Sayre School Named to Advanced Placement School Honor Roll

Sayre School has been recognized for student success in the Advanced Placement program while broadening participation

Lexington, KY – College Board announced that Sayre School has been named to the 2025 Advanced Placement® Program (AP®) School Honor Roll, earning Platinum distinction for the third year in a row.

The AP School Honor Roll recognizes schools whose AP programs are delivering results for students while broadening participation. Schools can earn this recognition annually based on criteria that reflect a commitment to increasing college-going culture, providing opportunities for students to earn college credit, and maximizing college readiness.

Sayre had 85% of seniors who took at least one AP Exam during high school, 82% who scored a 3 or higher on at least one AP Exam, and 10% who took five or more AP Exams!

Advanced Placement at Sayre:

- 21 AP Classes
- 83% overall Pass Rate
- 63% of students scored a 4 or 5

“I’m incredibly proud of our students and faculty,” said Head of Upper School Dr. Clint Calzini. “This year’s AP results reflect the deep content knowledge of our teachers and the dedication they bring to supporting students every step of the way. Our students rose to the challenge and invested the time and effort required to succeed on these national exams.”

“AP gives students the opportunity to engage with college-level work, earn college credit and placement, and build professional career skills they can use no matter what path they choose after high school,” said Trevor Packer, Head of the AP Program. “Congratulations to this year’s AP School Honor Roll recipients for proving it’s possible to expand participation in these rigorous courses and still drive strong performance.”

College Board’s Advanced Placement® Program (AP®) enables students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 40 subjects, each culminating in a challenging exam, students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond.
