THE BIGGEST CCP PITFALLS

In our experience with students who want to do college classes (CCP), these are the biggest pitfalls when going through the CCP process:

1. Never applying and getting accepted to the university because a college class is already on their Green HS schedule
2. Did not submit everything from the CCP Checklist
3. Missing deadlines
4. Not checking and thoroughly reading all emails from the college(s) which leads to:
    - Missing required orientations
    - Missing application documents
    - Missing information on setting up their college account
    - Missing info about needing to take a placement test for acceptance or for a class prerequisite
5. Not applying prior to the deadline
6. Not keeping track of Usernames and Passwords
7. Using your Green email

We have seen these pitfalls lead to NOT being able to take college classes!
