DISTRICT CTAE STUDENTS TOP STATE GRADUATION RATE

January 13, 2026

(MACON, GA) – Bibb County School District’s Career, Technical and Agricultural Education students topped the state CTAE average with a 98.97 percent graduation rate for the Class of 2025. This marks the third year in a row that Bibb students who completed a career pathway have graduated at a rate of 98 percent or higher.

“CTAE transforms learning into purpose and bridges the gap between graduation and opportunity, equipping students with real-world skills for a meaningful future,” said Dr. Cassandra Washington, the District’s Executive Director of CTAE.

The CTAE graduates in the 2023 and 2024 classes both graduated at a rate of 99.62 percent. For the Class of 2025, all seven District high schools had CTAE graduation rates of 96 percent or higher, led by Howard High School, Southwest High School and VIP Academy with 100 percent CTAE graduation rates.

For the 2025-2026 school year, Bibb CTAE offers students the opportunity to learn and develop across 39 career pathways, including such disciplines as agriculture, nursing, teaching and welding. In the fall of 2026, the District will add an Advanced Manufacturing Pathway.
