STUDENT REPORTS

Mia Doyle informed the Board that the Relaxation room is nearly complete and there will be a big reveal soon. Winter sports have started and so far are going very well.
Mia also shared Amaya's report including an update on the Principal's Council and the subcommittees. She also reported that she was working with the technology department to get a video monitor for the Wellness room.

PRINCIPAL REPORT

Mr. Franklin started his report by explaining the Program of Study for the 2026-2027 school year is currently being reviewed and will continue to be reviewed until winter break. The school store is progressing wonderfully. It is now open during the school day and provides items that range from snacks, school supplies, and apparel. It will be open for the public to shop on December 13 and December 20 from 10 a.m. to 12 p.m. for holiday purchases. He was also pleased to tell the Board that they were able to send 15 freshmen women to a leadership conference at TPC River Highlands in Cromwell, CT.

Superintendent LePage read Middle School Principal Mr. Ryan Cornelius's report as he was absent for the meeting. The entire Middle School was able to go on a field trip to Hartford Stage to watch A Christmas Carol production. All students had positive reviews of the play and everyone seemed to have a wonderful time. NAPE has chosen our Middle School to participate in their math and reading testing. Parents will be notified of the testing within the next

few weeks. As of now, the plan is for 25 students to participate in the math section and 25 students to participate in the reading section.

SUPERINTENDENT REPORT

Superintendent LePage began his report by sharing with the Board that the drafts of the Teachers and Administrators' contracts have been finalized. Brief discussion on the increases followed.
The OSHA review report is expected to arrive any day. When that report comes in, he will be requesting an informal meeting with them to review the steps taken already. He then noted the team's diligence and willingness to make the building as safe as possible and bring everything up to code.
There was a candidate chosen to fill the Special Education Supervisor position. Ms. Marie McManus was unanimously chosen out of approximately 20 applicants for the position.
Hartland has asked to join our insurance consortium to avoid an enormous increase within the Winchester group where they are now. In collaboration with all members of the consortium and our insurance brokers, the decision was made to add Hartland to the consortium.
He shared that the AI Policy has been shared with the Board for the first reading.
Setting the 2026 graduation date was brought to the Board's attention in order to reserve a date at the Warner Theater. He proposed the Board consider voting on the new graduation date and suggested June 15, 2026.

Director of Finance and Operations Report

Mr. Gaskins shared that the ongoing Vo-Ag roof project is almost completed. Gutters were placed on the building this afternoon. The security / infrastructure project is in the final stages of completion where minimal tasks such as phone programming are left. He noted that the government shutdown delayed some of their payment allocation for funding projects, but the school did receive one $200k allotment from their first request. Overall a positive outlook for the upcoming year as the budget is starting below the prior year's amount.

OLD BUSINESS

Updates: None.

Goals: None.

NEW BUSINESS

Brief discussion regarding the increases of the newly negotiated contracts occurred. Teachers will have a 13% increase over a 3-year span, which is lower than national average by .1%. Administration will have a 9.75% increase over a 3-year span.

MOTION by Ms. Kenneson, seconded by Mr. Gauthier, to **ACCEPT** the Northwestern Teachers Association 2026-2029 contract, as presented. **AYE:** Ms. Sexton Read, Mr. Jerram, Mr. Gauthier, Ms. Kenneson, Ms. Bell, Ms. Crone, Ms. Fragale**. NAY:** None. **ABSTAIN:** None. **MOTION PASSED.**

1. Agenda Item: NTA Retirement Incentive Plan

Superintendent LePage presented a proposed one-time retirement incentive for the Northwestern Teachers Association (NTA) to facilitate planned staff reductions while preserving morale and retaining high-quality newer staff.

Key Discussion Points:

- **Rationale:** The district needs to reduce four positions. An incentive encourages veteran teachers to retire, allowing the district to avoid non-renewals or "RIFs" (Reduction in Force) of talented newer teachers.
- **The Options Offered:**
    - **Cash Option:** A one-time payment of **$10,000**, paid within 60 days of June 30, 2026.
    - **Insurance Option:** Medical insurance coverage (HDHP employee plus one) for one year. In exchange, the retiree must **substitute teach for 20 days** at the daily sub rate ($120/day), or applicable substitute rate for the 2026-2027 school year.
- **Eligibility & Deadlines:** Teachers must submit an irrevocable letter of retirement by **January 9, 2026**, effective no later than June 30, 2026.
- **Financial Impact:**
    - Estimated gross cost of salaries/benefits for the interested teachers: **$607,118**.
    - Estimated savings after incentives and one necessary re-hire: **$443,433**.
    - Total potential long-term budget impact: Significant amount of savings over multiple budget years.

Participant Feedback:

- The Board discussed the minimum number of participants. Although the document identifies five as the target, the Superintendent and Board agreed that the plan remains viable even if fewer than five teachers participate.

Motions

- **Motion 1:** To approve the retirement incentive plan as presented and authorize the Superintendent to share the plan with the NTA and engage in negotiations to reach a mutually beneficial settlement.
    - **Moved by:** Terri Kenneson | **Seconded by:** Deb Bell
    - **AYE:** Ms. Sexton Read, Mr. Jerram, Mr. Gauthier, Ms. Crone, Ms. Bell, Ms. Kenneson. The motion passed unanimously.
- **Motion 2:** To adjourn the meeting at 6:15 pm
    - **Moved by:** Noel Gauthier | **Seconded by:** Terri Kenneson
    - **AYE:** Ms. Sexton Read, Mr. Jerram, Mr. Gauthier, Ms. Crone, Ms. Bell, Ms. Kenneson. The motion passed unanimously.

Regional School District No. 7

School District AI Usage and Integrity Policy

Northwestern Regional School District No. 7 recognizes the transformative potential of Artificial Intelligence (AI) and is committed to supporting the ethical, purposeful, and innovative use of AI. We believe that AI must be used with intentionality and responsibility to deepen student learning while upholding standards, academic integrity, and fostering a love of learning.

The development of an Artificial Intelligence (AI) policy for Northwestern Regional School District No. 7 must prioritize leveraging AI to enrich the educational journey while ensuring academic integrity and respecting the varied levels of AI readiness among all stakeholders - students, teachers, administrators, and paraprofessionals.
This policy framework is built upon the commitment that AI will serve as an augmentative support tool, not a replacement, and demands critical literacy and transparency from every user.

Northwestern Regional School District No. 7 AI Usage and Integrity Policy Framework

I. Guiding Principles: Honoring our Commitment to Student Readiness and Integrity
The foundation of this policy is built on three core principles designed to foster a balanced approach to AI adoption:

1. Fostering Student Learning: AI is intended to support creativity and learning, not replace authentic student endeavor or teacher instruction. As a district, we remain deeply committed to providing a quality educational experience for our students, integrating high-quality curricular and instructional resources while leveraging the capabilities of AI to enhance student learning.

2. Ethical, Competent, and Responsible Use: We seek to teach students behaviors surrounding ethical and purpose-driven engagement with AI. Toward that end, we commit to teaching students to critically evaluate AI outputs, questioning for accuracy, bias, and credibility. We endeavor to teach users to engage in academic transparency when engaging with AI.

3. Balanced Human and AI Roles: The educational experience that we provide will reflect the value of human connection, empathy, and social skills, ensuring AI does not substitute for necessary face-to-face interactions or emotional support.

II. Appropriate Student Usage and Academic Integrity
Student guidelines emphasize ethical conduct and transparency, ensuring that AI use supports their development as passionate and empowered Learners.

A. Transparency and Citation Requirements
Academic integrity hinges on full disclosure of AI assistance.

• **Ask Permission First:** Students must always start by asking their teacher if they can use Generative AI (GenAI) on the specific work assigned. Teachers should do their best to

communicate the level of AI integration they are comfortable with for assignments provided to students.
• **Mandatory Disclosure**: Students must be honest about when they use AI to help with assignments. Any AI-generated content must be clearly identified and cited.
• **Tracking Usage:** Students are required to track their usage of any AI tool by copying and pasting their conversation with the AI into a document that accompanies their submission.
• **No Unmodified Submission:** Students must not turn in work that is fully created by an AI as their own without substantial modification and disclosure.

B. Acceptable and Unacceptable Uses (The Augmentation Boundary)
The following table provides guidance for acceptable and unacceptable uses of AI when teachers deem AI acceptable for a given instructional task.

Possible Acceptable Use (Support and Augmentation)	**Always Inappropriate Use (Plagiarism and Misuse)**
Brainstorming: Generating ideas or outlines for creative writing, projects, or preliminary research.	**Submitting AI-Generated Work:** Turning in assignments entirely created by AI without disclosure or modification.
Practice and Revision: Utilizing AI for practice exercises, grammar checks, or general feedback.	**Plagiarism:** Using AI to rephrase existing content without proper citation to bypass detection tools.
Personalized Learning: Utilizing AI for tailored support (e.g., breaking down complex concepts) to learn at one's own pace.	**Misinformation:** Relying on unchecked AI-generated information without verifying its accuracy (as the student is responsible for all facts presented).
Refining Communication: Using AI to draft or organize ideas, but ensuring the final communication is in the student's **authentic voice**.	**Ignoring Teacher Instructions:** Submitting work without confirming that GenAI is permitted to be used.

C. Critical Evaluation
Students must act as Critical Thinkers and Problem Solvers. If they use AI, they must review its generated output for mistakes and be responsible for the accuracy of the information, even if it originated from the AI.

III. Guidelines for Adults (Teacher, Administrator, Para)
Guidelines for adults focus on modeling ethical behavior, professional development, and ensuring equitable access, thereby supporting staff across the readiness spectrum.

A. Educator Responsibilities
AI capacity development within our learning community is a shared process, supported through professional learning opportunities.

• **Establish Norms:** The school community must establish clear norms for productive AI use.

• **Educate Students**: The school community must educate students on AI risks, such as hallucinations, deep fakes, and bias, to foster safe and ethical use.

• **Model Critical Thinking and Evaluation**: The school community must model ethical AI practices, fact-checking, and analysis for students when generating examples, ideas, or data using AI.

• **Focus on Essential Skills:** Educators should focus on developing critical thinking and problem-solving skills that AI cannot replicate, increasing the "durability of lessons".

• **Professional Exploration:** Educators are encouraged to collaboratively explore AI with colleagues, sharing best practices and reflecting on its impact to improve their own efficacy and instruction.

B. Administrator Responsibilities
Administration ensures system-wide ethical compliance and supports staff readiness.

• **Policy Development and Review:** Administrators will develop guidelines for safe, ethical AI use and continually review academic honesty policies as AI technology evolves.

• **Professional Development:** Administration will provide necessary professional development on AI literacy to ensure all staff members—regardless of their current readiness—are equipped to integrate AI safely and effectively.

• **Equitable Access:** Administration must ensure equitable access to AI tools for all students and staff, supporting an inclusive learning environment.

• **Monitoring and Feedback:** Administrators will monitor AI use and implement systems for continuous improvement, informed by feedback from all stakeholders.

• **Data Compliance:** Administrators must ensure compliance with student data privacy requirements when vetting and implementing AI tools.

IV. Universal Requirement: Data Privacy and Security
Regardless of the user's role or readiness, adherence to data privacy standards is mandatory.

• **Avoid Personally Identifiable Information and Confidential Data: It is essential to avoid inputting any personally identifiable information (PII)** or confidential information (including student and staff contact information, rosters, or demographic data) into AI systems.

• **Loss of Control:** Users must understand that once data is entered into these systems, the district loses control over it, necessitating strict adherence to privacy guidelines.

Good Morning,

This email serves as a resignation letter as I have taken the position from Shared Services. Accepting this position aligns best with my current circumstances and goals. My official starting date is January 5th, 2026, meaning my last day will be January 4th, 2026.

Thank you,
Nick
