CONSTRUCTION & RESTORATION

Pipeline to Possibilities

Brittany Shankel

VP - MARKETING & SALES

Buddy Reynolds

Estimator

Tim Miller

PROJECT MANAGER

ABOUT US:

Allen-Keith Construction & Restoration is a full-service construction company that specializes in restoring homes and businesses after damage from fire, water, storms, and mold. When something goes wrong—like a flood, fire, or severe storm—we're the team that responds fast, secures the building, and rebuilds it from the ground up.

Since 1976, we've worked across Northeast and Central Ohio providing everything from 24/7 emergency response to complete structural reconstruction. Our work includes carpentry, drywall, roofing, electrical, flooring, and more—often coordinating directly with insurance companies to help people get back to normal. At the end of the day, we don't just fix buildings—we solve problems, rebuild communities, and offer real hands-on careers in the construction trades.

TYPES OF JOBS AVAILABLE:

- Field Workers - Construction
- Estimators
- Project Managers
- Painters
- Cleaners
- Water Mitigation Crew
