Using AI AT SCHOOL

A simple guide for when AI is OK — and when it's not.

STOP — NO AI, ALL ORIGINAL WORK

- *Do not use AI at all for this assignment.*
- *All writing must be your own work.*
- *Using AI here counts as plagiarism.*

PAUSE — FOR PLANNING+EDITING

- *Use AI only in the way your teacher allows.*
- *Brainstorm with AI, but write & edit the work yourself.*
- *Cite or explain any AI use in your assignment.*

GO — AI FOR CREATING WITH YOU

- *Use AI to help draft your work, only if your teacher allows.*
- *AI can support you, but your work must be your own.*
- *Explain what AI helped with and double-check its answers.*

SHARED EXPECTATIONS FOR ALL LEVELS

- *Use your own thinking — always question AI output.*
- *Always say when and how AI helped.*
- *Always follow your teachers instructions.*
- *Read AI results carefully to make sure they are correct and appropriate.*
- *AI should help you, not do all the work.*
