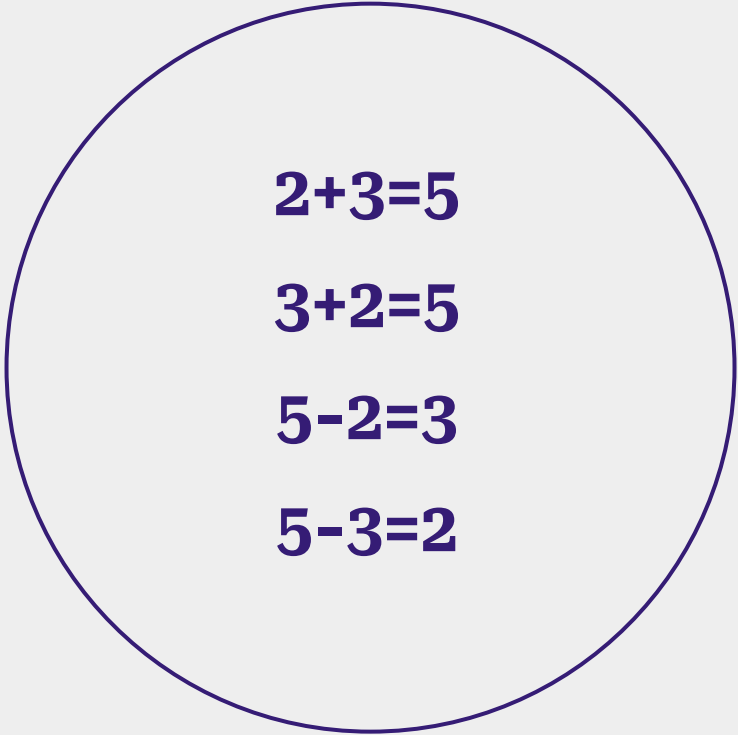

Addition

Subtraction

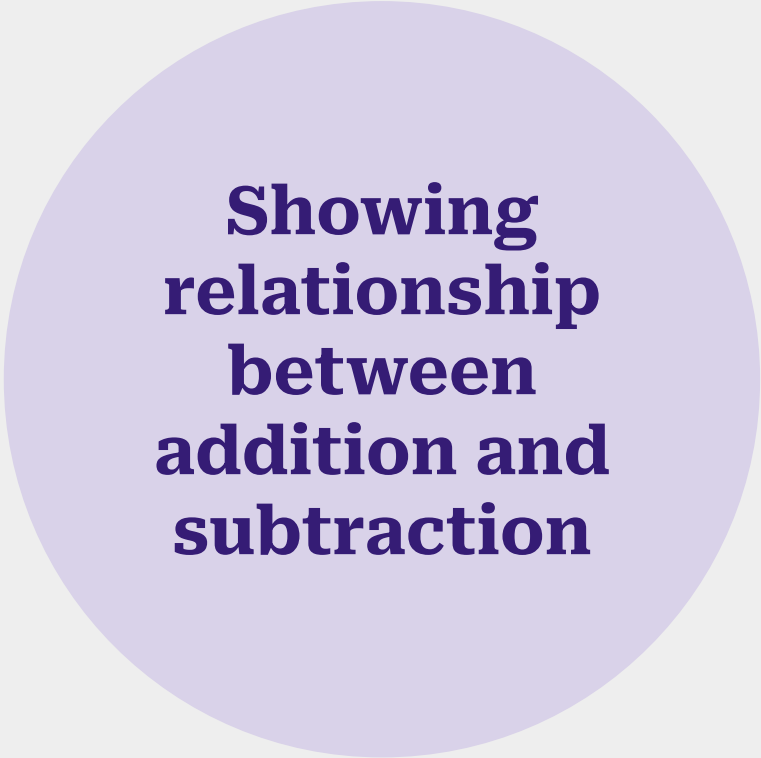

Fact Families

$$2+3=5$$

$$3+2=5$$

$$5-2=3$$

$$5-3=2$$

**Showing
relationship
between
addition and
subtraction**

What is missing?

$$1+7=8$$

$$7+1=8$$

$$8-7=1$$

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Expanded Form

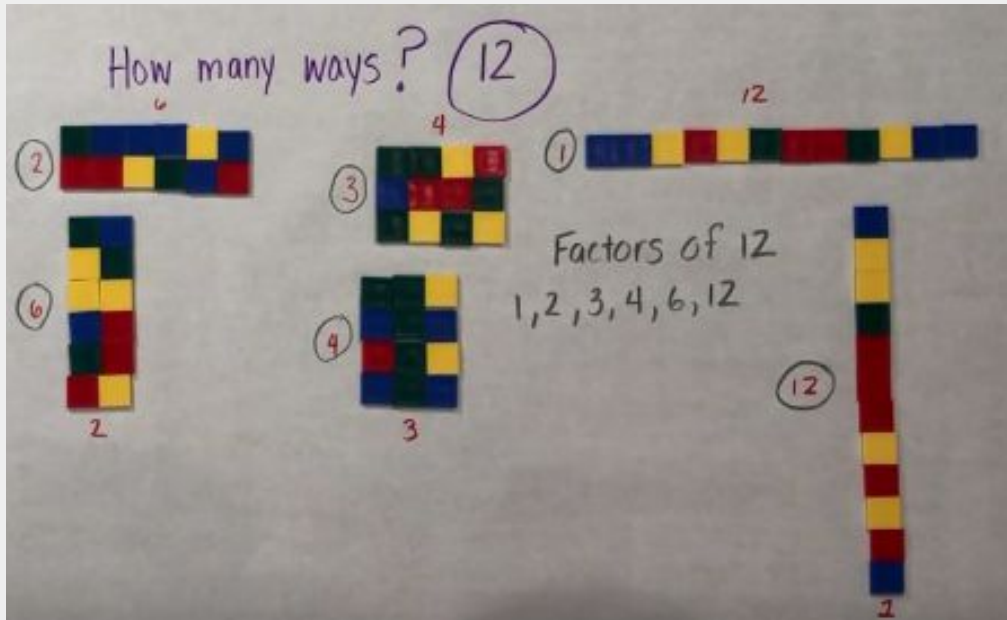

5,461

is the same as

$5000+400+60+1$

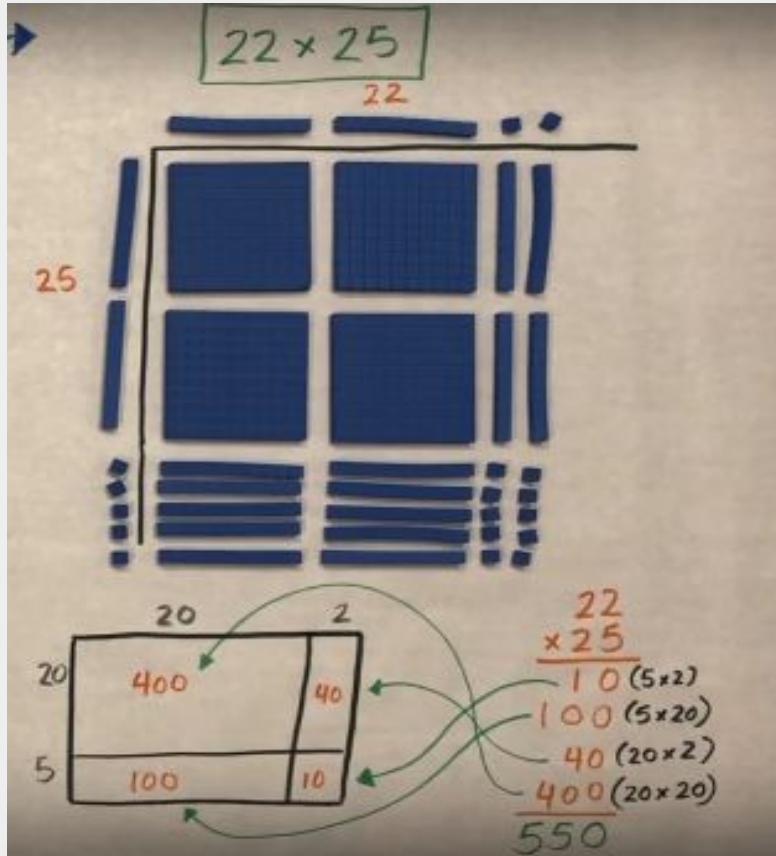

**Understanding
place value**

Arrays

**Understanding
ways to think
about numbers;
building
concept of
multiplication
and division**

Area Model

Developing
concept of
multiplication

How do I know how to help at home?

Math

Below you will find one page summaries that provide an overview of the will learn in each grade level over the course of a year. Included in these short videos for each unit that families can watch to see examples of the will learn and what these concepts look like "in action." Thank you for supporting math learning each year.

- [Kindergarten Math](#)
- [1st Grade Math](#)
- [2nd Grade Math](#)
- [3rd Grade Math](#)
- [4th Grade Math](#)
- [5th Grade Math](#)

For additional activities to build your child's math skills, check out these resources as well:
