

E-rate C2 Equipment RFQ 008 (2025/2026)

Questions

- 1) **Question:** The 9350-48HC switch does not come with any power supplies – so you have 18 switches but only 2 power supplies so 16 switches will not have any. Is that correct or did you mean for those to be 18 and then you wanted to have 2 secondary power supplies for two of the switches? (PN#PWR-C2-1600WAC-I/2)
 - **Answer:** Each Meraki (C9350-48HX) switch should include 1 power supply as they are needed to operate. If the switch does not include a default power supply with it, please add the power supply as an item. In addition, two switches will require a second power supply, thus 2 additional power supplies were listed. In total, there must be 20 total power supplies shipped.
- 2) **Question:** Are the C9350-NM-8Y for the 18 switches? If so is your intent to have 18 of those for the switches and 1 extra?
 - **Answer:** Yes (19 total)
- 3) **Question:** You are only asking for 2 of the C9350-FAN-I fan kits but the base switches with 1 each of those at no cost. Should that be Qty 18?
 - **Answer:** Each switch should include a fan assembly as they are needed to operate. We believe each switch includes a fan built-in as default, if not please adjust quantities as needed. In addition, we are requesting 2 additional fan kits.
- 4) **Question:** (PWR-C2-1600WAC-I) This is already included in 18 Switch requested (18 C9350-HX contain 18 power cable). This is already included in 18 Switch requested (18 C9350-HX contain 18 power cable). Do you want 2 spare?
 - **Answer:** Yes, all switches should include a power supply. In addition, two of the switches will require dual power supplies. Thus a total of 20 total power supplies shipped.
- 5) **Question:** (CAB-SPWR-100CM=) Not included in C9350-HX switch by default but can be included. Do you want only 6 cables or you need 1 cable for each switch (18) plus 6 cables?
 - **Answer:** We are requesting only a total of 6 (CAB-SPWR-100CM=) StackPower cables total as we don't need one for every switch.
- 6) **Question:** (STACK-T1A-1M=) Not included in C9350-HX switch by default but can be included. Do you want only 6 cables or you need 1 cable for each switch (18) plus 6 cables?
 - **Answer:** We are requesting only a total of 6 (STACK-T1A-1M=) Data Stacking cables total as we don't need one for every switch.
- 7) **Question:** (C9350-FAN-I) This is included in C9350-HX Switch 3 Fans per one with total (3*18=54). Do you need 2 extra Fans ?
 - **Answer:** Yes, we are requesting 2 extra (C9350-FAN-I) fan assemblies
