

Neenah High School

Junior/Senior Release

All junior and senior students will begin the school year with release during their assigned lunch and mods in which they have no scheduled classes. This means that they will have the privilege of leaving school grounds or remaining in the designated area at NHS during their free mods.

Expectations of release:

- Students will not engage in behaviors at school that result in discipline referrals.
- Students will not be truant.
- Students remaining at NHS for their release time will be in the library and follow all applicable school expectations.
- Students may use release time to meet with an assigned instructor. Students will be responsible for getting a pass from their instructor.
- Students choosing to leave school grounds for release will return to Door #1 and remain in the designated waiting area until the bell rings to dismiss students to their next mod.
- Grades will be checked at 9 weeks during each semester. Students receiving a minimum of one letter grade F or an Incomplete will lose their release privileges.
- **Students who are truant from their assigned location will lose the opportunity to regain release privileges for the remainder of the current semester and be subject to administrative consequences.**
- Students may request reinstatement of release privileges if they have no letter grade F's or Incompletes within the first two weeks of structured location placement.

*Administration reserves the right to revoke release privileges.

**Students may not have more than 2 (Juniors)/3 (Seniors) releases during any given school year.
