MUSIC NEWS

In music class

Students had a fantastic time using Rhythm Sticks to explore the exciting world of beats and patterns! As they clicked, tapped, and echoed different rhythms, students weren't just making music; they were building important listening, coordination, and timing skills. Learning to keep a steady beat helps children develop focus, teamwork, and even stronger language and reading abilities. It's amazing to see how something as simple as two sticks can open up a world of musical understanding and joy!

FALL FUN !
