Welcome to Career and Technical Education Strands

Students and Caregivers,

Career and Technical Education (CTE) Strands give students the chance to explore real-world careers and build skills that lead to success in college, work and life. These programs are designed to help students grow into confident, capable learners who are ready to pursue their goals and make a difference in their communities.

CTE Strands offer:

- Hands-on, minds-on learning in high-skill, high-wage, high-demand fields
- Opportunities to earn college credit and industry-recognized certifications
- Real-world experiences like internships and career-connected projects

Students begin with introductory classes at their home high school. In 11th and 12th grade, they may take intermediate and advanced courses at a Strand site; transportation is provided.

These courses prepare students to take the next steps toward college and careers with purpose and direction. We value the role of families and caregivers in this journey and invite your partnership and support as we build these opportunities for our students.

CAREER WHEEL

Osseo Area Schools has created nine Career Strands for students that lead to in demand skilled occupations in our area and the greater Twin Cities. Career Strands are programs of study that include opportunities to earn college credit, industry-recognized credentials / certificates, and gain real world career experience while in high school.

Our Career and Technical Education (CTE) Strands are available to all high school juniors and seniors with transportation provided. Each Strand has introductory classes available at the students' home high school to get them started down the path.

Our staff is committed to high quality hands-on, minds-on learning!

EARLY POSTSECONDARY OPPORTUNITIES

 Osseo Area Schools	ACC	CE	AP	IB	PLTW	IC
Icon						
Descriptions	• High school course aligned to standard of local postsecondary (PS) institution. • Students must take another class at that PS to get the credit	• Postsecondary (PS) course taught at the high school or online • Students enrolled in the PS institution	• College-level high school courses offered in multiple subjects • Nationally recognized exams	• Academically challenging course of study offered at high school level • Internationally recognized exams	• High school course aligned to college level standards in the field. • Exams recognized at select Postsecondary institutions	• Assessment by an independent certifying entity based on standards for knowledge, skills, and competencies
Structure	Course	Course	Course and Exam	Course and Exam	Course and Exam	Exam
Provider	Post Secondary Institution	Post Secondary Institution	The College Board	International Baccalaureate Organization	Post Secondary Institution	Industry
Student Fees and Assistance	No costs to scholar or district	Course costs paid by district, no cost to scholars.	Exam fees	Exam fees	No Exam fees Application fee for credits between \$35-\$100 per PS credit	Exam Fees
High School Credit and Graduation Requirements	• Course counts toward high school graduation credits. • Some courses meet high school content requirements.	• Course counts toward high school graduation credits. • Some courses meet high school content requirements.	• Course counts toward high school graduation credits. • Some courses meet high school content requirements.	• Course counts toward high school graduation credits. • Some courses meet high school content requirements.	• Course counts toward high school graduation credits. • Some courses meet high school content requirements.	• IC is a part of the program and does not meet graduation requirements
Postsecondary Credit Determinant	Completion of course(s) with grade of B or better	Completion of course with grade requirement noted in syllabus	Score on AP exam	Score on IB SL or HL exam	Score on End of Course exam Grade of B or better in course	Score on industry certification exam
Postsecondary Credit Awarded	Awarded upon matriculation	• Credit awarded on PS transcript upon course completion • Credits can be transferred to other PS institutions	• Determined by PS institutions • Awarded upon matriculation	• Determined by PS institutions • Awarded upon matriculation	• Awarded upon application • Credits can be transferred to other PS institutions	• Determined by Post Secondary Institutions

DIRECTIONS AND HOW TO READ

1. Complete the planning document or review Xello

2. Review the data for your Strand

- Strands are available to students from all high school sites.
- Introductory courses will be offer at home school sites.
- Intermediate and Advanced courses will be offered at Strand school site.
- Work based learning allows for authentic experience.
- Student organizations support applying and developing leadership skills in the career field.
