BOE Requested Budget vs. Funded Budget	63

January 8, 2026

Dear Members of the Board of Education,

With a strong sense of responsibility and collaboration, I present the proposed budget for the upcoming fiscal year. This \$130,299,074 budget reflects a 6.89% increase. A major driver of this increase is contractual obligations for our employees' salaries and benefits. These commitments were made to our employees as part of well-earned settlements reached through good-faith bargaining. With that said, a further challenge of this budget is balancing the financial realities of the current economy with our unwavering dedication to providing a first-class education for our students.

Other drivers of the increase, beyond contractual obligations, include higher energy, transportation, and rubbish removal costs. Despite our best efforts to advocate for increased state and federal aid, the minimal support we continue to receive from these sources places a disproportionate burden on our local community.

Historical information from the town's online adopted budget documents highlights the increasing burden on local taxpayers.

- In 2018-2019, the town received \$20,348,425 in Education Cost Share revenue from the state, totaling 21.2% of that year's operating budget.
- Eight years later, in 25-26, the town received only \$499,949 more than 18-19, despite an increase of \$26,069,919 in operating budget costs since 2018. This covered only 17.1% of the current fiscal year's operating budget costs.
- We are expecting flat funding to Education Cost Sharing Revenue again this year, which only perpetuates the gap between local and state/federal funding. If remaining flat, the expected \$20,848,374 share will only fund 16% of the operating budget for the 2027 fiscal year, despite \$34,471,545 in increased costs over this period.

In all, there were 41 staff-related requests spanning special education, the technology department, maintenance, and addressing our ever-increasing multilingual population. These challenges required us to carefully examine every line of our budget, making difficult decisions while striving to preserve the core programs and services that define our school system. Our goal throughout this process has been to ensure that our students' needs remain at the forefront, even amid economic constraints.

Looking ahead, I am eager to continue working collaboratively with the Board of Education, town officials, and community stakeholders to adopt a budget that balances fiscal responsibility with the needs of our students and staff. Together, we can ensure that our district remains a place where students are inspired to excel, educators are empowered to innovate, and our community takes pride in, reflecting our shared values and aspirations for the future of our district. Thank you for your thoughtful consideration of this proposal and your continued commitment to our schools and community.

The following pages highlight the adjustments and decisions that led to our final proposal.

Sincerely,

Steven Madancy
