

Assist boarders with medication

awareness training

ONLINE
Course

\$77
per person incl GST

This course has been developed to provide staff with an understanding of how to assist boarders in boarding school settings with their medication needs.

This course looks at assistance with medication provided by boarding school staff in response to assessed boarder need and in accordance with:

1. the relevant health, support or care plan, and
2. jurisdictional requirements.

The course covers the distribution and administration of prescribed and over the counter medication as well as how to support clients with self-medication.

After completing this course you will be able to:

1. ensure you have the authority to proceed to assist a boarder with their medication
2. assist and support the administration of a wide range of different types of medications
3. understand some of the ways medications are classified
4. identify lines of authority, accountability and actions to be taken to handle contingencies
5. complete the documentation associated with the administration of medication, and
6. implement hygiene and duty of care procedures when addressing the needs of the client.
