

CISD Special Board Workshop Meeting
President's Report
January 12, 2026

I want to begin by welcoming everyone to the New Year. On behalf of the Board, I hope each of you had a wonderful Christmas Break and were able to spend meaningful time with family and friends. We're excited to begin a new semester and look ahead to all that 2026 has in store for our students, staff, and community.

I would also like to update the community on our process for hiring the District's next head football coach. This is an important decision, and the Board is committed to conducting a thoughtful, transparent, and thorough search. We will begin interviews within the next week. A hiring committee has been formed that includes a strong cross section of community members, District administrators, and trustees. Superintendent Dr. Glenn and I, as Board President, are both actively involved in this process, and are part of this committee. To protect the integrity of the search and ensure open and honest dialogue, the remaining members of the committee will remain anonymous. As always, we appreciate your understanding.

We are pleased to share that we've received a diverse and highly qualified pool of applicants from across the country. This reflects the strength of our District and the reputation of our football program. Our goal is to have a head football coach in place by March 1. However, we want to be very clear: we will not rush this decision or settle for anything less than the right fit for our District. If additional time is needed, we will continue the process until we find the coach that best aligns with our District's values, expectations, and commitment to excellence.

We would also like to clarify that we plan to decouple the athletic director and head football coach positions. The selection of the athletic director will be pursued through a separate process and will take place after a head football coach has been selected. This approach allows us to give each role the attention and focus it deserves. If anyone in the community has questions about this process, we encourage you to reach out directly to myself or to Superintendent Dr. Glenn.
