Committee Purpose

The Budget and Finance Special Committee’s mission is to ensure the needs of CISD students are met through the efficient use of district funds and the development of effective ways to increase revenues and reduce expenses. Our purpose is to understand district finances and identify potential revenue sources, cost savings and process improvements.

Committee Primary Responsibilities & Expected Outcomes

Short-term: Identify additional revenue sources, efficiencies and savings related to potential activity fees, optional service fees, low-enrollment classes and/or electives, booster club grant request/teacher wish-list processes, corporate matching donations/sponsorships, check writing campaign and any other additional areas.

Mid-term: Understand and evaluate the costs and benefits of district investments—Return on Investment Analysis (ROI).

Long-term: Evaluate the advantages/disadvantages/opportunities of creatively using I&S funds for items paid with M&O dollars and the potential for retail operations at district properties.

Ongoing: As a result of ongoing funding challenges facing public education in Texas, the committee will also have local involvement with elected officials in an effort to address these funding challenges. The expectations of the committee are that members will not only remain involved in budget discussions but will serve as public education and District advocates in communication with our elected officials.
